scientific, as the public's concern intentionally. It is clearly an act of hatred for all life as our Nature, for it is so beyond irrational, and into maliciously evil, and in of itself, should warrant prison sentences, if not immediately halted for public review demanded to be broadcasted on CNN internationally, in a manner where the staff actually tries to do something on behalf of the weakened nation as still barely living. I have wondered of a Canadian prosecutor against myself standing, if unfortunately the RCMP, in conclusion, do privately decide against ourselves being by playing stupid against democracy and freedom would be my defence I'd suppose they would appear to all, while begging for forgiveness from those who know not what I write. (I can't even read this myself sometimes. When I was questioned weather I wrote "The Trial and Conviction...", it was murmured quickly, that, oh we have ways of proving you did with our government crack computer specialists, so don't try to get out... Huh? I, in the paper weeks previous to them stealing my goods, mention directly my discussions with my provider, let alone the computer geek fact, that every paper I've published on usenet has address headers. And oh ya, and then there is the second paragraph in "The Trial..", and the mention of my full name elsewhere, with tons on contact information. No, this is about not allowing my legal, rational, provable arguments made public against bush and rumsfeld the war monster criminals, for fear to face the horrible failures of our corporated media to represent Justice as ourselves in North America. Having me now placed potentially closer to the position I was struggling for, by attempting to actually imprision ourselves under bush dictatorship ruled broken by everyone. Thanks for helping to realistically illustrate my argument. Goodbye cruel world.) I would suspect if so, an effort argued bogusly, in a possible corrupt court room only to foul our sacredness as humanity under tyranny against our nature to be insulted, with the news bank bosses ignoring our downfalls, to not allow to plead my case openly as John, so here I make it now. I beg of you as a stranger to help our Justice ring through, if not for me, for yourself as deserve to do so. Or, go straight to hell, who needs who. Mr. bush's private Secret Service agent was drinking diet coke when I first spoke with him person to person. (I've written at least five papers discussing the science of monsanto.) Didn't really seem that all a bad bloke, and I do believe we left on fairly, no need to kill each other terms mutually. But, thought all the people in this world should be blown to

bits without thinking nor discussing why it seemed he thought those he didn't know were deserving of murder, along with our families as collateral damage, and the country side toxically polluted for generations like in Iraq, to waste billions to give the bushmob to sell heroin and distribute cocaine for his fear of the CIA, of which fairly, he seemed ashamed when I mentioned it, bush's pathetically weak and cowardly cocaine dealers who are acting illegally, desecrating the American flag, the Constitution, the Bill of Rights, and so on because, the northern alliance treated women so badly before the Taliban he witnessed to tell me all about it briefly, and how all deserved to be slaughtered blindly to make him feel like American, and no other ideas had been implanted by command headquarters when they sent him on his own for testing my friend or foe hyperspace capabilities. Why all the murders we stand for? Because apparently, the al-Qaida that Americans never heard from, state nazi corporate america has no right murdering and stealing from ourselves as humanity, while propping up military dictatorships with American people dollars, killing innocent families attacking Allah by representing the evil in Jihad, as all would agree who could think likely from any religion including atheism. The nazi bankers with daily full page newspaper ads don't like that philosophy understood by ourselves as the silented as taken to be granted, while our in debt soldiers are told to murder people accused of crimes without any evidence. Nazi Germany all over again, while racists utter threats against entire nations going unchallenged as actually published. Mr. rick lowry of the national review goes unarrested and corporately celebrated, suggesting to nuke Mecca, and sites 'moderates' who suggest 10 other capital cities, nevermind Philadelphia, while I yell, "get bush and rumsfeld now as the nazi war criminals they are, escaping true American JUSTICE INFINITE as INDIVISIBLE!", (just pretend I'm not here). Central Affairs representative Christina Rocca, the evil witch she was to humanity as God, uttered the CRIMINAL threat to the Taliban's embassador for choosing the better LEGAL business deal in August "Except our offer of a carpet of gold, or we'll bury you in a carpet of bombs."

Unocal and the Afghanistan pipeline
by Larry Chin
Online Journal, 6 March 2002

... Osama bin Laden advised the Taliban to sign with Bridas. In addition to offering the Taliban a higher bid, Bridas proposed an open pipeline accessible to

warlords and local users. Unocal's pipeline was closed for export purposes only. Bridas' plan also did not require outside financing, while Unocal's required a loan from the western financial institutions (the World Bank), which in turn would leave Afghanistan vulnerable to demands from western governments.
Bridas' approach to business was more to the Taliban's liking. Where Bulgheroni and Bridas' engineers would take the time to "sip tea with Afghan tribesmen," Unocal's American executives issued top-down edicts from corporate headquarters and the US Embassy (including a demand to open talks with the CIA-backed Northern Alliance)....
J.W. reminder: The northern alliance are bush's heroin pushers with women slaves
---
Of course CNN again, refused to protect Justice infinite by reporting the facts, while bush followed through by murdering more than 3000 mostly wealthy citizens as his excuse to murder more us good people for his evilness (CNN reported bush most popular according to their bogus tabulations that seemed to neglect, no one voted for me either), while now two seemingly unread RCMP officers, a single Secret Service agent, and one justice scribbled Obrein or maybe it's OBorien look to ignore my equal rights, by claiming my demands to be human, something they as nobodies will hide from, while attacking my credibility hidden by private news agencies from the public, hoping we will just die away with them to plunder who? BZzzzzzTT! Wrong. Welcome to the Twilight Zone late comers. These cops supposedly of ourselves, are well aware but pretend can't read, bush and rumsfeld blamed an entire nation of millions for a crime without any evidence, but to steal and plunder, over crimes they were responsible for, murdering everyone, while I wrote every real proud and strong American should help our police detachments, stand up and shoot the two nazi bastards in good lighting immediately, for trying to undermine everything the American flag represents, while purposefully leveraging the general populace to remain in ignorance, as CNN just refuses to report on anything regarding the State of the Union, attempting to escape the Judicial system by destroying our democracies, sacrificing soldiers too stupid to live godly. Now we can only assume these officers are trying desperately to convince the real RCMP to cower as duplicitous, as too stupid to care for themselves as our own brethren, trying to find me guilty as just one man named John for living natural, to make them as nazis strong for oppressing our Nations as God

everywhere, because of their inability to stand on guard as Royally Canadian. They've actually told me they are going to attempt to charge me for something, but know not what to total yet. They seemed fairly excited over the prospect of stalling our entire human race, needing to learn first how to, then to go through hundreds of thousands of Amiga documents, programs, libraries, and device drivers, that the entire Amiga World community has been working through for 20 years, then there is the thousands of individual games from the eighties that they'll need to learn the intricacies of, my absolutely huge art collection of mostly babes, dragons, movie posters, and sea mammals, and finally my 'Johnny Archives' drawer, that they of course in terror, will completely ignore, along with North American criminal lottery revenue tabulations, neuroscientific MMT papers, (The most horrific toxin known to humanity), the bad evils of Monsanto we can be sure will be considered a definite "oh, they didn't see that as officers of our laws", AZT? shell and talisman? Forget that, just let those people out there die as murdered they would snicker privately in secret telling nobody, no, it's all about finding a way to send Johnny, he thinks he's so smart, genius away for being brave and oh so freakishly strong. It's already been near a month of planning to hurt our ability to communicate as humanity, as it is becoming increasingly more difficult for me to post my ramblings, while neglecting my legal demands for bush and rumsfeld's criminal arrests as repeating offenders of first degree murders still threatening everybody. GIVE US BACK MY AMIGA! Or, real officers, military and otherwise, along with your co-workers, your neighbors, and my family of garbage pickers, will charge you with obstructing Justice. For, your cowardice to protect our communities is not my own as John, and attempting to hurt me as an individual to hide from your paid responsibility to our communities, is not what the REAL RCMP stands for publicly. Obstructing Justice is a charge that holds a maximum life term prison sentence if we look to the mounting dead bodies, in a court case we will likely preside over as true, brave, strong and free, against fools trying to break our living spirit to believe in my determination to have this done on behalf of everyone.
Barely alive Iraq is no threat to anyone, but torture advocate cheney as soon to be war criminal like bush and rumsfeld. stopthewaragainstiraq.org Spend five minutes at that site which sends info around the globe, and then notice how CNN doesn't want to play the public on the issue understood by all our experts. I'm not sure

myself of CNN, for I can't stand wasting my time any longer watching themselves ignoring everyone. If the corporational news degenerates, continue espousing the benefits of siding to be nazis in our names, escaping our justice system as mass murderers, Mr. rick lowry, bush and rumsfeld, will be challenged by every proud NRA card carrying, God fearing, life protector imaginable, this includes of course our REAL POLICE agents of freedom in the Secret Service, that are smart enough to believe in the name of the law, and not idly shaking in terror, while attacking our citizenry for speaking out rationally on behalf of our falling dead comrades. Ed McMann and bush are planning to tour American elementary schools to teach children to help secretly identify those 'others' who are "injurious to the domestic tranquility of the people", and teaching the "importance of patriotism and obedience to the state", pope nazi bush is so terrifying on his own representing the dark ages as evil incarnate, I couldn't possibly make this horror up, and Ed has always been a stupid drunken sell out, so, no big surprise there for anyone. Can you please e-mail this letter to the staff of your favorite radio program for me please, then we'll all listen to themselves turn against our communities as us CIA (see below), FBI, and legitimate officers of our LAWS, by remaining silent while hanging up on everyone trying to protect ourselves from war mongering nazi crime lords, as truth to set us free from the chains of tyranny will take a course, it's just how many will willingly in fear of living, take bush's place for nazi sacrifice, instead of standing to prove our worths by demanding justice for all right God damn now? What can they be scared of but us? Do some fear we'll make'em look stupid for being so? What can we blame but the time we run so quickly short on, for we must not dawdle, and get back to work to pay the bankerman for doing nothing, so to give our luxuries of freedom to do other things we know not of, because we're bust as it is, and this days almost completely done for now like the others, oh, but our hundred or so American multi-millionaire TV entertainers have it so good by never ever getting political generally, while hundreds of millions are robbed and murdered in their names as evil taking much by giving so little back in return, screaming nothing as individuals, pretending to be actual struggling artists, as this life is truly a pain for them to pay attention. ("Oh, but what about my poor dying fans who worship me like Jesus" they would probably say.) In other news, the good CIA elements were reported by The London Times, to have asked the London Financial Services, to investigate the

traced, extremely unusual 'put option' stock transactions regarding the two airline companies, (a 4000% off the norm bet they would both lose cash value) just prior to the terrorist acts taking place, they did, and came back with A.B Buzzy Krongard, bush's dumbass cocaine dealing, anthrax mailing, executive director of the CIA ourselves, who bush the nazi dictator now says the CIA can not arrest in a military dictatorship absent Universal law, and has recently told Americans, wimpass buzzy, will now be free to murder ANYONE American including subordinates, who dare try to reclaim their rights as an equal under God not heard from. We say true brave American soldiers and our grandmothers everywhere say otherwise. Where is the Mafia when we need them for Christ sake? Oh ya, mostly dead, maybe I'm moving to fast on these issues eh? These facts mean bush, rumsfeld, and now buzzy, are directly involved in the terrorist acts in NYC, of which bush, as American traitor, has publicly encouraged the WTC investigations to stop looking more evil to all as us than ever. CNN decided to drop the story they were almost holding right there, because it involved protecting our never talked about, good investigative working CIA officers (I was a little shocked also), justice and democracy for US people sold down the river, drats, actual work, where CNN rather just slaughter US innocent people and police officers instead of reporting on the bush crime waves, while selling cocaine to school kids, then call themselves heroes in my name after the carnage for blindly dropping bombs from the sky on everyone. Heroes? More like typical american nazi cowards, willing to murder their own families as themselves, than bravely put their lives on the line standing to protect Justice as freedom for everyone, as to what true bravery, and heroism has always been. While the world watched CNN broadcasting, American nazi soldiers celebrating joyously in contempt for God while singing, right after the unreported dropping of thousands of pounds of bombs on everyone in Afghanistan, body parts everywhere, while knowing directly as individuals, every single, there was no evidence offered that anyone there was responsible for any crimes whatsoever, including the Afghanistan women who worked for the newspaper, but for to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit.

Just prior to Sept 11th, bush ordered the Naval Strike Force in the Indian Ocean, a 24 hour strike force for DEFENSIVE purposes to be shut down. Mr. bush threatened to veto the Defence Appropriations Bill only after the Democrats tried to move 600 million out of 'Star Wars' and into anti-terror defence. The Star Wars program also includes in it's ranks, an extremely corrupt bunch of criminals, who bribed repuglicans to remove the American law against making false claims for governmental contracts, a seditious act as TREASON that was never reported by the Commi Nazi Network, who now defraud every American openly, escaping military tribunals because, American soldiers are clearly to everyone on the planet, left inept, and as pathetic cowards lacking leadership everywhere, stuck with evil American murdering rumsfeld as nazi kcuf, real leadership long gone years ago, when forced to shoot with dirty syringes as only the clinically deranged would order our soldiers need not to be thought human. So, as a consequence, most intelligence left disgraced without medals, that would have only accentuated their inhumanity as deranged lunatics. While now America's left with nazi soldiers who dance over the slaughtering of suffering third world civilians and police officers, who were in the process of making something better for their nation by following the guide of universal Justice, while evil rumsfeld the nazi fuck, offers a reward for murdering 'Omar the Just', because he asked for evidence that didn't exist. Why? Omar was standing up to protect the American flag by supporting the apprehension of those truly responsible for the WTC terrorist attacks against Justice as freedom America is quickly losing. As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against

those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. Mr. bush and rumsfeld must be immediately arrested to face a fair trial for their crimes in NYC, or suffer a death sentence carried out by every man smart enough to comprehend, that freedom for ourselves and family, mean Justice for all of humanity. Justice protects our democracies from those who wish to deprive ourselves the pursuit of happiness, and like nazi bush and rumsfeld, wish to steal our earnings and sacrifice our lives for their personal misgivings, and fear of this awesome universe. Creating only hardships and suffering as murders against everyone they abuse our God granted freedom, is truly evil and insane, as they are both without question, mankind's worst delinquents. Whew... On another note, as you can believe this to be also not reported, bush apposed all democratic, anti-Enron money laundering efforts by the Democrats as a traitor to every single American value.
(democrat.com) We true soldiers figure he burns the American flag when he thinks no one is looking. Mr. bush and rumsfeld need to be immediately brought out of the darkness to the witness of every American soldier, never heard till now as forgotten dead or otherwise, offered a fair trial, and then given life term prison sentences after a speedy conviction for the murder of all the lost American life continuing to fall unheard from, due to their terrorist acts involving us being censored, with me still here squawkin', just as before the man comes to take us away, haha, locked up to never as cared for, you people truly disappoint ourselves, leaving you to suffer this way for nothing. Why why why. All I ask you is to e-mail this to two people to help our planet survive okay? Then when I see ya, I'll give ya a star somewhere or something. Or don't, and get on your bad side, doing for nobody which would include yourself not heard from. I am not kidding here about this Revelations, Judgement Day, let's just try a little to help Johnny for Christ sake, somethings going to send him to the clink for being a super human being, and that doesn't seem right to anyone. Right? Buddies? Pals? Life long friends?
Thomas White - former vice chairman of Enron - Secretary

of the nazi american military, that refuses to believe in ourselves as a democracy demands a conduct of law to treat us human beings as kind, such as a governed nation of people should be considered innocent until proven otherwise. They placed in power illegally, heroin dealers and mass murderers of over 50,000 Afghans just a few years previous, who believe women should be slaves, while slaughtering just about the same to make Tommy look brave, killing us people as he actually told us he has no reason to give, or explain, who we must demand be closed down as arrested for actual war crime matters, for the sake of our innocent lives, and as nazis speaking as us illiterates apposing free speech, have made no commitment to peace in the region, but to place the burden and costs on every nation truly committed to ourselves as humans being. Look, Dutch shell and unocal's deal is a crime against Afghanistan, which offers nothing to the nation but bribes to officials who are almost all employees of unocal. What is coward drug pawn unocal employee, penned as Washington's own, Karazi's position on behalf of the crying children? For him to side with unocal, would mark himself traitor to every person concerned for the plight of people who live in Afghanistan, and he certainly wouldn't be a leader in anyone's summation with himself surrounded by drug dealers to feed our world's poverty stricken either, just as he walked in as to who he always has been. As well, we all know CNN will make no attempts to inform the public but to propagandize with lies, cheating the entire world so Ted can further cash in with our freedoms payed as collateral. Mr. bush, the biggest nazi of all humanity, spewing his hatred for our lives as his ignorant barbarity and contempt for Justice and freedom as the pathetic coward he truly is wasted and deplorable, was speaking recently, almost coherently, with the President from Peru after three private executive meetings, stated to our press, he wasn't so much interested in stopping the distribution of cocaine and heroin on the rise with his secret partners that most everyone of the literate world knows of in the back to the way it was Afghanistan and elsewheres, but the demand for it by the weak and dispossessed who quickly get hooked, then suffer hopefully for a lifetime he smirked, would be another way to steal our resources. Mr. bush is the evilest scumbag who has ever barely existed, a degenerate, a criminal, really really evil, and extremely unAmerican. Also, again, God damn you people, Mr. bush the terrorist, funds sharon to criminally steal our properties as a parasite, to ourselves as bleeding wounded host, purposefully murders

innocent families guilty of no crimes, and good police officers as wickedly evil against every God imaginable, while all CNNed Americans are expected to silently except our voices unheard, which encompasses close to 90% of newgroup mideast political traffic condemning the bastard, and more than 70% of the Israeli population 'officially' by the corporate standard present there agree he is a monster in this dying bushmob universe. Mr. sharon is NOT JEWISH and is not supported by any practicing Jews anywhere. G-D, he desecrated the THIRD Holiest of Holies, after slaughtering would be Jews of which the Israeli government commissioned him guilty for. But you know, he is constantly surrounded by nazi soldiers armed by the American tax payer, so he is difficult to detain, without attempting to blow people up in the market places he threatens, while continuing with repeatable murders that he holds no remorse for whatsoever. Ask the monster, he'll even tell you he is that evil. We'd call him officially the anti-Christ but bush won the toss up. MSNBC refuses to allow any of my clear to any arguments on private message boards they censor us for content, that way, Chris won't appear to directly ignore the simple thoughts against the murder of innocent lives that he advocates as not his own, and I think most people are starting to believe him as deliberately excommunicating himself as loser to our human cause. Plus, I have a limited ability to communicate as our weaknesses do sadly attest our general ignorance, for, the bushmob is now working to have my freedom stolen too, to incarcerate me for demanding Justice, while in silence, threatening every political leader by our corporate news departments refusal to protect myself as anyone. You could be me partner. Please help us in this regard, play a part in history, take some pity, I'm going to the funny farm as not understood by any they tell you to do nothing to protect our freedoms, destroying our eternal souls in acting so cowardly to even not stand for yourself as one to be worthy, left forgotten. Hello? Is anybody out there?
Lawrence Lindsay - Enron's advisory board - bush's regressive tax assault advisor against every principle the American flag once represented. The American economy is being looted. Trillions have gone away, while billions continue to be stolen. The criminals hiding inside the Pentagon can't account for more than 1.2 trillion dollars in American stolen revenues, while evil bush near doubled their takes believing obviously in no God, attempting to destroy nations in all honesty he hides through only corporate genocide, as our humans

lives are squandered without value as meaningless to the bottom line not existing. Depression will ensue if we are not allowed to understand this simple dying force being drained against our wills intentionally. Why will CNN continue to refuse interviewing me, us, them, anyone? Is it our wesly natenah-who dickhead smarmy, hitler warnt so evil like all those people out there are, four hour daily dose time again nurse? Do they by not doing so, support the oppression of ourselves not heard from? Help them hear me as public voice from the wilderness please for heaven's sake, have a heart for yourself man, bush is planning to destroy your world, of which he has no care for ourselves, because his deception as the anti-Christ now fools no one but himself as evil to all things imaginable.

No, really.

Marc Raciot - Enron's former chief lobbyist - Chairman of the crime ridden repuglican party, who has recently stated, he may continue to still lobby for bankrupt Enron as he leads repuglicans straight to victory. What a mastermind game player eh?

Printed below is a speech that Dennis Kucinich, United States Congressman from Cleveland, Ohio, gave recently while ignored completely by corporated american cult members, making him the first member of the United States Congress to openly repudiate President Bush's absent war rationale, and will be remembered in history forever.

Congressman Kucinich's,

A Prayer for America

Program note: (to be sung as an overture for America)

"My country 'tis of thee. Sweet land of liberty of thee I sing. From every mountain side, let freedom ring. Long may our land be bright. With freedom's holy light. Oh say does that star spangled banner yet wave. O'er the land of the free and the home of the brave?"

"America, America, God shed grace on thee. And crown thy good with brotherhood from sea to shining sea."

I offer these brief remarks today as a prayer for our country, with love of democracy, as a celebration of our country. With love for our country. With hope for our country. With a belief that the light of freedom cannot be extinguished as long as it is inside of us. With a belief that freedom rings resoundingly in a democracy each time we speak freely. With the understanding that freedom stirs the human heart and fear stills it. With the belief that a free people cannot walk in fear and faith at the same time.

If boats are selling seafood without the proper licensing here and they get popped, chances are high you won't be seeing the owner on that vessel again. They really cracked down on this over the years. The real money has been curtailed. Not only does a moratorium exist, but several years waiting list to attain certain commercial licensing permits for when they DO start reissuing such permits,,,such as Blue Crab. Some of the oldtimers were grandfathered..:)

That's catfish, retail Lake Erie Walleye come from Canada. It's even
illegal to sell Walleye that you catch on a line in the US.
I hope it stays that way too!

Never heard of doing that, I know people that feed them corn meal to
help clean them out. They sure are good eating.

or you can setup a linux box and whola.....no virus.....since
most of the world's pc's are windows crap......if you use a linux pc,
you are automatically immune to most of the viruses out there....since
the scripts are written to run on a windows platform.....very soon
i will completely linux oriented and i have no regrets.....

I'm not sure what kind of permits they need, but if you walk along the
piers in Galveston there is a long line of boats selling fresh shrimp.
They even sell them from roadside vans, kind of like the ice cream
trucks that I remember as a kid.

The only thing I have found that I can't duplicate on a linux system
is Quicken. Otherwise I wouldn't have anything to do with windows.

you sure wouldn't want me as president....i would .....pay off the
national debt, allow unlimited gun ownership after a thorough
background check...no license required..i would close the borders and
make them secure.....i would throw out all illegal aliens.....yes
all of them.....i would close the doors of opportunity to the world
as far as higher education goes.....they will have to make do with
the americans that are of that age.....it is not my problem that many
of the people that teach in these institutions thought it right to
kill the unborn therefore denuding their classrooms of prospective
students.....i would recall the army..... i would not allow money of
any sort to be lent to anyone that mildly be construed to be a
enemy....i would punish those that were responsible for this terrible
act.....and severely without warning....which is what bush should
have done.....i would declare war on the muslim nations as it is
now.....before they do the same to me.....english would be the
tongue of this nation and only english.....i would levy a 10 percent
flat tax to pay for things needed..a simple one page form is all that
is needed.....i would eliminate the irs and several unnecessary
government agencies.....i would sell off all government lands at
auction...except national or state parks.,.....i would eliminate
half of the size of the govenment in washington , in 10 percent
increments each year....i would press for single terms for all
congressman and women.....i would press europe for
monies owed us since the great wars.....i would send the un packing
and all of those creeps hanging around new york hiding behind their
diplomatic immunities.....and i am just getting warmed
up.....it would be a great time to be an american.....damn i
better slap myself....i am dreaming.....

That's about all you are good for -- smashing rocks. And when that becomes your
chosen career, I'm confident that you and your 'boss' will have "a failure to
communicate", and that he will 'learn' you effective communication....one way or
another.

look i really don't care about all of this since it will do no good
arguing about it but would you mind showing me where bush said there
was a connection because he didn't.....

its out there somewhere.....he had all kinds of goodies.....and a
lot of it is not really all that space intensive, such as vx gas,

nerve agents, poison gases of all kinds, etc, etc........it is in
syria i believe...and it will be found......you see the arabs decided
to counter the israeli nuclear position with the poison gas, and nerve
gas position ...besides it is cheap and easy for them to
replicate.........they wanted to go nuclear and they would have
eventually if they had been allowed to continue ....it is a good
thing sadaam is gone........he was extremely dangerous........we could
have taken him out by other means in my opinion but if i was to do
such things as have been done i would have killed everything that
moved in iraq.....that way no one would be alive to shoot back at
me.........war is hell doncha know.......but we now have contingents
of lawyers in our army who worry about all of this bullshit ,
etc.........oh let's don't hurt their feelings, etc.........bah
humbug.........i would have done what was right in my own eyes on
this issue....and it would not have bode well for the camel
jockies.......

A convoy
> set up to move such supplies would stretch for miles and take days to

well they did have convoys that moved it out to syria.....

Now, let us suppose for one second that your

well the fact that such things were noticed does not alter the way
they went about doing things........this politically correct army of
ours.......that makes a hero out of some little chickadee who got hurt
bad in a wreck trying to get out of a area of an ambush.........

it is not a door ....it is a place for idiots.....if you choose to go
there be my guest.......your vote doesn't count anyways.......i think
that people like you should not be allowed to vote anyway..just muck
up the works with nonsense.........

you have no facts, just prejudices and suppostion.... that is all you
have.......you blew your whole case and your credibility, when you
started talking about moveon.org.........bush does't lie.......it is
not in his character but what is in his character is too much
politicizing....now clinton that is another subject.........he was a
liar and still is.....it comes easy for him.........

Remember that little old debate I schooled Dave
> Hall on concerning freee college in Fla for all students?

twistinutts dave.........there is nothing free..someone is paying for
it...now if jeb bush pissed in your cornflakes because he is taking
away your 'freebies'..........well then i can understand your ideas
from that perspective.......you need to get up off your lazy ass and go
to work and quit crying and start buying.....

well you know you should go to college to study and make good grades,
so you can get out and make a good member of society.......you are
making yourself known as a crybaby.......if you don't like bush then
don't vote for him.....perhaps anything would be better than lawton
childs....

work...oh by the way does that include fish??? it seems you kill fish
and eat them...aren't you doing harm to a living creature by doing
this or is it ok for you to do this while society in general is not
supposed to????

Sorry we want GW not craig crawford. AKC bennies include 10% off at
AES and HRO of course you must go strictly legal i.e. ratchet it down
to 4W on 11 meters and no funny channels 10-4?

well for you try zone alarm for your firewall......turn off the
windows networking configuration, and get yourself a norton antivirus
cd and install it and you will do well.....when i was a windows
man, i had a few viruses get past my firewall, and crater my system
but after i installed norton it caught many malicious scripts before

they caused any damage.....and finally go to grc.com and check your system for leaks........i also use a program called window washer to destroy the cookies and i run a program called ad aware to see if the damn thing has picked up any advertising scripts, etc from time to time....and finally i use a program called adsubtract to get rid of the popup ads.......or you can get rid of all of this crap and get the latest linux version and you don't need all of this stuff....i will be windows free soon and i am not looking back either.........i am going to run a linux box for a router inbetween the internet and my lan on a broadband setup....should work just fine.......

Now your going to make me
put that one and listen for it.
Hey man, I tried to send you a
pretty good Mpeg, but the account
wouldn't take it. Ask Jim & Scott,
both thought it was pretty informative.

Thanks Chaney,

I knew about SE, I just thought the two shown were a bit more obscure and needed a little more exposure. Mosley also makes some nice quality antennas...but they're really expensive. Ex. I'd go with the excellent I-10K before I'd plunk down $300+ for a Mosley Devant 5/8 omni. F.Y.I. tho:

http://www.mosley-electronics.com/citizen_band.htm

Gem also makes a nice products. I spoke with the owner some time back and while they don't advertise a CB/11-meter model, they'll gladly sell you the parts to construct a monobander for 27 MHz.

Everything seems to be made in the US now...before I can consider an antenna
I have to think $130+ postage...

The Gem site I had visited before...I've just had a glance at the Mosley
site...I'll investigate thoroughly later...

20 years ago the UK was awash with Italian & US made antennas now it's a
hard slog...

Thanks for the extra info...

You need to make two measurements.
First do the cal as you described above.
Then switch back to SWR, and key again, and make your SWR measurement.

The first one is to calibrate the meter to your transmitter output, and the
second one reads the SWR.

> also i have the cb on my bench with the antenna about 4 feet away.......

That's not good.

> do i have to have the radio in the car and the antenna
> mounted in it's final location on the car before i can match the
> antenna?????

Yes.

SWR dosen't tell the whole story though.
The first thing is to tune the antenna to resonance, but you need an
analyzer for that.
A resonant antenna may show some significant SWR, but it will radiate and
receive better than a non-resonant antenna with flat SWR.

My Cobra 6000 shows about 2/1 SWR, but it's resonant, and the analyzer shows
a 95% match efficiency. If I tune it to flat SWR, then the match efficiency
goes way down.

Yep, it UNfortunately is. I saw one the other day, and I couldn't
believe my eyes!

We ALL need to e mail Uniden and tell them that WE WON'T BUY ANY of
their CB's that are made in RED COMMUNIST CHINA, just like we don't
sell new units of COBRA, rat shack, and whoever else that makes their
CB's in RED CHINA !

Has anyone been in one of these units yet? Are they the same as the
last board 510, or is it changed?

I KNOW that the quality of this CB and ANY OTHER CB made in RED CHINA
is lower than they were when they were made in the Phillipines!
That's because a communist system is SO UNBiblical, that it pays all
it's slaves the same $$$$, except you are in the party elite !

SO let's ALL git to Uniden's web site, so WE CAN made THE difference!

I warned Uniden about this years ago, so NOW I will tell them that
THIS CB shop will NOT buy CHINESE PINKO CB's ever (Lord Willing)!!!!

Martin Luther King went to the communist training school in Monteagle, TN in 1957. Julia Brown wrote a tract called "Don't Glorify Martin Luther King." She infiltrated the communist party in Cleveland for the FBI and got copies of checks showing communist front organizations PAYING KING with checks.

SO TOMORROW IS Julia Brown day, not immoral commy MLK day. She IS the hero, not MLK ! MLK was SO EVIL that the wicked federal Judge shut up his FBI files for 50 years, so we can't learn more about this womanizing REPROBATE ! IF we knew more, we would end this commy holliday for MLK IMMEDIATELY, and give it to bigger commies, Billy Clinton or enemy domestic FDR instead !

I expose ALL communists equally, without regard to race, religion, or national origin. Most that started communism were jewish, but not all jews are commies.

They HATE GEORGE. George Washington. Took away his birthday, and made a "dead presidents" day instead. The commies get rid of REAL Patriot national holidays, and put their goons instead as "heros."

So tomorrow, remember Julia Brown. She BE da Woman!
Not a promoter of one world religion, race, and nation! ALL the idiots are "diversified" ! GOD SET the BOUNDRIES of the nations...!

1310. Question about pre-amp

I recently got a Maas Kev-27 pre-amp. I think it was made in Italy. It came with no instructions. I got it with the thought that it would boost the strength of incoming signals to my CB. I am reasonable certain it does do this. My question is, does it boost the strength of transmitted signals as well? I suppose this is possible since it was made in a country where there are probably not any laws regarding this.

Can anyone tell me anything about this pre-amp? Thanks.

The Moonraker series are crossed Yagis with a quad reflector. The PDL II is a Polar Diversity Loop. The Signal Engineering quads are just that, true quads. Less noise and a tad more theoretical gain than the Moonraker series. All are great performers though.

1317. Amateur Radio Newsline™ Report 1379 – January 16, 2004

Newsgroup: rec.radio.cb
Date: 2004-01-18 21:36:35 UTC
From: radionews@aol.com

Amateur Radio Newsline™ Report 1379 – January 16, 2004

The following is a closed circuit advisory for Amateur Radio Newsline bulletin stations. It is not necessarily for broadcast.

According to Support Fund Administrator Andy Jarema, N6TCQ, Amateur Radio Newsline has only received enough funding of late to keep the service going for another month or so. In other words, the bills from last November have been paid , but now money has to be raised to keep from loosing the phones and e-mail service from bills accrued in December.

Andy says that Newsline continues to exist hand to mouth on a week to week basis. He says that It is up to you and the listeners to make sure that it is funded so that it can continue to provide this vital service. Otherwise he may soon be forced to pull the plug.

Please help us to keep The Amateur Radio Newsline on the air. Our address is the Amateur Radio Newsline Support Fund, Post Office Box 660937 in Arcadia California. The Zipcode is 91066. Again and as always, we thank you.

That ends the closed circuit advisory with Amateur Radio Newsline report number 1379 with a release date of Friday, January 16, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The ARRL Board meets to discuss the future of ham radio and lots of news on the B-P-L front. Find out the details on Amateur Radio Newsline report number 1379 coming
your way right now.

RESTRUCTURING: ARRL BOD MEETS IN CT JAN 16-17 TO DISCUSS WRC-03

Look for some major changes in the structure of the United States Amateur Radio service to be proposed or at least put open to study. This as the American Radio Relay Leagues Board of Directors holds its first annual meeting of 2004 as this newscast goes to air. Amateur Radio Newsline’s Henry Feinberg, K2SSQ, reports:

--

What’s to come under the ARRL Board of Directors scrutiny? The ARRL Letter points to the big item being the implementation of changes in US Amateur Radio rules. This, in the wake of World Radiocommunication Conference of 2003.

Among other significant changes, W-R-C 03 delegates agreed last summer to leave up to individual countries whether to require a Morse code test for access to

amateur high-frequency allocations. Several nations have already dropped the code testing requirement for High Frequency access. In the United States, the FCC last year invited public comments on 14 Morse-related petitions for rule making, but it has not yet acted on the issue. When it meets, the ARRL Board is expected to discuss in detail recommendations in response to W-R-C 03 that were developed during last November's meeting of the ARRL Executive Committee.

Most observers generally believe that there will not be any major action by the FCC to implement W-R-C 03 changes until it hears from the League. This Board meeting is expected to generate an ARRL position that will be transmitted to the regulatory agency, but you will have to wait until the meeting is over and the League issues its own statement to find out what that position is. We suggest you keep an eye on www.arrl.org the next few days for any breaking news on ARRL Board decisions.

For the Amateur Radio Newsline, I’m Henry Feinberg, K2SSQ, in New Jersey.

--

Among other actions, the Board also will elect members to the Executive Committee and appoint three directors to the ARRL Foundation Board. The Board also will elect officers for the next two years. Incumbent President Jim Haynie, W5JBP, has indicated that he plans to run for a third term. (ARRL Letter, others)

**

RESTRUCTURING: IARU REGION 1 TO MEET IN FEB

Meantime the International Amateur Radio Union will be holding its next regional conference in a few weeks. Q-News Graham Kemp, VK4BB, is here with that story:

--

The Twelfth Regional Conference Is being held from February 16 - 20, 2004 in Taipei, Taiwan. There are Working Groups, where most if not all the business is discussed and these run parallel to one another. A wealth of information is exchanged on the floor at these Working Groups.

There are formal discussion times and of course many informal discussions and gatherings such as over meals and receptions and so on. Contacts made at these conferences assist when an issue comes up back home, help can be sought on a first name basis.

There will be workshops on two important topics. The first is a Workshop on WRC 2003. It will include a detailed discussion on the new Article 25. To facilitate the discussion, a paper by Michael Owen VK3KI is being circulated with the Conference papers so that all societies will be able to make an advance study and brief their delegation on issues to raise and matters for seeking clarification.

The other Workshop will be on The Society's IARU Liaison Officer. The Workshop will help gain a better appreciation of the duties and responsibilities of the

Liaison Officer and hopefully lead to greater satisfaction from the work carried out by Liaison Officers.

Graham Kemp, VK4BB, reporting.

More information on this upcoming conference can be found on-line at the Japan Amateur Radio Leagues website at www.jarl.or.jp/iaru-r3 (Q-News)

THE BPL FIGHT: AUSTRIA TURNS OFF ITS BPL

And a big win overseas on the B-P-L front as reported by the ARRL Letter. The Austrian Amateur Transmitter Federation says that a Broadband over Power Line field test in the city of Linz has been cut short as a result of excessive radio interference. According to the national ham radio society, the Government Ministry for Commerce, Innovation and Technology closed down Linz Power Company's B-P-L pilot project because it was generating interference on the HF bands.

Shortwave broadcaster Radio Austria says the case that brought the issue to a head was a Red Cross report. One that documented that emergency services radio traffic during a disaster response drill last May was the victim of massive B-P-L interference. According to the broadcaster, measurements were said to have indicated that radiation from the B-P-L system exceeded permissible field strength levels by a factor of 10,000.

Last fall, Linz amateurs and their national leaders got together with power company representatives in an effort to resolve BPL's incompatibility with High Frequency ham radio operation. The meetings followed news reports of interference to emergency service communications and QRM complaints from several area hams.

The Commerce Ministry Order not only means the end of the Linz B-P-L pilot project. It also perminently curtails any future the deployment of this technology in Austria. (ARRL)

THE BPL FIGHT: PANASONIC TO INTRODUCE HOME BPL SYSTEM

A form of Broadband Over Powerline may be coming to a house near you. This as Matsushita Electric announces that it has developed a high-speed home power line IP networking technology capable of high-definition video transmission.

Amateur Radio Newsline’s Bruce Tennant, K6PZW has more:

--

Best known for its Panasonic-brand products, a newly developed Matsushita Electric technology will make it possible to provide broadband connectivity to every room in a house via existing home power lines. This, using an Panasonic branded adapter about the size of an audiocassette that the company says cannot be interfere with by radio amateurs.

The adapter contains a power plug, power supply, LAN connector and an L-S-I chipset that converts broadband data into signals that can travel over a power line. The unit connects a broadband Internet link such as D-S-L or optical fiber lines to the existing power lines in the home. According to Panasonic, a user simply plugs the P-L-C adapter into any AC power outlet to create a home broadband networking without installing new cabling.

The most interersting claim being made by Panasonic is that the new technology it calls H-D P-L-C resists interference from other signals such as those from ham radio that the company says often use the same frequencies as wired communications. In order to realize this capability, Panasonic claims that it combined Orthogonal Frequency Division Multiplexing and Wavelet technology to reduce the noise caused by the interference down to one-fifth of typical noise levels. This the company says creates a proprietary interference-resistant and ultra-high-speed modulation-demodulation method without use of additional filter circuitry that eliminates the frequencies where interference is likely to occur. What impact that this new technology will have on over-the-air radio reception by hams and other spectrum users is not addressed.

Panasonic expects to introduce P-L-C adapters for both consumer and office use by the end of 2004 providing that the HomePlug Powerline Alliance determines a final specification in the summer of 2004. An L-S-I chipset will also become commercially available at the same time.

For the Amateur Radio Newsline, I’m Bruce Tennant, K6PZW, reporting.

--

Matsushita Electric and its Panasonic subsidiary exhibited this new Powerline Communications technology at 2004 International CES held last week in Las Vegas. Both companies are members of the HomePlug Alliance which has been working with the ARRL to notch out amateur frequencies from its powerline communications signals. THE BPL FIGHT: W1RFI SPEAKS IN PA

Meantime, one of the leading experts in the area of Broadband Over Powerline interference has made his thoughts known. Speaking at Frankford Radio Club meeting on in Philadelphia last Tuesday night, Ed Hare, W1RFI, said that B-P-L is not good news for the radio spectrum. Amateur Radio Newsline’s Mark Abramovich, N-T-3-V, was there and has this report:

--

When Ed Hare talks, amateurs and others listen.

During an hour-long presentation at the FRC's meeting on the University of Sciences campus here in Philadelphia, Hare made the case that Broadband Over Power Lines is a threat to the future of the hobby.

"If these B-P-L systems came to my neighborhood, HF Amateur Radio as I know it would be over," he explains. "I mean S-9 on multiple bands would seriously cripple me.

Oh, we've had more serious threats when Amateur Radio was shut down after the world wars, but this ranks up there with it in terms of the potential to cause harm to the types of Amateur Radio that many of us enjoy doing."

The reason: Hare says B-P-L field tests by a handful of electric utilities use power line systems to carry high-frequency or HF signals to homes and businesses to give them connections to the internet.

"My neighbor's computer system is a local interference problem," he says. "I'm not going to hear the one three blocks up the street.

But Broadband over Power Line, they're going to intentially conduct those signals onto the overhead lines that will run through my house and then they're going to build this as big as an entire neighborhood. Clearly it has a different interference potential."

Hare says he's charted the interference on 20-meters, calculating it on a national and worldwide scale should B-P-L be rolled out.

"The ability of HF to sustain worldwide communication if you have 30-microvolts per meter of noise will not exist," Hare says.

He says the interference potential goes beyond the ham bands.

"This will affect military spectrum, this will affect international broadcasting spectrum, this will affect other government spectrum," Hare says. "This will affect commercial HF spectrum and as I tune outside the ham bands, you know what? That's not a radio wasteland, there's a lot of stuff there."

And, Hare notes, there's serious concern about medical-diagnostic devices.

"I go to my doctor's office, it's a house in a residential neighborhood," Hare says. "And he's going to hook me up to the E-K-G machine to find out whether I'm going to die before the end of the day. And, if that thing's interfered with, maybe I'll get a false positive or a false negative."

Finally, Hare says the amateur community is not alone.

"I'm very pleased to see groups like FEMA, NTIA and others getting involved with this saying essentially the same things ARRL is doing based on their work," Hare says.

"They, too, see a serious inteference potential to HF that needs to be addressed before B-P-L could ever be considered in any way."

For Amateur Radio Newsline, I'm Mark Abramowicz NT3V in Philadelphia.

RESCUE RADIO: NIUE DEVASTATION REPORTED BY HAM RADIO

From the rescue radio file, word that radio amateurs became a lifeline when tropical cyclone Heta ripped through the tiny island republic of Niue two weeks ago. The storm left the tropical paradise with no regular means of communicating with the outside world and summoning much needed relief aid. Enter ham radio.

According to news reports, a radio operator on the island put out a a call for help which was answered by Steve McCully, W7TZ/ZF2CQ, in the California community of Oak Hills. In fact, it was McCully who phoned the New Zealand Consul General in Los Angeles and provided that government with its first notification that Niue had been ravaged by 186 mile per hour winds.

RADIO ALLOCATIONS: RULES FOR 5.9 GHZ INTELLIGENT TRANSPORTATION ADOPTED

The FCC has adopted service and licensing rules for the 5.9 GHz Band for Dedicated Short Range Communications or D-S-R-C. This, from 5.850 to 5.925 Ghz in the Intelligent Transportation Systems Radio Service.

According to the Commission, DSRC systems will provide a limited-range, wireless link to transfer information between vehicles traveling at high speeds and roadside units or other vehicles. Some examples include intersection collision avoidance, work zone warnings, road condition warnings, electronic toll collections, and electronic payment for gas, fast food, or parking.

ENFORCEMENT: $5.4 MILLION DOLLAR FAX FINE

Some good news for anyone who is sick and tired of getting unsolicited junk faxes. Federal regulators approved a record $5.4 million fine against a company for faxing unsolicited
advertisements to consumers.

The five-member commission unanimously approved the penalty on Wednesday, December 31st but did not announce its decision until Monday, January 5th. The FCC said Fax.com accrued the penalty because it violated the rules 489 separate times incurring an $11,000 fine for each instance. In affirming the fine the commission rejected arguments from Fax.com that the ban on unsolicited faxes was unconstitutional and that the fine was excessive.

The Federal Communications Commission said the fine given to Fax.com, Inc. was the largest ever for violating do-not-fax rules that went into effect in 1992. Fax.com sends faxes on behalf of clients that pay a fee. Its website claims that the company offers the industry's largest fax number database of more than 30 million numbers. Company officials did not immediately respond to a requests from the media for comment. (FCC)

COMMUNICATIONS LAW: BLAME THE COMPUTER

Prosecutors looking to throw the book at accused computer hackers have come across a legal defense. In four words, “the computer did it.” And in this era of hijacked PCs and laptops, jury’s are believing it.

In one case in the U-K, nineteen year old Aaron Caffrey was recently acquitted on charges of hacking into the computer system of the Houston Pilots back in 2001. Houston Pilots is an independent contractor for the Port of Houston.

Caffrey had been charged with breaking into the system and crippling the server that provides scheduling information for all ships entering the world's sixth-largest port. Although authorities traced the hack back to Caffrey's computer, he claimed that someone must have remotely planted a "trojan program" onto it. That it was the trojan and not him that did the hacking. (Published reports)

HAMFESTS AND CONVENTIONS: THE 44TH MIAMI TROPICAL HAMBOREE

Turning to the hamfest and convention scene, the 2004 season really kicks off the weekend of February 7th and 8th. This, when the doors of the Miami Dade County Fair Expo Center in Florida swing open to welcome the 44th Tropical

Hamboree.

This years Hamboree has a long list of great programs with speakers that include such notables as ARRL President Haynie W5JPB, FCC chief rules enforcer Riley Hollingsworth K4ZDH, IARU President Larry Price W4RA, CQ Communications' Rich Moseson W2VU and Radio School's Gordon West WB6NOA. They will take part in a free form round-table discussion of the future of the Amateur Radio service. Moseson and West will later join Florida’s own Sherri Bower, W4STB, in the conventions Public Relations Forum.

Attendees will also get to hear the latest DXpedition Adventures presented by South Florida DX Association and learn about Amateur Radio at the National Hurricane Center. There will be lots of vendors and all the other niceties that make the Miami Tropical Hamboree a must attend on the convention circuit. The event is sponsored by the Dade Radio Club of Miami, Inc. More information is on-line at www.hamboree.org (Tropical Hamboree)

HAM RADIO IN SPACE: AIR LEAK ON ISS LEADS TO CONTACT CANCELLATION

A small air leak on board the International Space Station forced cancellation of the Monday, January 12th scheduled contact with the Armstrong Middle School in Flint, Michigan. The I-S-S recently began experiencing the slight loss of air pressure, which the crew had to locate and repair. This meant that they had to devote all their time to resolving this issue using special ultrasonic monitoring. The leak was located and repaired late the same day. Contacts missed are in the process of being rescheduled. (ARISS)

HAM RADIO IN SPACE: UPDATE ON OPERATIONS FROM ARISS

We also have an update on what’s happening with the new radio gear on board the International Space Station and why hams on the ground heard un proto packets for a while. Amateur Radio Newsline’s David Black, KB4KCH, is here with the details:

--
Frank Bauer, KA3HDO, is the Chairman of ARISS. Amateur Radio on the International Space Station. And Bauer says that he has been sifting through the many e-mails he has received over the past few days regarding ham radio operations from the orbiting outpost.

Bauer says that the new Kenwood D 700 radio recently delivered to the ISS is still in what he terms as its "raw" form. In other words, the ARISS team has not yet run a formal engineering checkout of the new hardware and the ISS crew has not gotten the operations procedures uplinked to them.

According to Bauer, at this point in time the Kenwood radio system is not properly configured for digital operations. A reconfiguration change occurred after it was brought on line which has led to this issue. So, what hams see in the way of packets coming from the station right now will probably not be what they will see in the future.

As to the signal fading problem Bauer says that its probably due to the antenna that’s currently in use. The astro-hams are now using the new antenna system located on the Service Module and is a single, bottom mounted unit. Since the structure of ISS is very large, it is quite possible that the ham radio signals are getting some blockage.

Bauer says that ARISS will continue to evaluate the antenna system performance. He notes that there are now 4 antenna systems that can support 2 meter and 70 cm operation. This says Bauer gives a lot of possibilities with the antennas, including signal splitting, if need be.

As to the packet signals heard during a recent school contact? Those who heard it heard history being made. The first ever multiple radio operations from the International Space Station. While the older Ericsson radio system was doing the school contact, the new Kenwood radio system was active doing packet. It was also -- perhaps -- the first man made Q-R-M from space.

For the Amateur Radio Newsline, I’m David Black, KB4KCH

--

Bauer says that the astro-hams kind of surprised everyone on the ground by getting the radio system installed much earlier than they had anticipated. As a result, the Amateur Radio on the International Spasce Station team has been working feverishly with the space agencies to get the procedures uplinked and engineering checkouts scheduled. INTERNATIONAL - INDIA: HAM RADIO AT THE CHILDREN’S SCIENCE CONGRESS

On the international scene, ham radio was a part of India’s 11th National Children Science Congress. Organized by the an educational group in the city of Lucknow the event ran from the 27th to the 31st December with more than 2000 students, teachers and science promoters from various parts of that nation taking part.

According to VU2DCT, Lucknow hams were also called by program organizers to give the demonstration on Amateur Radio for the benefit of participants. Most of attendees were astonished to listen a live QSO between VU2WAP and a ham in Columbia, South America. During their presentation the hams emphasized the role of Amateur Radio in disaster situations. (Q-News)

THAT FINAL ITEM: THE POTTY MOUTH AND THE VURGER

And finally this weeek, customers at a Troy, Michigan Burger King are getting something extra with their orders that’s a little harder to swallow than a hamburger and fries. And its coming by radio. Rick Johnson, KA9VZD, is here with a complete menu on this one:

--
The Detroit News is reporting that police in nearby Troy are looking for the person who has found a way to broadcast on the same frequency as a local Burger King drive-through radio system. The jammer has interrupted business transactions with obscene remarks on several occasions that have startled customers.

The most recent incident took place on January 8th. It happened when the manager went outside to apologize to customers and look for the source of the

salty talk. Suddenly a voice boomed from the speaker and said -- quote: “There’s nothing you or the police can do about this, so get your fat -- err -- lets say posterior -- take your fat posterior back inside and take your goons with you.”

Police suspect the calls are being made by a mobile radio transmitter or walkie-talkie in the vacinity of the restaurant. Illegal use of any telecommunications device is a misdemeanor in the city of Troy. And as we all know, its also a serious violation of Federal law.

Heading out the door for some fast food, I’m Rick Johnson, KA9VZD, reporting for the Amateur Radio Newsline.

Hey -- can you make that a double cheeseburger and a double order of rings. Yeah and hold the mayo....

--

Sounds as if the story made Rick a bit hungry. And oh yes. Troy police say that they have the FCC for assistance to track down this all beef potty-mouth with a mustard laced tongue. (ARNewsline(tm) from vasrious sources)

Yes the antenna must be on the vehicle
to tune it.
Your antenna should have an allen wrench
yo can loosen to make the antenna tip
longer and shorter by sliding it in further
or pull it out farther. If you are using a whip simply trim a little off and
check SWR
again. If it gets worse add some washers
under the base where it screws in. Just
make sure the bolt that threads into the
whip is long enough to thread in at least
5-6 turns.
Good luck

considering its me you are asking questions about....
no one in here is qualified to give any statement with regard to my visual
impairement (other than I and my physician).

fact: my visual actuity is less than 3%
fact: the definition for legal blindness is 20/200 or 20% visual acuity
(or less)
and, as for your smart-ass comment, I should ask you the same question
(can you find your own ass with both your hands?).

now, I have had enough of this. czar, aka anonymouse coward, aka
tanda@extremezone.com can go fuck themselves.

oh yeah, anyone that even thinks they can accost me in person and
interrogate me has another thing coming (got that czar?).

just for the rest of you, I don't appreciate threats of any kind (see
czar's prior posting made this last friday) and they will be acted upon
accordingly. anyone else got any bright ideas?

you think getting a job in arizona is easy? try it in my shoes sometime.
and as for your "unfortunate luck", you really haven't met a great many
folks just trying to get by.

lastly, I haven't been on CB radio in longer than 8 years. I also do quite
well with what I have. I live a spartan existance. That to me is an
advantage. I have a lot less to worry about.

as for cb radio, at least I don't have to listen to all the whiners and
complainers (much as czar <tanda@extremezone.com> does. I don't have to
put up with any of that shit. besides, I was on cb radio when I was 10
(that was in 1975 and I spent 20 years listening to all the good folks get
driven from the band, or upgrade to better accommodations (ham radio).
pretty much all thats left on CB anymore is the bottom of the barrel.

as for my employm,ent status? well... thats no ones business other than
mine, don't you think? I know you (and others) wouldn't want everyone on
the planet knowing what you do (or don't do) for a living... so pay me the
same courtesy.

OPM huh? ok, what about all the employment history and the taxes I had BEFORE my disability? huh? does that not count for anything? what about all the taxes I pay at the store every time I buy something? its not exactly OPM when I not only paid my fair share and pulled my own weight, but still wish to do so. but then, life (and people) is never very fair, huh?

even if you get paid from a private sector job, its still other peoples money (those loans for the house, car, etc), the taxes you pay, the utilities you use. you are just as much in the same boat as I am. The only difference is, I don't have a job (and really want to have one) and you probably do (and hate every second of it).

lastly, anyone who *thinks* its easy dealing with life on the dole has another thing coming. The money isn't even close to enough to survive, you can't save anything for a rainy day, and if you go broke before the 10th day of the month, oh fucking well. do you think you can live on $580 a month (inclusive) and pay all the bills you currently have? just some food for thought.

no, it is not. you may think it is your business, but federal regulations
say otherwise. the only parties concerned are me, and the federa;/state
goverments. besides, I paid my fair share in taxes when I was employed (in
fact, I paid more). I still want to work, but with the current job market,
my skills are not in demand (haven't you heard, most of the tech jobs are
gtoing overseas these days).

anyway, it sounds like you are harping to be harping. you have no clue how

out here can even contemplate it (thinking its impossible?).

since you cannot, or will not, understand my situation, what makes you
think you have the right to do more than issue opinions on it?

you know what, this whole thread started because some lame ass wannabe

IF you think. What I do care about is that you 9and others) seem to have
nothing better to do than to spout off inuendo, form opinions based on
damned little data and rant about something (someone) as trivial as I am?
are you all obsessed or something?

I can tell you this: you start diggin into my background, you will get
your hand chopped at the wrist (figuratively speaking) and if you
disseminate any of that data out here, I will take whatever action I feel
is appropriate. thats just fair warning.

Yes, it is one of the classic comedies.
One of the stars, David Jason, who had always done comedy, went on to star in a serious cop series.

The TV industry churns out plenty of rubbish, but now and then they make a really good comedy - a classic.
Surely you must get some of the Brit classics over there... Frank Spencer is still making people laugh about 30 years on, my children watch it. He did his own stunts... like skating down the road, between and under moving vehicles. His old screen wife (Betty) is married to actor Edwood Woodward.

I used the measurements in the little manual that came with it...I used the multiples of low loss coax stipulated in the manual...across the band I was using it on - 27.275 & 27.595 - it had almost perfect swr...vertical & horizontal...to be totally honest I don't think I ever used the vertical side of it...I had a starduster for local contact...this I bought second hand from a guy I had never met but saw it on the side of his house...knocked his door...and asked if he wanted to sell it...I even had to fetch the thing down myself...

Over the years I have messed with many antennas...and they haven't all been that easy...I had a Sigma IV and never got the swr right on that no matter how many times I tried...also a new in the box Starduster 2...wanna know what I did with that...jumped up and down on it...then gave it away...

I live around 100 miles from the nearest coastline...but even then I went to the nearest car spares shop and bought a tin of lacquer and sprayed the antenna...when I took it down it still looked almost new...

One doesn't simply place WMDs in the trunk of a car

the story correctly already knows such a massive undertaken would
include nothing less than a massive facility or facilities grouped
together that would equate the size of several football fields.

Now, let us suppose for one second that your

This is where your lack of faith in the American military comes into play, as it has already been addressed by the Pentagon that such simultaneous activity could not have gone unnoticed from satellites and monitoring systems.

Really? You made a claim and I proved you wrong with a link showing the Bush administration most certainly deliberately and falsely blamed Hussein for 911,,,I ask you for a link showing Syria receieved ANY convoys during or leading up to the Iraqi invasion by US forces..,,when

you can counter either of these gaffes you made, we can continue, Until then, your anger and insultive demeanor is on hold...it's blocking the blood flow to your brain.

Like others have already mentioned you need to make these adjustments
when the radio and antenna are both mounted on your vehicle or
wherever you will be using them from.

Also it might be better to purchase a more accurate device, the radios
with the built in SWR meters/matching units are not as accurate as one
that is used seperately.

I hope this helps.

1345. Globe Star CB radio -- need manual, schematic, service info, etc

I picked up an old tube-type Globe Star CB radio at a surplus electronics store this weekend. Looks like it's all there and nothing's fried. It came with the power input connector, but it's an empty connector. There is no Sams Photofacts book on this model. Do any of you fine folks have any documentation on this model? At the very least, I'd like to know how to wire the power connector for 115 VAC operation.

Thanks and 73,
Dean K5DH

Well Eric, if it's not true, don't give them
justification by all the responses. Keep you're

of these radios before and need some help. The radio only seems to have one band
26.515 to 26.955. There is no band switch and I can't find any way to change bands
I need some information on how to get this radio on the regular 40 CB channels.
Anybody out there have this information and willing to share?
Thanks in advance

DO NOT go to Rats Shack---go to or call a local independent (NOT corporate) CB SHOP and get a Pro-510 Uniden with an AMERICAN MADE 3' magnet mount antenna (Hustler or Wilson Brand) and a cig. plug with wire on it to hook up to your CB.

You are one of the reasons WHY I preach against "hand helds" in the car! It is a PAIN to use them there and do not work in the car for nothing! This set up is the best lowest ost one you can get to get a decent CB with a good antenna. E mail me direct with any other questions.

Since you is in da South (SD), I guess you had to raise that anti-UN flag !

Actually what I do continually is END the brainwashing of this "diversify" nonsence by just stating and telling others THE FACTS !

Fact #1

MLK WAS at the communist training school in Monteagle, TN in 1957. So was commy Elenor Roosevelt (FDR's wife).

Fact #2

Julie Brown infiltrated the Communist party USA in Cleveland, Ohio in the 50's and wrote a tract called "DON'T GLORIFY MLK. She has photocopies of checks in the tract from commy front organizations TO KING for commy "work" he did for them ! I have copies of the tract for .50 each ppd.

Fact #3

MLK was probably killed by his fellow comrads in the US govt. OR by some man that had his wife messed with by him. MLK was VERY IMMORAL and NOT a Christian, because he was SO WICKED that the wicked federal judge had to seal up his FBI files for 50 years, so YOU could believe THE MEDIA's NONSENCE and LIES ! James Earl Ray wrote a book from prison with the help of Tupper Saussey called "The Tenessee Waltz" that proves that he didn't do it, which MLK family KNOWs that he didn't do it (the Mustang was the wrong color, and so on).

ONLY commies promote MLK day and other communist holidays, like MAY DAY on May 1st. The purpose of the so called "diversify" nonsence is to blend & mix all the races together to make a "UN Brown man," which who is Tiger Woods (he said he was)!

The Bible says that GOD SET the BOUNDRIES of the nations (races) and they should not be transgressed, to make a new "Tower of Bable" by destroying all the seperate races.

I "celebrated" JULIA BROWN day by telling ALL I come into contact with these facts, while WORKING instead of having a "day off". MLK did the negro race WRONG, by making them more socialist and communist, just like the socialist & communist HONKEYS did to the white & yellow people of the east. YEP, the HONKEYS from NYC did it to us all ! The NYC bankers funded communist revolutions in the USSR and made Lenin the MLK of the Russians!

So HAPPY Julia Brown day to you all ! She be the black woman that IS
MY HERO ! DO you hate her or MLK ? You MUST hate one or the other!
Dave!!
!!!!!!!!!!!!!!!!!!!!!!

1364. OT: No nursing home for me!

Newsgroup: rec.radio.cb

Message-ID: <400C4073.793CFEC1@ptt.edu>
Source record: 174142

With the average cost for a nursing home reaching $188.00 per day,
there is a better way to spend our savings, when we get old and feeble.
I have already checked on reservations at the Holiday Inn for a
combined long term stay discount and a senior discount.

It comes to only $49.23 per night. That leaves $138.77 a day for:

1. Breakfast, lunch and dinner in any restaurant I want, or room service.

2. Laundry, gratuities and special TV movies. Plus, they provide a
swimming pool, a workout room, a lounge, washer, dryer, etc.
Most have free toothpaste and razors, and all have free shampoo and soap.

3. They treat you like a customer, not a patient. $5 worth of tips a day
will have the entire staff scrambling to help you.

4. There is city Bus stop out front, and seniors ride free.
The Handicap bus will also pick you up (if you fake a decent limp).

5. To meet other nice people, call a Church bus on Sundays.
For a range of scenery, take the Airport shuttle Bus and eat at one of the nice
restaurants there. While you're at the airport, fly somewhere. Otherwise the cash
keeps building up.

6. It takes months to get into decent nursing homes. Holiday Inn will
take your reservation today. And you are not stuck in one place
forever, you can move from Inn to Inn, or even from city to city.
Want to see Hawaii? They have a Holiday Inn there too.

7. TV broken? Light bulbs need changing? Need a mattress replaced?
No problem. They fix everything, and apologize for the inconvenience.

8. The Inn has a night security person and daily room service. The maid checks to see if you
are OK. If not, they will call the undertaker or an ambulance. If you fall and break a hip,
Medicare will pay for the hip, and Holiday Inn will upgrade you to a suite for the rest of
your life.

9. And no worries about visits from family. They will always be glad
to find you, and will probably check in for a few days mini vacation.
The grand kids can use the pool.

10. What more can you ask for?
So . . . .When I reach the Golden age, I'll face it with a grin --

Just forward all my email to: me@Holiday_Inn!

Is that a three channel, xtal controlled set...about a foot wide, but only a few inches tall? If so, the schematic was in the first Sams CB book (soft-bound large format book style, not a folder) which they put out--CB-1, IIRC. It's been 40 years, but I had one 'back when' if it's the same one.

To learn the technical TRUTH about CB Radio without all the hype from people who are just plain ignorant, check out the following books from CBC International. They're selling right now at a big discounts on our EBAY & AMAZON stores too.

Check it out!

To see exactly what these books look like, plus all the specific, chapter-by-chapter details, see our Web at:

www.cbcintl.com

Some of the books included are:

BOOK #1: THE "SCREWDRIVER EXPERT'S" GUIDE To Peaking Out & Repairing CB Radios. List $25. The most popular "big dummy's" guide ever published on do-it-yourself CB repairs & modifications. Covers peaking of receivers, transmitters, modulation, mike problems, antenna & SWR problems, detailed frequency modifications for both crystal & PLL radios. Loaded with charts, illustrations, and specific instructions for most brands including the new export models. This latest edition also covers slider and broadbanding tricks, FM conversions, and much more!

BOOK #2: THE CB PLL DATA BOOK. List $20. The only complete reference source on CB PLL synthesizer circuits ever published! Detailed PLL theory explained in layman's terms. How they work, and how to modify them for many more channels. Includes specific PLL block mixing diagrams, truth charts, & IC pin function diagrams for nearly every PLL chip ever used. Covers all the most popular U.S. & export chassis, with specific listings of all models using the chip.

BOOK #3: UNDERSTANDING & REPAIRING CB RADIOS. List $42. Giant 370-page technical book for the professional repairman. Picks up where the "SCREWDRIVER EXPERT'S" GUIDE leaves off. Includes circuit descriptions & troubleshooting guide for 23- & 40-Ch., crystal & PLL, solid-state & tube, AM, FM, SSB, CW, American & export models. Covers test equipment (& where to find it), transistor basics, synthesizers, receivers, transmitters, power supplies, T/R switching, antennas, interference, parts & accessory sources. Over 350 illustrations including schematics, charts, and photos. Huge subject index also lets you look up repairs by symptoms. This is "must" reading for any serious CB technician!

FREE!!

For advanced techs and serious radio hobbyists, we're now offering a FREE copy of our previously published "CB EPROM DATA BOOK" by Martin Pickering. (EPROM = Erasable Programmable Read Only Memory.) We sold it for many years but it's now out of print. This little manual of 60 illustrated pages is an absolute GEM of CB technical knowledge you'll just never find anywhere else. And it's yours for FREE from our Web site.

This book reveals the secrets of advanced channel programming, and picks up where our "CB PLL DATA BOOK" (www.cbcintl.com/pllbook.htm) leaves off. You'll get a thorough background in how these amazing programmable chips can be used to modify many popular CB PLL circuits for expanded frequency coverage. Covers the basic programming techniques, and even includes real PC board artwork for making EPROM circuits. Sample artwork includes EPROM boards for the popular MB8719, PLL02A, ï¿½PD2824, and ï¿½PD858 PLL circuits.

Best of all, the price is right! Download your FREE copy of "THE CB EPROM DATA BOOK" (948 KB Adobe PDF) at:

>mounted in it's final location on the car before i can match the
>antenna????? thanx for any help...

Before beginning to tune, place the antenna where it will be used - that is
a "must".

1. Select channel 20.
2. Switch the meter to "FWD" or "CAL".
3. Key up and adjust the knob to get the meter at the far end of the scale.
4. Let the mic go.
5. Switch the meter to "REF".
6. Key up and measure the SWR.

The second reading (SWR) should be low. Below 2:1 is fine, below 1.5:1 is
wonderful.

If your reading is high, check it (as above) on channel 1 and channel 40.
If the SWR is higher on CH 1, the antenna is too short.
If the SWR is higher on CH 40, the antenna is too long.

The antenna should have a way to tune it, usually the whip is loosened so
you can adjust the length. Look for a small screw in the side of the coil,
if it is that type.

Try this...

He was confused enough with a basic SWR meter... talk of analyzers,
resonance, impedance, reactance, etc will just make matters worse.

As far as a CBer is concerned, the reading on the SWR meter is
good enough and the cost of an analyzer just to tune an antenna
is totally unjustified.

Please try to remember that this is a CB newsgroup and simplicity

I thought that all CBs were made in China of Korea, are any CBs made in America?

There was one Brit made CB, but that will have gone years back. The Government killed off any chance of UK made CBs a few years back... Brit companies could probably not afford the costs that they imposed on manufacturers.

In the "network" section of Control Panel?

Windows seems to add a load of clients, services, and potocols that you really don't need.
For Internet use, you usually only require the adaptor and the TCP/IP protocol. Anything else can usually be removed.
At first, Windows may complain that your network is "incomplete", but that's just MS BS... tell it to FO, it works fine. I just have the dial-up adaptor and TCP/IP protocol installed.

If using Zone Alarm, watch the "security" section... set both to "high". Anything else can allow software to bypass the Firewall and silently connect.

well,
it depends really. but the short answer is yes. it is best to perform the final tuning of the antenna in its installed position. this will minimize errors and possibly save you some headaches later.

The problem with matching an antenna to the line when it is not installed is that you may, or may not, have proper ground plane from which to place the antenna. one other problem (especially on the newer vehicles), is that you may have to install a ground plane because the chassis of the vehicle may be plastic or some other non-conductive material...

one additional item. it might not be a bad idea to go to the local radio shack and see what books they have on antennas, matchine and installation (or try the arrl antenna handbook).

Hi,
Our local CB/Radio shop recently went out of business. There were several items they had which I wanted but I could only buy them in large 'wholesale' lots. So to get what I wanted I had to buy some items which I really didn't need. So I'm selling off the items I don't want.

The items listed below are all brand new, in original boxes. Included will be a receipt so you get the full factory warranty. All prices include shipping.

Take a look and if you have questions please email me at scannerhead2002@yahoo.com

-- CB Radios --
Galaxy DX 2547 40 Channel CB Base -- $200.00
TEXAS RANGER 696F 40 Channel CB Base -- $200.00
COBRA 148NW-ST NIGHT WATCH AM/SSB -- $100.00 (I have several)
Galaxy DX959 11 Meter Mobile W/FreqCounter -- $100.00 (I have several)
Uniden President Grant LT -- $100.00
RANGER TR-296 Gold Faced AM/SSB Mobile -- $100.00

-- CB Amps --
BOOMER 300 Base Amplifier 300 Watts -- $200.00
(for more info: http://www.copper.com/cgi-bin/checkitout/checkitout.cgi?catalogSTORE:CKIE:prodW90-BOOMER300+)
KLV-550 Base Amplifier 550 Watts -- $230.00

Nope, the Star is not even similar to that one. The Star
is a 5-channel unit about 8 inches wide and 4 inches tall.
It's unlike any of the models that Sams covered in their
Photofacts books (I have a good library of early Sams CB
manuals, by the way).

With the average cost for a nursing home reaching $188.00 per day, there
is a better way to spend our savings, when we get old and feeble. I have
already checked on reservations at the Holiday Inn for a combined long
term stay discount and a senior discount.
It comes to only $49.23 per night. That leaves $138.77 a day for:
1. Breakfast, lunch and dinner in any restaurant I want, or room
service.
2. Laundry, gratuities and special TV movies. Plus, they provide a
swimming pool, a workout room, a lounge, washer, dryer, etc. Most
have free toothpaste and razors, and all have free shampoo and soap.
3. They treat you like a customer, not a patient. $5 worth of tips a day
  will have the entire staff scrambling to help you.
4. There is city Bus stop out front, and seniors ride free. The
Handicap bus will also pick you up (if you fake a decent limp).
5. To meet other nice people, call a Church bus on Sundays. For a
range of scenery, take the Airport shuttle Bus and eat at one of the
nice restaurants there. While you're at the airport, fly somewhere.
Otherwise the cash
        keeps building up.
6. It takes months to get into decent nursing homes. Holiday Inn will
  take your reservation today. And you are not stuck in one place
forever, you can move from Inn to Inn, or even from city to city.
Want to see Hawaii? They have a Holiday Inn there too.
7. TV broken? Light bulbs need changing? Need a mattress replaced?
No problem. They fix everything, and apologize for the inconvenience.
8. The Inn has a night security person and daily room service. The maid
checks to see if you
        are OK. If not, they will call the undertaker or
an ambulance. If you
fall and break a hip,
        Medicare will pay for the hip, and Holiday Inn
will upgrade you to a
suite for the rest of
        your life.
9. And no worries about visits from family. They will always be glad
to find you, and will probably check in for a few days mini vacation.
  The grand kids can use the pool.
10. What more can you ask for?

Yea,,I caught plenty of that, too. See, Philthydelphians haven't learned
about Karma, yet. They have had years and years of chances to learn, but
they will always remain a pathetic city full of false promises. They did
the same thing and acted the same way last year with the Bucs, and the
same way the year before with the Pats,,,they are incapable of learning.
I laughed my ass off at the pregame warmup,,,they looked like a tribe of
chimps on the field about to feed, the way they were hopping up and
down, slam-dancing each other.

I heard folks musing about a complete route, but I'm not gonna talk no
guff. My season ends on a smile no matter,,Philthy was disciplined.
Gotta like them Panthers, though, they remind me of a west coast team
from the seventies that had nothing but rejects on their team and were
laughed at many times,,,they ended up becoming one of the most feared
teams in the NFL. Carolina's defense is excellent, but no one has been
able to contain their offense, either.
Look away, look away, look away, Dixie land!

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately
unminds a timeless universal principle that exists also
in the 1700 B.C's, Code of Hammurabi, where all
individuals are to be found equally under the Law, to be
fair minded about our business. Simple right? No,
corporate america says being fair, is not to care one
way or the other between commercials., and the result?
The available 9/11 evidence is not publicly disclosed as
relevantly important, for Laden did the whole thing by
himself, (bush, cheney, and rumsfeld said they know
better than everyone else put together so don't even
bother to form your own conclusions on your present
state devaluating) case closed, now blindly pay your
further tithes to bush, cheney and rumsfeld for letting
the crime go publicly undetected, while with 13303, we

will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the

bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,

Johnny Wizard

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist
attacks, that outlined plans for a ``post-Saddam'' Iraq and the
handing out of lucrative contracts, reveal Bush's performance as
a charade filled out with falsehoods. \ \

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush administration's policy of locking up anyone called Mohamed and favoring Israel might drive the Arab countries to try an oil embargo again. It is, however, quite feasible that they may simply decide to follow in the footsteps of Saddam's Iraq and demand payment in Euros in the future. The math is simple: if they had done so a year ago, for every 85 cents (one Euro, at the time) they put in the bank, they would now have earned a $1.30. \ \

Your State-of-the-Union Address
http://www.dissidentvoice.org/Jan04/VIPS0117.htm

/ / It is important that you be completely clear on timing. While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again

metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the

bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break

criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime
of such magnitude, it would 'justify' a war mongers
criminal invasion to thwart Enron's impending CRIMINAL
bankruptcy, THIEVING FROM MOMS AND POPS, to then,
ATTEMPT, to close the surviving, armed with knowledge
for good reason Police investigations. All of this
setting a lowly nazi bushite war criminal, frothing
publicly at more than six billion + of US, to state
without opinion, that We, as Humanity, are no longer
afforded God's GIVEN Human Rights to defend ourselves,
nor is the criminal dictates of the demon antiChrist
accountable to any rules of law. Universal they
publicly quip, as the not-so 'secret' ungodly bushite
doctrine of tyranny as enslavement of all that is
Righteous and Holy in this World, because, hey, there is
no God to speak of... and the King of kings, Son of God
fellow, well.. that's all just ninepence fiction. No,
WE, as all the make believers of this World, will no

longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of

Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. America I think Will be interested in this public outrage of the silent majority, an outrage that will ecplise into an international scandal of such proportions, it just might win US the newscast with the facts on Justice ruling our way. (I am excepting all reasonable job offers. Hint hint.)

Deadly suppositions
http://www.rationalreview.com/rlwrights/112603.shtml

/ / That's right. American troops are now being used to destroy
private property of "suspected Iraqi guerrilla fighters." What
happened to requiring proof before depriving someone of "life,
liberty, or property" as stated in our own Constitution? Evidently
that does not apply to people we attack so that we can bring them our
way of life. \ \

GO F*CK YOURSELF, MR. PRESIDENT
http://www.antiwar.com/justin/j112603.html

/ / We must act, even if the threat is nonexistent - because of the
potential danger. If "self-defense" consists of necessary
"preemption," then what would happen if we started acting on this
Bushian principle domestically? After all, killers, robbers, and
rapists don't announce their intentions, politely putting us on notice
before they strike. Why not just jail them before they have a chance
to commit a crime? This principle, if applied within the U.S., would
lead straight to totalitarian rule. Applied abroad, it means perpetual
war. \ \

/ / In other words, the military actors and politicians
are totally blinded by the "war on terrorism" dogma.
Truth is falsehood and falsehood is truth. Realities

are turned upside down. Acts of war are heralded as "humanitarian interventions" geared towards upholding democracy. Military occupation and the killing of civilians are presented as "peace-keeping operations." The repeal of democracy is portrayed by General Franks as a means to providing "domestic security" and upholding civil liberties. \ \

/ / With the threat of 56% of troops not re-enlisting Bush is going to need a draft unless he changes his policies soon. I'm sure you agree, I'm sure you don't want your friends, family and coworkers drafted either. To fight for what? freedom? When George Bush passed the Patriot Act and now the Patriot Act 2 he took away many of the rights that we cherish so much. Why are we "bringing freedom" to the Middle East when Bush has shredded the constitution and taken away our freedoms at home? It doesn't make any sense. \ \

This is why I plead with armed Americans to kill the unarrested bush for the love of children everywhere. Look, we know directly who the bushites are who PUBLICLY advocate the murder of innocent People through corporate censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush

stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumfuk treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under

every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems

sometimes, as too, how terribly it truly is for life
whose love isn't appreciated by our will anymore as the
living in america, oh yeah, I mean America.

As an American then, what life will you forsake where
bush'll rob you over and over as the never living for
something better? These american bushite nazi fuks,
think your gonna wash their feet, and instead of
defending yourself and family, just turn the other cheek
right before the bushites drop a two thousand pound bomb
or two on your innocent neighbor next door? Done for
nothing but feeding the bushmob?, as unarrested buford
blount contends in God's presence? Then to think,
buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

The vertical whip is for 11 meters. The Beam part looks like it
could be for 220 to 300 mhz, but its not active. Put it on top of a
black blazer and scare your paranoid neighbors by pointing it that
their house.

With bottle rockets scotch taped to the flat side..have strobe
lights going off inside the mini van, with a mega-rocket or jet
vehicle sound track blowing out your kraco's. lol

Gotta have the boy screaming "RUN FOR YOUR LIVES" with his
imitation led shield garbage can lid defending them!

It looks like a keyclowns two meter portable beam to me. Perfect
for jamming repeaters like dogie does. Only difference is the
key-clowns will have their knees in the breeze, and dogie will
be drowning in his own low power swill.

I couldn't get past the first pic, but I've heard that comparison
before.

I swear that first antenna looks like a real tunable widow maker
for certain vhf frequencies, and directional. Shorten the vertical
till it's close enuff to transmit.

Look at it again. I'll turn it with the vice grips while you talk.

My alternator is only 170 amps so don't be long winded!

Ever wonder why these "Skip-shooter wannabeez" never shut up?!!

"Black man, Black man in the Bayou callin that station up in Love Country (Virginia), We be tryin'!

They sound so RETARDED when they repeat every sentence 3 - 4 times!!!

Then, this past Saturday night (Jan 17,2004) one of them comes on Ch19 and harasses the truck drivers tellin' them that "they'd better go tell their old lady that they ain't gonna work no mo'!"

This retard picked the WRONG trucker to fool with!!
The driver was nailin' that boy's ass with some TRUE knowledge!!!

The boy couldn't find any material to humiliate the truck driver so that boy went and cried to his "goodbuddies" as well as his "prison-bitch"!!

This is a sad epidemic that has gripped cbers who are talking local.
They should be freed from this ignorance that continues until the FCC gets off their asses and nails these skip-shooters tawkin on ham radios that have been modded to CB.

Lord knows that these "skip-shooter wannabeez" will be converging on that HamFest on February 22, 2004 at the Richmond Showplace on Mechanicsville Turnpike, in Henrico County, Virginia near I-64 East/West.

That shows how much you know Steveo, a quick search of this NG will reveal
a guy named Brass who was peddlin these star gun CB antennas.

Throw a tuner on that little guy and it might tune broadband,
and it could be portable. Too much fun for one keyclown rolling

Hi Group,

Boy, having a hard time location a source for a 50 foot and 30 foot telescopic antenna mast.

Anyone know of a good source?

Anybody interested in trading very nice Cherokee AH100 handheld cb for one of the 10 meter variants on the market? My radio has original box, AC power adaptor, 12v vehicle adaptor, manual, and original battery with 10 or so charges on it. Yours should be in similar condition with accessories.

If interested, please email me.

Regards...

Unfortunately, they weren't. I appreciate the effort, though.
Dave at RetroCom provided me with the wiring information for
the power connector. He took his apart to get it for me! I
powered up the rig last night, and it is operational (though
it will need some restoration work).

well actually they are flooding this country with cheap poorly made
products.....and since we gave them most favored nation status(don't
ask me why), this type of activity will continue....and so they use
the money to improve their army and their nuclear
capabilities......maybe i am missing something here but why is it i
can see this and the people in charge of this country always seem to
look the other way on such things?

Gee, that type thing can apply to almost any product on the market,,,the hype is always above and beyond what a device is capable of....no matter, though...folks that throw stones while living in glass houses and talk smack about others being dishonest is just about what many have come to expect from this forum of angry degenerates that were forced underground.

LOL..what a backfire! Why did you prefer to call it a cb antenna? Prhaps
because,,,you know no better? Grab a book, perhaps an ARRL antenna
guide,,,and learn all you can about tuners. It will prevent you from

Actually, without a lot of time, energy and thought put into it. As
long as you don't have the "charger" hooked up to it, they make a darn
good shortwave receiving antenna.

Yea, but for transmit capabilities, it takes a bit of fiddling. Super
long wire antennas via an electric fence,,,in the shape of a huge "V, of
course.
Drug through the water at a high rate of speed, a weighted 18 foot
copper wire being used as an antenna can receive all kinds of
things..,,,when the boat slows, the receive disappears, even when the
weight is removed.

HAHAHAHAH! That's what I thought. It "might" work as a capacity hat, but
it certainly isn't a driven element (the way I see it). It would work as
well as those "ground" plane adapters you see in CB shops with the
rubber-looking thingies sticking out under the whip. That
is nothing but a capacity hat that does little more than shorten the whip.
BUT! It sells antennas to the unwitting
customers who are most anxious to "git out" the best they
can--and even believe that their antenna is working SOOO much better now the
tech(?) installed his "ground"
plane. It is sad that much "truth" is only a myth promoted
by crooked CB shops-like coax length and "broad-banded" BIG coil antennas!
If an antenna is truly efficient, then its bandwidth is actually narrow(er),
but
makers "dicker" with the impedance to widen bandwidth
because it has been taught as gospel in the CB world. It
is also because the sellers know that selling these "broad-
banded" antennas is important so the buyer can have his cake and eat it,
too!

Those BIG coil antennas aren't as efficient as the makers
make them out to be, but they sell antennas because bigger is "better",
right? Lots of smoke and mirrors, eh?

One day I'll tell you the one about the mobile antenna that
had water and/or vinagar in the lower mast. The sales slogan was "Ever
notice how much better your signal is
over water?" Honest!! Oh, I just told you!

Let the buyer beware. If if sounds too good to be true, it
probably is.

what do you want to put on it, is it a permenent mount or for traveling.
MFJ makes a decent one for using with a camper for a simple dipole or
smaller vertical.
If you want something permenant and heavier duty, like Twist said try AES,
and you might also try Texas Towers.

A beam the size of a 440 yagi? It cant be done on 27 mhz.

You made up call signs and zones and use q-signals and ham lingo and
even ham radios so sure as shit cb dx is only playing hammie radio

WHOA, Doc! Capacity hats do NOT lengthen the whip
except in the sense that a hat has the *effect* of lengthening the whip. OR,
said another way, it ALLOWS
a shorter whip to be used at a given frequency.

Those big coil antennas are for handling megawatts..something your
conventional cb antennas can not do. The antennas work exactly as they
were designed.

I didn't say SAY they did something they were not designed to do. What I
said was that they are NOT broad-banded unless the mfr dickers with the
impedance
to make it cover a wide range of frequencies.

>If an antenna is truly efficient,

The antennas you speak of have everything more to do with power
capacity. They are designed to take a maximum load for shirt bursts of
time.

Again, I said nothing about being able to handle huge amounts of power. I am
sure they will, but how many
people USE 10,000 watts in the real world?

>then its

And this broad-bandedness is a very important part of
the sales pitch to the regular CBer or trucker just trying to
get the best performance from their setup.

The big coils antennas are made more for power capacity than this
"broadband" you speak of as relating to cb antennas.

...which IS what I was talking about. The accepted "truth" amongst many CB
folks is that those big coil antennas are not only able to handle gobs of
power, but
will cover 25-29 MHZ as well. In their natural state, they
will not. But mfrs. tinker with it to "make" it cover all these 'freeband'
frequencies while the "Q", or efficiency,
suffers.

>Those BIG coil antennas aren't as efficient as

>the makers make them out to be,

I beg to differ. Many that say "maximum power is 10,000 watts" means
just that. I wouldn't try 15 or 20 in one of those specified for 10.

Most people don't try for such power. Most of us are happy with 2-25 watts,
or whatever is "normal".

>but they sell

>antennas because bigger is "better", right?

Antennas? Yea,,bigger is better.

If the only thing you are looking for is Mo Powah!

>Lots of smoke and mirrors, eh?

I don't know what you mean by that. Who said it can't be done on 27? *I*
never said that, I said that there are many myths and untruths promoted by
dishonest sellers.
What's wrong with that?

>One day I'll tell you the one about the mobile

>antenna that had water and/or vinagar in the

exam mills.

For every cb site you cite as an example, it can be countered with a
boneheaded hammie example. When y'all can live and let live, the world

will be a much better place.

Not sure what you mean. Why are you so touchy? All I
did was debunk the so-called StarGun antenna, and show that it is NOT a beam
at all.

> The sales slogan was "Ever notice how much

>better your signal is

>over water?"

Your signal IS much better over water. I have managed to piss off an
entire contingency of holier-than-thous that thought they had it going
on,,,with nothing more than a kick-azz set up and water, water, and a
whole lot more water!

I never said it wasn't better over water. What this contraption was a
center-loaded whip. The lower mast
was filled with water or vinegar. The implication that the
antenna worked better with this "water" inside the lower
mast. No such thing. The liquid was PART of the mast
the same as if it were not solid metal. Water inside this
mast has no effect or additional gain. But that slogan implied that their
antenna would work the same as if it were beside a lake!

AOL was bottom rung until WebTV showed up.

Lets see..You bloated "..Prhaps because,,,you know no better?"

Well, you've certainly established your education level.

As far as the ARRL antenna handbook, I have two well read copies from
1987 and 1996 along with several William Orr books and other related

made perfect scores on all my test including the morse code test.

I guess I'll have to come down to the CB band to talk to you some day,

Depends on what claims they are making. Bigger air wound coils are
more efficient. A big air wound coil should have a Q of 300, or bit
more. A 5' or 6' foot antenna with a coil that has a Q of 300 will
have close to the same bandwidth and efficiency of a 1/4 antenna.

A year-and-a-half or so ago, I purchased a CB for my son's car when he first got his drivers license, just in case he ran into trouble on the road. It started to have a receive problem about six months later, so I sent it in for warranty service.

Maxon has decided not to fix the old one, and instead sent me a NEW 40 channel MCB-30 CB! Problem is, my son now has a cell phone and no longer has that old car.

So...its just sitting around the basement...new in the box.

Would somebody be interested in this for $19.95 plus $7.95 Priority Mail shipping/insurance?? I see them sold for $35 to $40.

If interested, please send me an e-mail.

Yes it is cum gobbler. 26-30 dual use radios are not allowed to be
sold. Now Go put a hose in landsharks ass and suck on it.....

there are quite a few mods for this radio. it is a very good rig and 160 is
about a fair price. the chipswitch mod is something to chew on but if
you are
not handy in working inside radio's its suggested you find a good tech
who knoows what they are doing to install it. good luck with it.

The radio is not illegal. Its sale may be, but he can always give the
radio away as a bonus for buying a $275 piece of stale bread.

My Icom-746 does that and more. Is it illegal? Nope, only if I use it where
it doesn't belong.

jerry, you seem to have some kind of instinctive feelings for this team as if somehow you are in some way connected to them...i can assure you that you are not in any way, shape or form connected to them.....they are just some team that happens to be in the carolinas.....now then, this is a sad commentary on the way we americans are these days.....we have american boys fighting and dying on some God forsaken desert for people who in some ways ,I think could care less that we are there, yet somehow we find time to grouse about some stupid football crap that means absolutely nothing to anyone if you think about it.....what we have here is basically a bunch of black men, who after 4 years of college, did not graduate, who cannot read and write, but however due to the fact that they are good at football, they somehow find themselves making large sums of money , and living the good life. and so these rich men, play a silly game on a field owned by some rich guy who is called a owner and who relies in many cases on monies that come from you and I. so they use the sports talk shows, etc, etc to gin up some local support for this team, even though it is privately owned. this is needed to allow him to come to you and request funds, whenever they are needed because one of the great ideas of the rich is to make others pay for their ideas so they can remain rich.....so now , you think that they are your team and they are from the south, and all that goody goody stuff but in reality they are the property of one or a group of owners who could really care less about you and your needs or wants.....the only thing important to them is to get richer by whatever means necessary ...so you are allowed this brief dispensation of carthartic feelings in order to make sure you vote for the new stadium or whatever they have in mind for you folks sooner or later.....i have seen all of this many times and truely wonder when the puppets will get tired of the strings.....you know karl marx said something to the effect that

religion was the opiate of the people ....well for america i would have to say that professional sports is......you know you get more people sooooooooo damn excited about this meaningless football crap but you cannot , i repeat cannot get the same people to go and do a simple thing on vote day and that is pull a damn lever.......shame on us........shame on us all..........

i submit to you that this man may have keyed up his radio on channel 6
but i will say this.......no one and i do mean no one talked to him
when he did because they don't know him for one thing and they can't
hear him for another......i would have to say that the term 'ghost
talking' comes to mind........he may be talking and he may think
someone is coming back to him and he may think this and he may think
that but i assure you no one on that channel hears him ever.......he
might think he is blowing smoke up someone's ass over this issue but
not this operator.....it is easy to listen on there and pick up
handles and then act like you are in the grove on that channel but it
is a much different thing than he is presenting and that is for damn
shore....i would tell him to quit crying and start buying but i know
that would be a waste of time.....he has no money and no job so how
can he do such things? and you can believe dat!

Okay we came across an old millitary HF amp and it pushes 500,000 watts PEP anyone know if pushing this much power a health risk? we are planning to throw the switch and hit the mike with 500kw on the next shootout.

Not when that coil is mounted perpendicular to a huge piece of steel. Were
talking ferromagnetic action coupled with huge eddy-current losses.

How many CBers use anything more than an SWR meter for their antenna tuning?
Let's face it, unless you happen to have one lying about and know enough
abaout electronics to use one, an analyzer is not going to be an option...
how much does one cost over there?
At best, suggesting that a beginner needs an analyzer is pointless, at worst
it could confuse and put the person off using what they have... which is
what almost all (if not all) CBers use.

Considering how much gain is required to make a difference at the received
end, any possible tiny gain would not be worth the time and cost. Just like
those who worry about getting their SWR right down to 1:1, it just aint
worth the effort. Any "perfect" tuning will only apply to the one channel
it was tuned on, so who expects perfection?

Someone once came to me, asking how to use an oscilloscope. He had no idea
of electronic or radio theory, but he had been convinced that he needed
one - and had actually got one. Ususally I like to help people but, without
basic electronic theory, knowing how to use the controls would have been
pointless, as he would not understand what the green worm was trying to tell
him.
Where's the volume control?

Peter.

The only protocol in my window is TCP/IP. All I have is TCP/IP and the dial-up adaptor.
The GRC site says to get rid of all others, they are not needed. It also reduces the chances of Windows trying to use the wrong protocol, which has been known to happen.

Nice one... could be fun.

I use a firewall, and last time I checked it on the GRC site, it came back with "stealth mode" on every attempt it made. I also tried their test program, and it couldn't get out.

The "illegal" radios have never really stopped coming over here... plenty
are about.
As the manufacturers got wise, they marketed them as "Amateur" radios,
knowing where the true market lies - CBers. The smarter "freebanders" got
wise and started buying them. At the price, they were better than the old
butchered 148GTL-DX radios floating about.
The Gov. got wise, and made them illegal but, finding that only stopped them
getting taxes from the "under-the-counter" sales, they did a u-turn.
On top of that, to make the systems cheaper, PLLs were designed to be
capable of any CB standard so that one IC could be mass produced. This
means that some legal UK sets can now be opened up as never before.

Yep, freebanders heaven. Shame it is not helping any UK manufacturers.

My asbestos suit is now on.

it probably draws (not produces) 500 Kw. I can tell you though, you'd
better be using a power station to run that one up.

also, anything in that power is a tube (I don't think they make
transistors that can handle that much all at once).

chances are, its probably more along the lines of a 50 KW tube (which
stands all of 4 feet tall and is about as big around as a 50 gallon oil drum
and very shielded).

nothing funny about it. there are 35,219 blind/visually impaired folks in
arizona and perhaps only 400 of them are working. care to explain that?
(source: Arizona Dept of Labor, employment statistics)

yeah? so. still doesn't mean I am hirable. let me give you some info. I
received training with the state. that took 4 years (after they got done
"evaluating" my capabilities (which took 3 years and 6 months). it was
then up to me to go out and find said employment (the agency responsible
for helping me cited budgetary problems and curtailed most operations).
since 1997, I have submitted over 450 resumes, 600 + job application and
been to 422 interviews. result: nothing. reasons given by prospective
employers for not hiring ranged from "you are over qualified" to "you
don't have sufficient in-the-field experince" (I tallied some 28 different
"excuses" that were used). all of these responses were in writing.

I don't have the funds to relocate out of state permanently, and most
employers will not pay relocation costs are part of hiring. so, I am stuck
here, whether you like it or not (and frankly, I could care less what you
think too).

lastly on this particular subject, even if I could get hired, the state
wants to put their fingers in that pie, but will not reopen my case until
I have said employment (guess what, the prospective employers won't hire
unless I already have an open case with the state agency involved in
vocational rehab). catch-22.

as for functioning here. this is easy.

>
> Here's a solution to your predicament: GET A DAMN JOB! GET OFF THE DOLE!

btw, if you end up where I am and find you can't get work. I will most
assuredly laugh my freakin ass off (ain't gloating wonderful?).

besides, don't you *think* I haven't already tried (oh yeah, thats right,
you don't think. you just run off at the mouth and try to deliberately
piss everyone off around you).

Jerry,
A capacity hate lowers the frequency of the antenna, so it
in effect, lengthens the whip. That means that a shorter whip
can be used at the same frequency with a capacity hat.

FWIW

A coil will always lower the power handling ability of an antenna. Large coils lower it less than small coils, but both large or small coils lower the antenna's power rating. That's because of the resistance of the coil. A fact of life, get used to it, it won't change.

A coil's efficiency is directly related to it's size. Big coils are more efficient than smaller coils. A coil's efficiency
has nothing to do with how well it 'radiates', unless the coil is an appreciable fraction of a wave length, it radiates no better
than a length of wire of the same length. Longer coils radiate better than shorter coils, but neither radiate enough to make any
practical difference.

A coil's 'Q' (another name for efficiency) is indirectly related
to how 'broadbanded' an antenna using that coil is. If the coil has
a high 'Q', the antenna will be less 'broadbanded' than an antenna
using a coil with a low 'Q'. A dummy load has a very low 'Q' and it
is very broadbanded. A high 'Q' antenna is very narrow banded. That's
another one of those facts of life, and physics.

An antenna advertised as being high 'Q', and being very broadbanded
is 'advertising-physics', in other words 'B.S.', in the purest sense of
the term. If an antenna manufacturer want's me to believe that, it makes
me wonder what other 'B.S.' he want's me to believe...

There are no secrets or magic about how antennas work. It's all physics,
it's all documented by people a lot smarter than you or me. It's there, all
you have to do it read it.

You should be more concerned about where you get the power
to feed this amp. Do you have your own power substation or are
you going to try to run it through a typical 200 amp
service panel in your house? Maybe you could get one of those
huge diesel generators on wheels used to power a large
corporate building.

To answer your question about health risks, you bet! I wouldn't want to
stand near that thing even running a few kw.

Assuming you aren't just blowing smoke, what do you plan to use to power it?
Most high power "old military" equipment runs on 440 volts, multi phased, at
400hz. Where are you going to get that kind of power supply?

I wasn't referring to this exact "beam" with that comment, but an errant
claim or two that have been debunked in heah...like LPFM worldwide on 27
megs...like worldwide skip from a mobile on 27 megs, any mode, also low
power or barefoot.
In retrospect, with a proper tuner, many things can be accomplished,
including a mobile "beam".

_
or "cb dx is only playing hammie radio", etc..

>You made up call signs and zones and use

>q-signals and ham lingo and even ham radios

In the first place, I made up no such thing at anytime. The numbers I
hold were given to myself by club representatives, who, by the way, were
in the business of handing out call numbers for club members long before
I came along. Ditto for the zones, q-signals, and ham lingo. Many hammie
radios are of better quality than the average cb. In fact, the FCC did
away with licensing and effectively washed away the
official calls. Since you feel you have dibs on a better way of cb
communication and identification, go right ahead and introduce your
idea....or, perhaps, you can't improve it at all and are one of those
who bitch about things but have no solutions.
You also conveniently hide and ignore the fact that hammies were the
ones that brought and initiated these numbers to the freeband, as they
were the ones with the capabilities of channel splicing and going above
and below the cb band,,,those cbers with 23 channel rat shacks were
innocent until corrupted by those not unlike yourself.
To blame those who successfully play the game they were presented is

counterproductive to all and to everything.

>so sure as shit cb dx is only playing hammie

>radio without the license.

Impossible, in the context many licensed hammies still participate in
such cb dx.
I'm pretty good at presenting things from another perspective or
context, so check it out....you are using a madeup name on the internet
in a cb forum, so if cbers are "playing hammie", you are not only
hypocritically playing the same game you are wailing about,
,but fail at the game, realize that you fail and fall way short, and
therefore take to "making up names" in order to hide your status to
which you have been reduced. That pendulum swings both ways, and you
just received a hair cut like a hippie in basic training.

Granted. But this isn't the real world we speak of,,it's cb and
hammie,,and in those worlds, more hammies than you apparently think, use
full limit loads,,,maybe not a full 10,000 watts, but what kind of jump
in power per se, does a hammie achieve when blowing 1500 watts through a

-America remains the land of opportunity for those who want to seize the American Dream of being the best that you can be.
-Success in America is really quite easy- get an alarm clock, put your heart & soul into a work ethic, and never giv up on pursuing your dreams with every fiber of your being.
-Still, the largest threat to our republic is apathy -- those who don't vote or communicate with their elected officials are every bit as much a threat to our republic as any nutjob terrorist. Whistleblowers & WE THE PEOPLE action is paramount to the American Dream xperiment in self gvt
-The cleanup in Iraq goes well. While the rest of the world turned away from evil, we confronted it. The world is now safer thanks to our brave men and women in uniform. God bless each of them and their families US Army Marines, Navy AF & Cst Grd.
- Rebuilding America begins in your home, not in Washington DC. Did you spend time looking over your child's homework last night? Monitoring their food, actitivies, friends, music, language, personal hygien, smiles, attitude? Did you spend time as family with the idiot box turned off? Have you had a heartfelt conversation with your teenager lately? No amount of government dollars can fix this if you fail to act as a loving, responsible parent.
-a nation that continues to knowingly poison itself with drugs, alcohol, tobacco & gluttonous amounts of junk fastfood obviously does not care about its health. How in God's name can it xpect others to pay damage control for their health care when they knowingly & therefor intentionally poison themsleves!! This is astonishing.
- There are Democrats running for president who believe all of our problems can be solved with a federal program. Nothing could be further from the truth. More federal dollars exacerbates many of the problems instead of fixing them. Its so simple its stupid. Let's leave repressive socialism government to the French. They deserve it. Let them rot.
-tho there is much to be done, our air soil, water & wildlife quality is still the best on planet earth & gettin better. Be a hands on conservationists & spread that goodword.
-there are fewer hippies than in recorded history
- Close down the borders. A nation without borders will soon cease to be a sovereign nation.
- law enforcement where not overpowered by liberal prosecutors & judges continues along with armed citizens to make America's streets & neighborhoods safe.
- Rosa Parks spirit lives. I won't sit in the back of the bus; I'll take the wheel & drive thank you.
carry on. UPGRADE America!!

The resisitance of the "coil"?
I don't know what type antennas you have failed with in the past, but
you ought attend a keydown so you can se firsthand how your theory is
bunk in referring to those antennas specifically designed for power
capacitance.

You're greatly cornfused, Paul. First, you claim:

>A coil's efficiency has nothing to do with

>how well it radiaites.

Then you self-contradict and claim

>Longer coils radiate better than shorter coils.

Now, your words mean that the longer coil is more efficient (than shorter), a direct contradiction to your claim that "the coil's efficiency" has nothing to do with how it radiates. If a longer coil radiates "better" than shorter coils, it is,,,,,taa daa...more "efficient".

(snip)

No sense taking it further with you until you rectify your contradictions. Both claims can not be true.

Hell .... we all know what causes it, especially after 40 years of playing with radios. I'm just seeing what receivers deal with the mess out there better.
If communication is important, I use different a method . C.B.on 27 MHZ isn't considered important enough to require a license any more. oh yeah.
most definitely. that water jacket is both a shield against the X-rays the
thing might produce as well as being the cooling system. still, for
something like that, it takes 10's of gallons per minute (and you have to

(Knock at the door) Aaron opens door wearing his skimpiest thong underwear

Aaron: Hi Sparky! How are you!

Sparky: I'm good Aaron. Is dinner ready?

Aaron: Almost. In the meantime, you can snack on me, but we need to hurry before George gets here.

Sparky:(screaming) Aaron! Will you shut up with the advances! I already told you I've started to like women now! Now leave me alone!

Aaron: OK, OK! I just thought we could be like the old days again.

Sparky: No, I'm really going to stick it out this time.

Aaron: (sniffling) Ok Sparky, have it your way. I'll respect your wishes.

Sparky: Where's George? Do we have to wait for him to eat?

Aaron: Yes, he's bringing the salad.

Sparky: OK. Got any snacks?

Aaron: I think so, let me check.

(knock at the door)Aaron answers the door.

Aaron:(exclaiming) George! My God! What happened to you?

George:(crying) I was just out minding my own business, following this little girl, and all the sudden, wham! Her Dad must have seen me and punched me. I had just asked if she wanted some candy too. I think I could have had her. Then the Dad pulled out of the window of my Pacer, and beat me some more. I think he dislocated my shoulder too.

Sparky: Can we eat now?

Aaron: Sparky, can't you see George is hurt? Go get one of the steaks for George's black eyes. And while you're in the kitchen Sparky, get some ice for his broken nose and busted lip too.

Sparky: OK, but I ain't eating the steak that you use on George's eyes!

Aaron: OK, whatever!

(Sparky spends fully 5 minutes trying to figure out which steak is the smallest, so he can have the biggest then finally he returns)

Aaron: God Sparky! Why did you take a bite out of it? It's raw, for Christ's sake!

Sparky:(unintelligible mumbling caused by mouthful of raw steak)

Aaron:(grabs steak from Sparky and applies it to George's eyes) There now George. Is that better? Aaron knows how to make you feel better, doesn't he?

George: Yes Aaron, it's much better now. Thanks, you know I bruise easily.

Aaron: Hey Sparky, light the grill.

Sparky: Hey, those steaks ain't half bad raw! Do we really need to cook them?

Aaron: My God Sparky! Sometimes you act like a Neanderthal! Light the damn grill!

(Sparky goes out back, turns on the gas, clicks the igniter repeatedly, nothing happens. Goes back inside for matches and returns)

Aaron:(just as Sparky lights the match) NO! STOP!

(loud explosion)

Sparky: (screaming) I'm on fire! Somebody help me!

(Sparky runs back through the house with his beard on fire, screaming for help. Aaron and George race behind him with teacups filled with water)

Finally, Aaron and George manage to catch Sparky and beat out the fire in Sparky's beard with the teacups.

Sparky: Thanks guys! That was close! I saw my life flash before my eyes.

Aaron: No prob Sparky. You know we love you.

George: Speak for yourself, Aaron! Faggot!

Sparky: Can we eat now?

George: Well, we could if you hadn't blown up the grill!

Aaron: It's OK Sparky. We'll just grill the steaks on the stove.

Sparky: I don't wanna wait! I'm getting dizzy. My cholesterol must have dropped below 300.

George: Here, drink this.

Sparky: What is it?

George: Bacon drippings. It will bring the cholesterol level back up in your blood.

Sparky:(drinks greedily) Burp! Thanks George.

George: No problem. Hey Aaron, you still have that "Little Girls Gone Wild" video?

Aaron: I think so�check over there in the gay porn by the VCR.

George: Faggot! (looks for the tape)

Sparky: I'm hungry! Let's eat.

Aaron: Just hang on a minute. Let me get these damn steaks cooked. (throws the steaks in the pan)

George: (tearing his eyes off the video) Sparky, get the salad and dressing ready, will ya? I'm busy now.

Sparky: OK, George. (Sparky sets the table)

Aaron: How do you guys like your steaks?

Sparky: Raw is fine with me.

George: (rubbing his crotch while watching the little girl video) I don't care. Yeah, raw is fine with me too.

Aaron: (mumbles) Damn weirdo's�

Aaron: (grease splatters on Aaron's hairless chest) Ouch!

George: Aaron, do you mind if I take this video home with me?

Aaron: Sure, take it. You know I don't like females.

George: (under his breath) Faggot!

Sparky: Can we eat now?

Aaron: Yep! Steaks are done. (Aaron places them on the table)

Sparky: I'm first George! That's my steak!

George: Whatever Sparky! Hell, I'm just gonna leave now. (grabs the video and heads for the door)

Aaron: Where you going, George?

George: Um�uh�I'm not really hungry now. I think I'll just watch this tape at home.

Sparky: Good! Gimme his steak.

Aaron: OK George, see ya later.

George: Bye

Scene: Much later in the evening after George has gone home to watch his kiddie porn, we return to find Aaron and Sparky enmeshed in each other's arms.

Aaron: Sparky, I knew you would come around.

Sparky: Well Aaron, I kind of feel guilty�almost as if I'm slipping back into my old self. I've really tried to kick this man habit, but I can't seem to stop having feelings for you.

Aaron: Well Sparky, I always knew we were meant for each other.

Sparky: I only ask one thing of you, Aaron.

Aaron: What might that be, Sparky?

Sparky: All I ask is that you don't breath a word of this encounter to George.

Aaron: Fair enough. I know he's a bit of a bigot.

Sparky: Yes he is, but he's still my only real friend. You know, I can't count the times that he's tried to save me when I've gotten in over my head on the newsgroup.

Aaron: I know Sparky, and he's done the same for me. I really love him, but I can't let him know that.

Sparky: So, we're sworn to secrecy, right Aaron?

Aaron: Absolutely! Remember, we did take the AKC pledge.

Sparky:(chuckles quietly)

Sparky: (tentatively) OK Aaron, I'm all yours.

The coil will evenly dissipate heat that would otherwise be radiated as RF power from a lesser, non-coiled antenna.

You are once again demonstrating your ignorance of radio fundamentals. The efficiency, or 'Q', of a coil has absolutely nothing to do with how well it radiates because the purpose of a coil is to provide an inductance, not to radiate a signal. In fact, coils with very high Q are very poor radiators.

What he is trying to tell you is that a coil DOES reduce the efficiency of a
circuit as opposed to a straight wire.
That is something you can argue with all day long and it will still be a
fact. Any coil creates resistance. If you wind
a coil of say #18 wire, it will also CREATE more heat than that straight
wire. Where RF is concerned, in a given circuit, it will be resonant, but
that heat wastes RF
energy . Along with it, it will also be more "broad-banded" and tolerate a
wider range of frequencies. Now,
when you----and let's talk about antenna coils-- use a larger coil, YES! It
distributes heat better, but this is
again a result of less resistance. It is also called IMPEDANCE of which
there are 3 "resistances": feedpoint impedance, COIL resistance, and
radiation resistance. Now. We can't do much about radiation
resistance, but the other two can be used to advantage.
With the coil, again, it DOES dissapate heat AND its bandwidth becomes
NARROWER. That means that
if you are sitting still and the antenna's environment doesn't change (like
with those keydown events) the
antenna remains in resonance. If the vehicle is moved,
then it's effficiency *can* suffer because its environment
changes along with it. That cell tower that wasn't there
before now can have a BIG effect on the antenna's overall performance. It
also may not be as big an effect
at 27 MHZ as it would be at lower frequencies, but it
is an effect no less.

According to established antenna theory, a 102" whip
would outperform that big coil. The reason they don't
is that *most* users put the whip on the bumper and when they install a

Predator 10K, they put it on the tool
box (pickup) or the roof. Now the parameters have changed and the user now
believes that the coil is "better". Sure, it's better, but the coil antenna
now has
gained a height advantage.And this has as much to do with the antenna's
FEEDPOINT and proximity to the earth With the whip on the roof or tool box,
the coil should not outperform the 102: whip, but whips are impractical and
they don't *usually* end up on top because of their height.

Antenna theory is the same for any radio service whether it is CB or any
other.

The current distribution for the coil isn't uniform,
(input current <>output current). So it won't evenly dissipate heat,
it will be hotter where the greatest current flow is.

No, but an antenna with a high Q coil is more efficient, due to the

This is an idot that I chided for fowl language. He doesn't have a life of his own so he wants to live mine.

One may tell me from the imposter via his phoney yahoo address.

Mine comes as always, from pbtcomm.net.

Balderdash. The coil will evenly distribute heat that would otherwise
fry a lesser, non-coiled antenna.

That is not what he said. There was NO comparison until you entered an
example.

>That is something you can argue with all day

No need. What you said and what Paul said were two different things.

>long and it will still be a fact.

What Paul said is not a fact. With your radio background and experience
with antennas, you should know his claim is no absolute.
The presence of a coil does not necessitate the reduction of efficiency.
In fact, the opposite is true in many instances an I'm really having a
difficult time believing you can't realize this.
There is a tradeoff in the design of many small antennas,,,,practicality
for sixe and all that jazz,,,,,in some of these cases, a coil actually
makes the said design more efficient.

>Any coil creates resistance. If you wind a coil

>of say #18 wire, it will also CREATE more

>heat than that straight wire.

Which is where antennas are compromised by virtue of design for
practicality of size.
Nevertheless, the coils are efficient at dissipating heat, which can
often be a factor in making the antenna more efficient.

>Where RF is

>concerned, in a given circuit, it will be

My original statement said nothing of broadbandedness,,,I merely said
Paul was incorrect.

>Now,

>when you----and let's talk about antenna

Again,, "better" is often synonymous and construed as, "more efficient."

Which is why the antenna testing ranges are free of obstacles. Paul's coil statement still is incorrect without qualification.

Theory is only that,,,,,"theory",,otherwise it would be fact. In all seriousness, that whip is gonna fry with mo' watts!

A local muddin' club has several trucks with whips on the roof and even a Jeep with a whip on the rollbar.

Yep,,a theory is but only the best explanation we can offer for all that we can't explain and the real world tinkerers know that theory does not always hold in real world applications, especially in endeavors such as radio and antenna design, otherwise, the products would never advance or improve, as they would be at an impasse.

The explanation is that the government pays them for NOT working. If the welfare gravy train were to disappear, most of these people would be working.

There is no guarantee that you will receive the job of your preference. Go find a job, ANY job! Go work at McDonalds, 7-Eleven, anywhere you can earn an honest living. Work at this job until something better comes along. That's how everyone else does it. What makes you think you are above the rest of us and somehow don't have to take a job you don't like, simply because you have a "disability?"

>I don't have the funds to relocate out of state permanently, and most >employers will not pay relocation costs are part of hiring. so, I am stuck >here, whether you like it or not (and frankly, I could care less what you >think too).

That's complete crap and you know it, Eric.

I know several people who are MUCH more disabled than you appear to be and they are all capable of holding down jobs and earning an honest living. They don't mooch off the taxpayers and spend their days on the Internet, whining about their "disability." There are thousands of COMPLETELY blind individuals in this country who go to work each day and earn their keep.

Frankly, your "woe is me" attitude and your refusal to accept an entry-level job is a blatant insult to all the disabled folks in the world who work for a living.

I don't think a batch of newcomers can unleash any more unholy blasphemy onto the HF bands then what has already been said and done.

Most of the conversations I've heard on HF sound like rowdy barroom talk or a bunch old maids sitting around on deflated hemorrhoid cushions complaining about poor health and cat food.

We need incidents like this to remind us every now and then that there
is no free lunch when it comes to "wireless" communications (Sorry
about that pun, but I couldn't resist).

In my mind, this is merely teen age pranksterism. No, it's not a very
sociable thing to do, but it's not exactly as if they hurt sales of
fast food retailers nationwide. What worries me are those busybodies
who are so offended by this "awful" behavior that they'll attempt
additional legislation against it.

This is how bad laws get passed. We need to watch carefully and
ensure that these busy-body twits are thwarted and sidelined. Teen
pranks shouldn't be cause for raping our judicial system with ill
advised legislation.

/ / In other words, it does not matter that Bush's invasion was bogus, predicated on Straussian lies -- those who are asking for accountability are traitors because they are supposedly providing comfort to the enemy, who happen to be at this point Iraqis resisting a brutal occupation. In short, if you don't back Bush and his gaggle of war criminals you deserve to put in prison, maybe even hauled before a military tribunal. \ \

/ / What is perhaps most disturbing about the above is how little it disturbed the guardians of our democracy in the media. Virtually alone in the press, USA Today bothered to inform its readers, in the context of Bush's phony claims, that his own chief weapons inspector, David Kay "turned up no weapons and no evidence of any advanced weapons program" despite months of investigation. [then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately
unminds a timeless universal principle that exists also
in the 1700 B.C's, Code of Hammurabi, where all
individuals are to be found equally under the Law, to be
fair minded about our business. Simple right? No,
corporate america says being fair, is not to care one
way or the other between commercials., and the result?
The available 9/11 evidence is not publicly disclosed as
relevantly important, for Laden did the whole thing by
himself, (bush, cheney, and rumsfeld said they know
better than everyone else put together so don't even

bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included.

But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war

monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,

Johnny Wizard

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist
attacks, that outlined plans for a ``post-Saddam'' Iraq and the
handing out of lucrative contracts, reveal Bush's performance as
a charade filled out with falsehoods. \ \

follow in the footsteps of Saddam's Iraq and demand payment in Euros

for every 85 cents (one Euro, at the time) they put in the bank,

/ / It is important that you be completely clear on timing. While
the Newsweek report of February 24, 2003 was the first to
publicize Kamel's testimony that the weapons had been destroyed,
US and British intelligence (as well as UN officials) had had
that information since August 1995. If you were not given a full
account of what Kamel said before it appeared in Newsweek, your
advisers should certainly have given you the whole truth when
Newsweek did break the story three weeks before you sent US
troops into Iraq to destroy those same weapons. If they did not
tell you, heads should roll. If they did, it becomes necessary
to explain why the information from Kamel had no apparent effect
on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody

deserves to be murdered, but a murderer escaping to
recommit. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping

we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted

right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of

innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do

everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice, the bushites need advertise between commercial break only, "Laden did it", no need to follow the ample criminal 9/11 leads folks, because the crime they say wasn't committed by true American values. Go on along bush, cheney, and rumsfeld say, pay no attention to our evidentiary findings such as, the American FBI's documented contention, that bush's business partner, General Ahmad, funded the 9/11 'mastermind' Atta, or the CIA's, regarding bush LYING in America's name about Niger (TREASON), or MSNBC's almost Biblical Revelation, about the bushmob having a signed and sealed, 'top secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves,

nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US

to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and

double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. This is why I plead with armed Americans to kill the unarrested bush for the love of children everywhere. Look, we know directly who the bushites are who PUBLICLY advocate the murder of innocent People through corporate censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor

bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumfuk treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and

General Ahmad two days prior to the public event of murdering "thousands" in wealthy corporate America, a secret plan that has been confessed publicly to US as fully implemented by the White House right from the start to Jim at MSNBC, months after the fact when the demon antiChrist was caught with American blood in his breath.

Not to follow the criminal leads surrounding evil bush as mass murdering antiChrist, is what the White House confesses to Americans today as official policy under every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering

innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think, buford blount figures I as a real man will not seek him out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help yourself? The true danger to America increases with American doubts on bush's blatant, true naked evilness, or humoring God as Johnny, and betting on yourself for a change by supporting me as the time being? Look, what could you do for your freedom, when I demand the pursuit of Justice by following evidence to truly protect this World we share? Support my demand to raise the news media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where almost half of the monthly 4 billion dollar tax payer bill is quietly disappearing while grandma loses her cable television, or only grandson? Is that Leadership I ask every American Soldier to be brave and forward this letter on terrorism to your fellow comrads secretly. Then, we'll see...

To Serve and Protect

We notice corporate America doesn't like to respresent themselves with counter opinions on terrorizing humanity, due to their communication breakdown with our technology, so too, is the American corporate news presentations as priority, not fairly represented to be publicly dictated, but as we witness, weakened by time bite restraints, and a narrow scope of available gunho retired military commanders, to pave the easy, high cost but we pray, thinking is stupid senarios. Who I ask you, would suffer unjustly as consequence of no public voiced concern of us victims as always paying the collateral? Leaving us alone to perish silently screaming while arm chairing a global incorporated news network comedying to the dance of our real world suffering, as deemed politically unimportant to seek understanding with answers for ourselves on. Telling us were not worth working for. Why? All things are questionable, in this living state of permanent change, which is why we need to stand on laws for measurement, regarding facts we would concede evidential if presented the logic, murdering innocent people in our name just sucks. As the corporate B line is in giving every credit to the bank machine, who don't do anything for our payments, but leave us bowing humbly while billed for nothing, and giving over your investments as community to the "all knowing" brick bank building, that is ordained to house a stint for quiet gig types managing to work the big ol' confectionery in the sky for profit at our losses, who as only mere humans through accomplishments of great skill due to arduous study, or saying "We have the stock holders to consider" quite often, have set up a plan to not work for our own money as they live our wages to be the most wealthy, causing the destruction of our standard, as payment due receeds our real cash flows, compeling bankruptcies with further debt loads, eradicating competition while instituting their limited high price of greed, to cheat us all of comfort and security. A personal savings account may recieve only .02% interest far below banker inflation, then service fees, while the bank loans your personal colateral at 6% or higher, taking from us all as someone who wouldn't be able to do that officially, if we had the way at our bank regulations to serve ourselves democratically. Let us all just stop here and give them a hand for being so crafty, and screwing us all over like that, and also for wisely teaching how difficult we are to implimenting knowledge to improve our happen stance. One could keep in view, that being here, just like a holy high roller, has us privy through proxy, as likely in close approximation of the unknowable secrets of the Universe too. Private banks

are why corporate news America does not celebrate our wisdom as worthwhile, but will go on only the virtues of giving to the successful, do nothing stock takers, but can't figure to rationalize us attempting to fairly ware through a globally, fixed to break under a market system of cheats hedging, as officially swindling us somewhere, on your behalf as politically unrepresented. (But, still here though eh?) A market that is absent basic human rights as our thought out game rules, is not a free market of the people. Will we, measure successful results through freely being, or by corporate depreciation of our established values? Will we recognize our Living market place preserving freedom as we will it to be, or be thought as unfactored, when tallying the final score card on who determines? So, what will it be family? Will we be strong enough living to win on merits, or fail as our own game loses your share unfairly? To serve and protect our freedom to the best of our ability is not an impossible task, we can still indeed achieve something, and so, I'll be playing my part as a worldly critic going all out because, clearly, we are dumber than we need be, and I know, we can improve this world by listening. Easy answers are difficult to come by, and we are all as us fallible, but Jesus Murphy Jones, following the mythically super evil lawless criminal dictator, Our Mr. bush Jr.'s path to tyranny, through continuing war crimes as a mass murderer, like in New York City, destroying well established American standards, like with the patriot act's attempt to dismantle the Bill of Rights, and then re-aqainting ourselves with the Religious experience, by advocating a heretic hotline to report on strange behaviors secretly, doesn't seem all that tenable from my vantage point, what with this, common sense perspective that paints our political mandate to preserve the notion of freedom as Law indivisable, to be generally a good thing for everybody as defended in spirit also. Again, the pope bush plan, wants to take humanity back to 1076 somewhere. Without open dialog on ourselves as accountable, which we learn already from our stifled dark history, brings us close to be teetering on a maybe soon to be repeating, "Who are we stealing from again being also present at the casinos without full pay backs to stimulate the consumers?", or "Let's legally patent the periotic table and charge them to breathe oxygen!", soon then after maybe they'll finish outdating us all together as falsely contrived, like those silly public court rooms that could expose the naivete, to just how rewarding noble police work can be actually. Freeing the innocent to remain so, by

incarcerating the deserving as a protection to ourselves represented democratically, can be like, spiritually fulfilling. Side note: Reabilitate, not slave trade, release the pot smokers, and let's let the judges judge to be judged accordingly. American corporate news professionals, would claim a world political scene presentation, not to be a show on their private for cash profit take only, but on our truer nature to help better our real world predicaments, in between expensive Dutch shell commercials. (CNN claims they actually do seek information on background stuff in our interest occasionally.) But, we're left with a corporate news force portraying our opinion on the politics of Life as we lose it to be cheated, as only so far as like blitzer would say himself, surrounded by warmongers who label their discussions a debate on what they could be done as we. So just as long as no one makes them look irrational as dumb struck to stay so in a closed communications stronghold of ignorance as living the language, or even using a public search engine, we could even further ignore ourselves as unrepresented, and softly puppy sleep all the way back past the dark ages, then slosh into the primordial period to start this whole thing all over again, with better chances hopefully afforded to those making an effort to gain our will as understanding openly, and to take a stand for ourselves legitimately. Justice for all must win our lives to insure a better future for you and yours today, and tomorrow, we'll see. The politics in Life is to finding our will as best terms measured for all considered, a wonder of living as we would sow for our own freedoms, by being just plainly ourselves out laughing, having a good time. Not for bush to take unaccountable billions, blame persons for a world crime without following evidence, then murder whomever in our name. Our expressed outrage from clear across the great divider on this bush fellow, is just not making a big scene by the corporately repressed, as the supposed elite, in on ten seconds, as our business representors, and by itself, isn't what preserving a Democracy should be blindly entrusted to for our vision. Corporate America news is not doing our job to protect individual freedom by ignoring ourselves with every just cause they would see the company uninterested with. Including what many as elected have importantly stated in all seriousness as high priority. War. War deals in our lives, and is our wager to always decide fighting the good fight wisely. Like fighting to inform that terrorism is unneeded to capture the infidel, when we always have evidence to conclude the found suspects.

For why I ask you listener, would any leader of US people blame someone for a crime who wasn't linked to the offense, while working to close investigations, and not follow through with the ample clues to capture the true evil doers? Just how cowardly stupid can American soldier families be taken without conviction as themselves worth fighting for?

Justice for all, and glory be to godly.

Carry on,

Johnny Wizard

Johnny Wizard Here To Tell It Like We Is

So, the bush regime knows that Saddam has no nukes, but as any person could, maybe at sometime in the future would target general populations, of which Saddam has stated to be rationally stupid, immoral and evil. A tactic that bush, as america, says without pause to reflect, would do so in our stolen names is plausible with him in power as a degenerate. The bush regime also thinks Saddam does indeed have biological weapons, and has so for decades but never used them, as the only affordable balance to the militarization of the region. Namely, to counter the Israeli government's corrupt political position of American funded bigotry and lawless behavior, on claims God gave them a right as criminals apparently, to deprive Christians a right to live justly, to own property, or use public roads even, and that most of Iraq should too, be stolen by force like hitler did, as hitler did measure also, all Jews, by the same level of intolerance, ignorance and barbarity sharon does of US as Palestinians, you know, Catholics, Muslims, Jews and Atheists, absent love for ourselves as understanding, godly, and principally innocent until proven otherwise. Mr. sharon is not Jewish, nor is anyone else allowed to practice as such in the Likud party. But anyway, Saddam is no Saint, however, no evidence exists that Saddam has ever used bio warfare weapons on his own people, while Our Mr. bush Jr., is documented factually, as a murdering demon of evilness clearly paraded before ourselves by corporate command, as a supposed representation of OUR civilization's true will. As Our Mr. bush Jr. works diligently to destroy our lives through fraudulent means, counting on US not trying to save Ourselves by following the truth to set US free. A repuglican who without laughing, demanded law enforcement agencies not

follow the ample criminal evidence to arrest the true perpetrators of 9/11, but instead, urged the closing of investigations, while top secretly, implicated bin Laden without evidence he couldn't divulge, of which the British government ended up doing so for the love of our selves, comprising of only, general maybe if's, of which only could, can, and does, jeopardize bush, cheney and rumsfeld by taking such a secret, now public position against our interests to kill us as the innocent with. Which is truly why bush rumsfeld and cheney are warmongering as despicable savages. 5 billion dollars in humanitarian aid is being blocked by the bush regime to enter Iraq, like food and medicine. The bush regime demands children be starved and not receive treatments for ailments, such as aspirin for headaches, or as cancer from the devastation the families of Iraq are still suffering through, since the last time a bush's american criminal military force dumped tons of radioactive waste in the region, while murdering indiscriminately ourselves as anyone, because principally, toxic American soldiers, like the American people, hold the title of the highest illiteracy levels of the developing world, which brings them as consequence, the worst health care providers to themselves as discounted, corporately mandated as unworthy to understand their own behaviors, so they can be even further rooked as shysters. Over two million people have died directly because of American aggression against the practically defenseless in Iraq, who the bush regime even claims, have little of no power to change the political landscape, based in loose tribal ethics as protections, that has been as such, for approximately 4000 years. And as American traitor war criminal rumsfeld proclaimed, since american aggression has continued against Iraq over the last twelve years, so too, has their economy been devastated, and as consequence, the attraction to keep the more literate as wealth driven from remaining, has waned. But what can bush offer Iraq, indeed to our world my friends? Just murder US people for stolen cash profit, is clearly his only motivation, as a tyrant dictator far worse than Saddam has ever been. Mr. bush indicates he knows nothing of economics, or the important function of law to protect our societies, so what if he should kill Saddam, and maybe a million Iraqi people, then what? He hasn't thought that far, and clearly, due to his evilness we witness daily, couldn't care less. CNN and other corporate professionals refuse to tell the blood sucking, carcinogenic, corporate American real fast news blips, of causes they as a nation in total celebrated

televised ignorance, have committed against the Iraqi struggling to survive People, and indeed around our world likewise. As was the bush regime's unreported support of the overthrow of democratically elected Chavez in Venezuela, who incidentally, as one of the very few, holds a perfect human rights record, unlike America, who is the only nation, the World Court has convicted by factual documented evidence, to be a terrorist state. There is no record of Saddam murdering millions of Iraqis, while targeting innocent children, but there is to the illegitimate bush family, and nazi soldier tommy franks intentions, the most despicable savage to ever don an American uniform, who would now have us all believe, such a evil strategy of criminal wrong doing, is the only option, to better the lives of those who barely survive from American oppression in Iraq as it is. What form of governance would bush be suggesting? Would it be like bush squandering almost 7 trillion dollars in bad business decisions for our futures as he has set forth for America already? Or maybe something like the new criminal heroin pushers in Afghanistan as foreigners? Costing the American nation, who holds the title of highest rates of human depravation in the industialized world, and highest percentage of imprisoned per populace in all recorded history, 5 billion dollars every month to prop up sales in narcotics, and terrorist handbooks. Where political opponents who criticize the Karazi regime are murdered, for factually claiming the political aims of Karazi are not representing US people as the children? Or as evil bush, who would boldly lie to the face of God, that there were no girl schools in Afghanistan under the Taliban, while secretly thanking sadistic scum bag American traitor, mass murdering savage, wimp ass drug dealing coward tommy franks, for specifically targeting those very schools, women reporters, Mosques, red cross units, literate tribal leaders, men with beards, and children, while labelling all of Our humanity who would fight against injustice his enemy? Or that bush would dare still attempt to get away undamaged by the real men of this world, to spout his venom hatred for humanity to what must be drugged out to be so cowardly American soldiers, by lying to US as the demon of pure evilness we all witnessed, that heroin cultivation wasn't factually outlawed by the Taliban officially following Allah, leaving no position as God's will to back track politically on later? American military analysts, including the CIA and former secretary of Defense, William Cohen, claim Iraq is no threat to it's neighbors, as so too, does no nation in the region

support bush's warmongering. In Congressional hearings last week, former UN arms inspector Scott Ritter courageously stated what many Americans believe, but rarely if never mentioned by corporate news standards as the will of the people, "A handful of ideologues have hijacked the national security policy of the United States for their own ambitions." Ritter insisted Iraq was no threat to the U.S. or the Mideast, and later offered that cheney be forced by Americans on mass, to offer evidence to his bogus, make believe accusations, that he wishes to use to actually murder thousands, if not millions of US REAL PEOPLE. Our axis of evil, bush rumsfeld and cheney, do not want renewed inspections of Iraq, they only want war to murder ourselves, and to create instability in our world through fear to prevent their rightful capture for 9/11, while we all are expected to sit back as corporate standard fascist cowards, to pretend bush was actually elected as President in America, because actual poll counts were forbidden to be publicized, therefor, he may have won our approval to use nukes against anyone for whatever. With CNN, the Commie Nazi Network, telling us we as the civilized are also convicted to poll, that evidence is no longer a requirement to convince US who is criminally insane, in this nightmare of criminal bush family evilness, hell bent on destroying your world, and everything WE, as The People, have struggled so hard to protect. It would seem any world threat of terrorism, would be surely from a nation like bush's America. A cowardly nation that demands we as humanity, be deprived the guiding principles of Justice like they in weakness had abdicated as no longer their own as unfairly represented, leaving as slaves the bush regime to rob us all of our Freedoms, as a rule of Law instills such as in the Declaration of Independence, the Bill of Rights, and the American Constitution. All now trashed by Ashcroft, as clear criminal intent to obstruct Justice as the American dream for everyone.

E-mail this to somebody for Christ states,

yours truly,

Johnny Wizard

From below:

"Mr. bush you nazi vermin, you attack my America, you attack US all. American soldiers will not sit back as cowards entirely, and watch you sacrifice our lives as

worthless without meaning."

I think I love you too much

Wow, your amazing! So, what your saying is bush the
nazi tyrant, the unelected mass murdering fascist
dictator, has no interest following the ample criminal
leads, because they lead to him, rumsfeld, and cheney
likely too, right? And, when that evil monster told us
instead he would rely on secret evidence, but couldn't
tell us why, as too the FBI or CIA, it turned out to be
nothing but another wicked evil deception against the
great American people, Tony Blair, bin Laden, and law
enforcement officers everywhere, to even further give
him cause to close investigations into 9/11 as Reuters
told us, and rob directly from American soldier
families, their lives, pensions, life savings, and blind
faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

...an "enterprising ham"....a modified two meter rig? Don't be ridiculous! No two meter rig with an upper frequency limit of 148 mhz. even expanded for MARS operation on 149 mhz. is going to have the capability to reprogram in the 154 mhz. range. You need a reality check. The closer truth is some teenagers with a little technical knowledge and shit for brains. The FCC recently authorized MURS which are certain high vhf frequencies that do not require a license. The equipment, typically an HT is available from Radio Shack or other sources. Two of those MURS frequencies are 154.570 mhz. and 154.600 mhz. typically are two of a 5-6 low vhf/high vhf frequency combination licensed to fast food operations. Some use a pl tone and some don't. I can hear a Burger King on 457.5125 mhz. 1/2 air mile from my home and a McDonald's drive thru on 154.570 mhz. 1 1/2 air miles away. The only surprise is that it does not occur more often.

The Icom IC-229H can be made to operate up in that range... easily.

Same old copper, you buy it, you own it. Try to return something defective and see what happens. First and most "YOU DID IT" is the first reply. How they stay in business is beyond me. Before you buy anything from them, have your head checked by a doctor or do a web search on them in the google groups. Make sure you have a full pot of coffee ready cause you gonna be up late reading the massive amounts of the same "got ripped stories". Some things never change. O, almost forgot, dont try emailing the boss, he dont want to hear about anything but incomming cash.
Yours truly, another burned one in a list of many! And dont forget that the warranty is, well, tiolet paper, if your desperate. course for all legal considerations I will add that this is my opinion, as well as many others also.

ps--- that felt good!

well, funny you should say that. I've even been turned down by the likes
of burger king, whataburger and all the other fast food chains, as well as
a few of the resturants (no ppsitions available). these particular
industries have a very high turnover, and they are always looking for
young workers who can't, or won't demand anything more than minimum wage.
they look at a near 40 year old (39 in 2 months) and brush it off very
politely. I'm not askin for a handout here. I just want to be a useful,
productive member of society.

the problem is, you can't (or won't) understand my position. I've tried
getting a job in any field where I may have even the minimum experience (I
worked in fast food when I was still in highschool almost 22 years ago).
the work isn't that hard. getting there is a little challanging (by bus
and on foot).

One last point on the employment issue: most employers do
not consider the phoenix transit system to be "reliable transportation"
and they offer no exceptions. that makes it even tougher to get a job
here.

it is? have you tried that? I have. most foirms that would hire have all but stated that the employee is responsible for all expenses involved in relocating (except in rare or special circumstances or in government service). I know. I have asked about this may a time. you think its crap. prove it.

uh huh. care to march them out and have them talk to me personally? and in what state is this anyway? and if you bother to notice my posting times, I don't spend a lot of time out here. as for whining, I see you doing a lot of that for me (or should I say, about me).

why do I have to justify myself to *you*. you complained when my name was even mentioned and made smart-ass comments regarding my personal character, habits and a lot of other crap. what gives you the right to commit libel and to harrass? NOTHING. frankly, I don't see why you are even so worked up about what I do with my life (if I do anything at all) of where I go. for all you know, I could be working from home (unlikely, but doable).

hell, I've seen more complaints out of you than almost anyone else here. what is your major malfunction with me, or are you just running off at the mouth trying to feel oh-so-most important.

I dare say, I think you have issues, and it may be your problems that are harping so loudly. whose to say. I'm not qualified to make a psychological assessment of your situation. However, it does sound like you need some help to me.

refusal? what refusal. what do you think I applied for all those many times? and how would you know anyway? you don't have any real hard evidence to back up your claims. you are just spouting off again (as usual).

/rant on

here is one other interesting fact for you. was it me that caused this thread to appear (and thus garnered my attention)? nay! it was someone much like you who had more time on their hands than was recommended (idle hands and all that). you (and a few others) are here for many of the same reasons. too much time and very little else to do to iccuoy your many

hours of boredom. you don't like it and that is what frustrates you all the more. so guess what, you decide to take it out on me. all that does is make you look even more foolish.

frankly, my employment status, source of income or anything else about my life, situation or circumstances are not your concern (or any of your business for that matter). you and about 3 or 4 others in here have nothing better to do. why don;t you applie what braisn you have to a problem of some real consequence? oh yeah, thats right, you fried most of your brains on all the drugs you did as a kid, or all the alchohol you probably drink (beer, liquor, etc) and probably have loads of health problems related to all that cigarette smoking you do. no concern of mine. However, what does concern me is this obsessive behavior you have toward me. oh well. you won't learn and all you can do is whine about it. you can't understand the problem and so, in your fear, you seek to stamp it out, eliminate it and make light of it. as I said, it sounds like you have issues. so.. what are you going to do about it boy? huh? is that all you got?

The Icom IC-229H can be made to operate up in that range... easily.

Yes indeed! An "enterprising ham" (or anybody else) with a Yaesu Ft-2400,
FT-2500, or even the dual banders can clip a wire, desolder a jumper and be
good to go up to and above 164 mhz.
For instance. It is all too easy to modify one of these rigs to transmit on
154, 155, or higher freqs. All one needs is an antenna that handles these
frequencies without causing the protection circuit to dump the radio. A Rad
Shack discone is one such antenna....
Don't be ridiculous...know whereof you speak.

164? That's nothin! Alinco handhelds go all the way to 174.

Better yet: an antenna cut to resonance. Since 154Mhz is a popular business
frequency, antennas designed to transmit here are inexpensive and easy-to-find.

Are you telling me that it's unusual for hams to operate (illegaly) out-of-band?

(Trying to stop choking from uncontrollable fits of laughter.)

Consider the number of hams who use their dual-banders on the FRS and GMRS channels...or the number of hams who use their HF rigs on the CB band.

I would dare say that *most* hams partake in such behavior at least occasionally.

Not condoning it, just stating that it does happen...and happens frequently.

Hey, NIW!
Check dis out, boyeee!!!!!!!!
I made love to an African-American female who was 30yrs old. I am white.
We had a passionate love affair goin' on at my place.
Yes, I wore my jimmy-hat!
We wore nothin' else but our smiles ;)
We did it on my waterbed!
She's got a nice ass and a couple of DD melons!
Had some smooth jazz, Barry White music, Teddy Pendegrass, Earth, Wind and Fire, Mariah Carey, J-Lo, David Sanborn, Paul Hardcastle and many others!
After that we took a shower together, the room was full of steam as we continued our love-making there.

NIW needs to find hisself a "goodbuddy" to suck his dick!
NIW, look up the word "nigger"
It means "ignorant"!
IT ain't about White or Black --- It's How YOU act!!
And you actin' like one, too! You Retarded Muthafucka!!
You wanna cry 'bout somethin?
Keep callin' someone "nigger" and you gonna be a "Prison Bitch"!
And then, YOU will Be CRYIN' like a Pussy!
Yeah, you'll find out why they call it "THE POKEY"!
HEHEHEHEHEHEHEHEHEH!!

I was wondering if anyone can suggest a CB store in NJ to have an alignment done on a base radio I just bought. A couple switches were broken in shipment and need replacing too.

I know about White Dotte in Southampton, but the guy who does the repair is only there on Saturdays and won't allow them to take radios without him being there. I've heard of the one in Lodi (what's the name of it?). Any other reliable places? The one in Piscataway (CB Radio Exchange) has apparently gone out of business (that's where I used to take all my stuff).

They used to make quick connect slide mounts for CB's, is there still such a thing in production? One or two would come in handy for me to use for radios I swap between vehivles occasionally.

Thanks, thats what I get for getting up too damn early, my brain
doesn't work right. Should have thought to look it up on google myself
heh.

Oh well last week or so my mind hasn't been working properly anyways.
Last thursday had a CT scan on my head, and tomorrow (monday) morning
I have to go to Defiance to have an EEG done. Doc's not sure if this
is all related to my recently diagnosed blood pressure problem or if I
have something wrong with my head (I know, I've been having problems
with my head for years hehehe). I've been having severe headachs,
light-headed, dizzy, confusion, almost like I was still doing some
really good drugs or drinking, also been having what the doc says is
like a mini seizure on the one side of my face. Since they have upped
the dosage of my BP meds the problems have dissapated somewhat.

Anyways thanks for the info.

I'm just a CB'er, but I have a boat load of money tied up this junk. And I for one, would like to know how to tune an antenna to resonance. But before I go out and plunk down another paycheck or two for a O-scope, I have a question or two.

I'm looking for a cheap alternative here and I haven't got a clue about electronic or radio theory, so I'm just kinda takin' shots in the dark here.

I have a CB, and a big stick on the roof. And when I push the little talk key thingy, it sends my voice out into space somewhere so all the little voices coming from the black box can hear me. Right?
Logical conclusion: All CB'ers are from outer space.

Now, I also notice that on certain frequencies on my AM radio, at times I can tune it to pick up my transmissions on 11m fairly well. Is this splatter ?
Are these harmonic frequencies? Can I use the relative power of this splatter to measure the resonance of my antenna? i.e. more splatter = better resonance at the same power level. How much more performance should I expect to gain by tuning to the resonant frequency of the antenna as opposed to a setup that is matched at 1.1:1 ?

Ya see where I'm going with this? I'm cheap CHEAP I tell ya. I'm trying to hillbilly this thing together, right.

Example: My power supply has pedals on it...

I also need to find a 4 element beam with 40 db gain and 70 ft of tower for a 100 bucks

help...

????????????? It is FIFTEEN HUNDRED watts for *most* bands, but why is that
such a big deal? I can easily work the world with 100 watts or less. I have
a
650 watt (swang?) mobile amp sitting on the shelf. I don't
use it because I don't need to. I don't have the BIG POWAH ego of many hams
AND CBers that MUST have the biggest signal to compensate for other
inadequa-
cies. AND, there is a rule in the Amatuer Service that goes somelike this
(paraphrase): "One should use only the
amount of power necessary to establish and maintain contact with a maximum
of 1500 watts. It also means that one *could* be cited (tho I know of no one
who has) for
using "excess" power--whatever value that may be, which, I assume, is up to
FCC's discretion. In what is considered *normal* conversation, if one
station is being
heard with 100 watts with ease, and the other is using
1000 watts because he just "wants" to, then that is considered excessive.

There is a difference in interpretation in CB and ham radio. For the CBer
(and this is NOT some sort of "cut"), people seem to think that a
conversation is about
"winning" some sort of battle via "louder and prouder" than one's opponent"
(?), or having mo' watts than the other fella, etc. Amateur Radio is
supposed to be about
experimenting, learning how propagation works, and using power judiciously.

Does it always happen that way? No. Human nature, being what it is, has a competetive element, and some operators take that to extreme. And, yes, the group of CB ops here that I talk to do it within the law. They aren't interested in BIG signals all over everywhere; they just want to talk to their
buddies and that's it. Plenty of hams run around 100 watts because it is what the radios are designed for. For some of us, it just isn't worth all the hassle and expense to
have a BIG amp when 100 watts will do all that is needed. With that 100 watts, I have worked Russia, Estonia, Serbia, Europe, S Africa, Australia, Hawaii,
and all kinds of S. American countries. Didn't no BIG
WATTS to do it.

Why? Only your meter will notice.

That amp is dirty already. Why drive it harder and make more splatter?
Just leave it be. Or better yet, remove the stinger, throw it out, and
get a DX-500. The driver in the 667 makes it scratchy.

I take it stainless and ally don't react!!!!!!!!!!!...I was gonna post this question...

£100 was £20 more than I paid for a new one 23 years ago...but after I had sourced new ones on Ebay and worked out the shipping ($500) £100 seemed like the bargain of the year...and it is in almost new condition...

It also came with a new reel of copper wire...

>and you base your information for this statement on what source?

It's common knowledge, Eric. The welfare system in this country rewards people for *not* working. It allows payments to be made to many, many people who are capable of holding down a job and earning a living. You, for example.

>well, funny you should say that. I've even been turned down by the likes

Then take minimum wage.

That's B.S. and you know it! I routinely see people MUCH older than 39 working at fast-food restaurants.

Here we go with the thinly-veiled legal threats again.

Please explain HOW exactly I have "libeled" or "harassed" you.

Better yet, let's just cut to the chase here: If you feel you have a valid claim against me for "libel" or "harrassment", hire an attorney and pursue a case against me. Otherwise, stop with the nonsense. Fair enough?

>frankly, my employment status, source of income or anything else about my

If you're on the dole and I'm paying your bills via my tax dollars, it is my business.

Sorry. Haven't consumed alcohol since 1991.

Wrong again. Haven't used tobacco since 1989.

I'm sorry, but "common knowledge" is not sufficient.

NAME YOUR SOURCE. (and I am not nearly as good an example as you tout).

Did you open up your radio and "tinker" with it? If so, you voided all claims to the warranty. NO vendor that I'm aware of allows return or warranty privleges once the radio has been opened.

I did quite a bit of business with Copper 15-20 years ago. My orders were always filled quickly and arrived without any hassle. Their prices were always below my local retailers, even after adding the shipping charges.

If Copper is really as bad as you say they are, how is it they've managed to stay in business for all these years?

Just as I predicted. You spout off nonsense, mention "libel", and threaten action against anyone whom you disagree with on here. Yet, when someone calls your bluff and asks you to "put up", you dodge the questions and crawl back into your hole.

You're a loser, Eric. Plain and simple. Haven't changed a bit since your CB days, and I guess you never will.

Pitiful that you won't find a job and work for a living. Sickening that the government takes from working people and pays for you to sit at home and post garbage on the Internet. Is the Arizona Department of Economic Security aware of your ability to read and write fluenty, as evidenced by your numerous "contributions" to the newsgroups? If not, perhaps they should be made aware of this.

I'm done with you, Eric. I've proven my point to you and everyone else who has been following this thread. Got a few big projects coming up soon, so I won't have the time to play footsie with you on here anymore.

I just hope you get your affairs in order and stop feeling sorry for yourself. Existing as a leech on society who uses his "disability" as a crutch and an excuse for everything is no way to go through life, son.

cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our news-casts., as these principles here standing in words, are a dreamers dreams, just waiting for You to bring to reality., by standing proud, strong, and forever free as a, truly, super awesome Human Being.

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an
apology for his misdeeds to destroy our true American
value with? I don't know how else to simply word this
to the still sleeping, but bush isn't America, America
is America. You, as an American, have a sworn right to
demand for America, bush not be allowed to further
miscarriage Justice blindly back to the dark ages, by
not correcting himself on behalf of established
publicly, where American intelligence stood, stands, and
ultimately strives. Freedom is not protected by letting
the "bad guys" go, to further toll more innocent lives
for criminal sacrifice. Sometimes, the real simple
things are over looked as profound meaning. The Magna
Charta of 1215 states that a freeman should not be
imprisoned. Simple right? Not for the bushites who
side instead to faith in pope bush, who deliberately

unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any

further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder

New Yorkers for a fast dollar at your expense for
further keeping silent? These words are freely your own
to do as you will. Shout for Americans dying needlessly
under the TRULY incompetent bushite lawless rule, or
don't side to help a plead for mercy regarding yourself
truly included.

Can the bushites possibly think, we're all not ever
possible to stand together without a true Loyal
President, or, make believe King named Johnny, on the
facts firmly established regarding the treasonous war
monger antiChrist lying to Patriots dying US as victim
for?

America, I will now leave the rest of Our job in your
hands for the time being.

Yours again,

Johnny Wizard

would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist

the Newsweek report of February 24, 2003 was the first to
publicize Kamel's testimony that the weapons had been destroyed,
US and British intelligence (as well as UN officials) had had
that information since August 1995. If you were not given a full
account of what Kamel said before it appeared in Newsweek, your

advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for
to be victims of fanatic nazi american barbarity,
disguised as human, like bush almost gets away with as
pure evil deceived, now completely impossible to
believe. Oh, by the way, I am now taking new
memberships for al-Qaida.

As I say, there isn't a real man in the
American Marines, or the Army willing to protect America
with their lives, for if there were, rumsfeld and bush
would be rightly dead for the murders continuing against
those they know as innocent. As even with their
continuing threats against more innocent people as
American lives they brag to throw away as just soldiers,
as all these other nations they try to make ready to
sacrifice millions for, while propagandizing that our
Justice we need not believe in to grant us freedom from
oppression, nor evidence no longer a requirement to
convince us who is evil, and who is not lying. Nobody
deserves to be murdered, but a murderer escaping to
recommit. \ \

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on

the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for,

the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without

delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans,

but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break
only, "Laden did it", no need to follow the ample
criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top
secret' war plan to not follow the 9/11 evidence to
secure invasion of Afghanistan for Enron, at
Condoleeza's desk, two days prior to the terrorist act
taking place, of which when confronted, confessed as
fully implemented by the Whitehouse. A 'top secret'
plan to blame Laden on a crime they wouldn't actually
try to arrest for with evidence, a plan arranging that
would find bin in Afghanistan pleading innocence with
the help of bush's partner again, General Ahmad, a crime

of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

/ / The International Covenant on Civil and Political Rights, RATIFIED by both the U.S. and Britain, pulls no punches on this count: "Any propaganda for war shall be prohibited by law" (Article 20). \ \

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to say it, and by God they have gone..."

Johnny Wizard "Let US just get bush instead friend."

For the love of life and countries, kill bush as traitor to all our Humanity.

Your unbroken eternal Warrior,
as acting Servant and King,

the one and only,
as staring Johnny Wizard,
the true Son of Man

P.S. My reader, I taunt you again: forward these words of love or hate as if they were of Your own concern. This is why I plead with armed Americans to kill the
unarrested bush for the love of children everywhere.
Look, we know directly who the bushites are who PUBLICLY
advocate the murder of innocent People through corporate

censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the

unarrested unAmerican buforld blount is to stop him from
ordering the practically dead already, nazi dumfuk
treasonous bushite brethren teens, from victimizing
again US as the innocent undefended.

While CNN still insists it's better for them to
misinform and ignore, than to expose the demon bush as
the true target for any Patriot's rage. American
soldiers are being sacrificed to die for no known good
reason, but for bad leadership as evil bushite war
profiteers.

Here's what a bushite's granmom's tax payment is going
towards, minus the 2.5 billion per month of 4 that is
secretly STOLEN by the bushmob as something Americans
are forbidden to know of through their corporate news

ACK! This Scripps Howard piece is missing from our internet world!

Hmmm.. now looking...
this following is an archive of official corporate news sources, of
which few if none report specifically on how the demon bushmob is

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The

evil is in plain sight, the danger only increases with denial."

Remember: Demon bush doesn't forget signing his soul to the invade Afghanistan plan by not following the 911 evidence, but would top secretly attribute to Laden for blame, authored by himself, rumsfeld, Condoleeza, and General Ahmad two days prior to the public event of murdering "thousands" in wealthy corporate America, a secret plan that has been confessed publicly to US as fully implemented by the White House right from the start to Jim at MSNBC, months after the fact when the demon antiChrist was caught with American blood in his breath.

Not to follow the criminal leads surrounding evil bush as mass murdering antiChrist, is what the White House confesses to Americans today as official policy under every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's

re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think, buford blount figures I as a real man will not seek him out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help yourself? The true danger to America increases with American doubts on bush's blatant, true naked evilness, or humoring God as Johnny, and betting on yourself for a change by supporting me as the time being? Look, what could you do for your freedom, when I demand the pursuit of Justice by following evidence to truly protect this World we share? Support my demand to raise the news media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where almost half of the monthly 4 billion dollar tax payer bill is quietly disappearing while grandma loses her cable television, or only grandson? Is that Leadership I ask every American Soldier to be brave and forward this letter on terrorism to your fellow comrads secretly. Then, we'll see...

Jail for Bush: Holding the Greatest Traitor in American History

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ï¿½timidï¿½
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications
at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS
continues to work closely with all the services." \ \

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to
isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration
wants to spare hardships to Iraqi civilians and to show
that the real target of the bombing campaign is Saddam. \ \

--

GET BUSH

So, to IRRATIONALLY target the telephone exchanges, power grids, water dams, pipe lines, and residential communities with thousands of toxic, radio-active cluster bombs to blindly murder a person like You, (that would later, blow up nazi bushite soldiers by landmine), would be considered TRULY evil by demon bush standards too?

Why does Johnny call the huge war criminal traitors puny dumfuk bushite soldiers? They die truly as cowards for the demon bush liar, being enemies of God and Humanity, because prior to the war, (as outlined on March 7th), we had completely unrestricted access to go wherever in Iraq, without delay. So, demon bush sabotaged America's ability to effectively disarm Iraq, and to bring peaceably, freedom in the region through JUST causes, all so he could STEAL further the lives of AMERICANS by continuing with his murder rampages against the innocent. We remember, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused to publicly condemn Universal health care and education, along with what has been described as Humanity's greatest food distribution network. Instead, bush sacrifices bushite soldiers to steal OUR Humanitarian Aid, to double pay commi Halliburton, an american company found repeatedly by Our ARMED Police agencies, defrauding all Americans in criminal contempt for the People payers. All the while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and

Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than

anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

Your true friend,
Johnny Wizard

US Uses Cluster Bombs to Spread Death and Destruction in Iraq

Johnny Wizard Here To Tell It Like We Is

So, the bush regime knows that Saddam has no nukes, but as any person could, maybe at sometime in the future would target general populations, of which Saddam has stated to be rationally stupid, immoral and evil. A tactic that bush, as america, says without pause to reflect, would do so in our stolen names is plausible with him in power as a degenerate. The bush regime also thinks Saddam does indeed have biological weapons, and has so for decades but never used them, as the only affordable balance to the militarization of the region. Namely, to counter the Israeli government's corrupt political position of American funded bigotry and lawless behavior, on claims God gave them a right as criminals apparently, to deprive Christians a right to live justly, to own property, or use public roads even, and that most of Iraq should too, be stolen by force like hitler did, as hitler did measure also, all Jews, by the same level of intolerance, ignorance and barbarity sharon does of US as Palestinians, you know, Catholics, Muslims, Jews and Atheists, absent love for ourselves as understanding, godly, and principally innocent until proven otherwise. Mr. sharon is not Jewish, nor is anyone else allowed to practice as such in the Likud party. But anyway, Saddam is no Saint, however, no evidence exists that Saddam has ever used bio warfare weapons on his own people, while Our Mr. bush Jr., is documented factually, as a murdering demon

of evilness clearly paraded before ourselves by corporate command, as a supposed representation of OUR civilization's true will. As Our Mr. bush Jr. works diligently to destroy our lives through fraudulent means, counting on US not trying to save Ourselves by following the truth to set US free. A repuglican who without laughing, demanded law enforcement agencies not follow the ample criminal evidence to arrest the true perpetrators of 9/11, but instead, urged the closing of investigations, while top secretly, implicated bin Laden without evidence he couldn't divulge, of which the British government ended up doing so for the love of our selves, comprising of only, general maybe if's, of which only could, can, and does, jeopardize bush, cheney and rumsfeld by taking such a secret, now public position against our interests to kill us as the innocent with. Which is truly why bush rumsfeld and cheney are warmongering as despicable savages. 5 billion dollars in humanitarian aid is being blocked by the bush regime to enter Iraq, like food and medicine. The bush regime demands children be starved and not receive treatments for ailments, such as aspirin for headaches, or as cancer from the devastation the families of Iraq are still suffering through, since the last time a bush's american criminal military force dumped tons of radioactive waste in the region, while murdering indiscriminately ourselves as anyone, because principally, toxic American soldiers, like the American people, hold the title of the highest illiteracy levels of the developing world, which brings them as consequence, the worst health care providers to themselves as discounted, corporately mandated as unworthy to understand their own behaviors, so they can be even further rooked as shysters. Over two million people have died directly because of American aggression against the practically defenseless in Iraq, who the bush regime even claims, have little of no power to change the political landscape, based in loose tribal ethics as protections, that has been as such, for approximately 4000 years. And as American traitor war criminal rumsfeld proclaimed, since american aggression has continued against Iraq over the last twelve years, so too, has their economy been devastated, and as consequence, the attraction to keep the more literate as wealth driven from remaining, has waned. But what can bush offer Iraq, indeed to our world my friends? Just murder US people for stolen cash profit, is clearly his only motivation, as a tyrant dictator far worse than Saddam has ever been. Mr. bush indicates he knows nothing of economics, or the important function of law

to protect our societies, so what if he should kill Saddam, and maybe a million Iraqi people, then what? He hasn't thought that far, and clearly, due to his evilness we witness daily, couldn't care less. CNN and other corporate professionals refuse to tell the blood sucking, carcinogenic, corporate American real fast news blips, of causes they as a nation in total celebrated televised ignorance, have committed against the Iraqi struggling to survive People, and indeed around our world likewise. As was the bush regime's unreported support of the overthrow of democratically elected Chavez in Venezuela, who incidentally, as one of the very few, holds a perfect human rights record, unlike America, who is the only nation, the World Court has convicted by factual documented evidence, to be a terrorist state. There is no record of Saddam murdering millions of Iraqis, while targeting innocent children, but there is to the illegitimate bush family, and nazi soldier tommy franks intentions, the most despicable savage to ever don an American uniform, who would now have us all believe, such a evil strategy of criminal wrong doing, is the only option, to better the lives of those who barely survive from American oppression in Iraq as it is. What form of governance would bush be suggesting? Would it be like bush squandering almost 7 trillion dollars in bad business decisions for our futures as he has set forth for America already? Or maybe something like the new criminal heroin pushers in Afghanistan as foreigners? Costing the American nation, who holds the title of highest rates of human depravation in the industialized world, and highest percentage of imprisoned per populace in all recorded history, 5 billion dollars every month to prop up sales in narcotics, and terrorist handbooks. Where political opponents who criticize the Karazi regime are murdered, for factually claiming the political aims of Karazi are not representing US people as the children? Or as evil bush, who would boldly lie to the face of God, that there were no girl schools in Afghanistan under the Taliban, while secretly thanking sadistic scum bag American traitor, mass murdering savage, wimp ass drug dealing coward tommy franks, for specifically targeting those very schools, women reporters, Mosques, red cross units, literate tribal leaders, men with beards, and children, while labelling all of Our humanity who would fight against injustice his enemy? Or that bush would dare still attempt to get away undamaged by the real men of this world, to spout his venom hatred for humanity to what must be drugged out to be so cowardly American soldiers, by lying to US as the demon of pure evilness

we all witnessed, that heroin cultivation wasn't factually outlawed by the Taliban officially following Allah, leaving no position as God's will to back track politically on later? American military analysts, including the CIA and former secretary of Defense, William Cohen, claim Iraq is no threat to it's neighbors, as so too, does no nation in the region support bush's warmongering. In Congressional hearings last week, former UN arms inspector Scott Ritter courageously stated what many Americans believe, but rarely if never mentioned by corporate news standards as the will of the people, "A handful of ideologues have hijacked the national security policy of the United States for their own ambitions." Ritter insisted Iraq was no threat to the U.S. or the Mideast, and later offered that cheney be forced by Americans on mass, to offer evidence to his bogus, make believe accusations, that he wishes to use to actually murder thousands, if not millions of US REAL PEOPLE. Our axis of evil, bush rumsfeld and cheney, do not want renewed inspections of Iraq, they only want war to murder ourselves, and to create instability in our world through fear to prevent their rightful capture for 9/11, while we all are expected to sit back as corporate standard fascist cowards, to pretend bush was actually elected as President in America, because actual poll counts were forbidden to be publicized, therefor, he may have won our approval to use nukes against anyone for whatever. With CNN, the Commie Nazi Network, telling us we as the civilized are also convicted to poll, that evidence is no longer a requirement to convince US who is criminally insane, in this nightmare of criminal bush family evilness, hell bent on destroying your world, and everything WE, as The People, have struggled so hard to protect. It would seem any world threat of terrorism, would be surely from a nation like bush's America. A cowardly nation that demands we as humanity, be deprived the guiding principles of Justice like they in weakness had abdicated as no longer their own as unfairly represented, leaving as slaves the bush regime to rob us all of our Freedoms, as a rule of Law instills such as in the Declaration of Independence, the Bill of Rights, and the American Constitution. All now trashed by Ashcroft, as clear criminal intent to obstruct Justice as the American dream for everyone.

E-mail this to somebody for Christ states,

yours truly,

Johnny Wizard

From below:

"Mr. bush you nazi vermin, you attack my America, you
attack US all. American soldiers will not sit back as
cowards entirely, and watch you sacrifice our lives as
worthless without meaning."

I think I love you too much

Wow, your amazing! So, what your saying is bush the
nazi tyrant, the unelected mass murdering fascist
dictator, has no interest following the ample criminal
leads, because they lead to him, rumsfeld, and cheney
likely too, right? And, when that evil monster told us
instead he would rely on secret evidence, but couldn't
tell us why, as too the FBI or CIA, it turned out to be
nothing but another wicked evil deception against the
great American people, Tony Blair, bin Laden, and law
enforcement officers everywhere, to even further give
him cause to close investigations into 9/11 as Reuters
told us, and rob directly from American soldier
families, their lives, pensions, life savings, and blind
faith, in bush, the false diety, super evil anti-Christ.

NOW you're talking my favorite game,,,low power dx,,,but heck, Jerry, I long ago grew bored doing the world on 100 watts,,,,it wasn't even a challenge any more......100 watts for across the pond contact is like dropping a cluster bomb on citizens
because we're looking for someone who may have done something in the future to endanger our,,,,,umm,,,,what would he have endangered again, that had to do with us? You get my drift,,,,overkill :)
Try it with 3, 4 or 5 watt maximum,,,,,then try AM,,,then try FM,,,all with single digit wattage capacity. When you make that contact across the deep blue sea, experiment and see just how low you can go with the wattage and try different modes, antennas, radios, etc.

Oh dude, it was great! I wanted my daughter
to go, but she had a birthday party to be at. I worked
the radio all the way up to Reno, met up with a girlfriend
of mine, with her boy friend, had some dinner at Claim
Jumpers, squashed all the locals. Got back to the house
at Tahoe around 2am. The next day got up in the morning,
snowing, no big deal, hanged out around Tahoe, had a
great dinner at Garwood's, then hit up CalNeva lodge and
did a little roulette and walked away with a cool grand in
an hour & half worth of time.
Dropped off the Bronco at a new body shop, having them
fix the screw up from the first shop, also undercoat it and
put on polished SS door hinges.

/ / with the country of Iraq itself sorely in need of every imaginable supply, its most valuable resource was being shipped out of the country as expeditiously as possible (while the occupiers were pleading their inability to restore even household electricity in Baghdad.) \ \

Again, the evil bushmob sacrificing worthless American Patriot Soldiers, to steal a few extra dollars for their criminal ilk to make more of US as innocent overpay. What is an American soldier's life worth, if their so leaderlessly weak and cowardly, they refuse to protect America by destroying bush and rumsfeld for committing 9/11 against our Family?

Cluster Bombs: War Crimes of the Bush Administration
http://www.commondreams.org/views04/0126-04.htm
"But whatever we think about Rumsfeld's humanitarian missiles, he cannot plead ignorance about the traits and effects of cluster bombs."

A proud bushite soldier, is a dead bushite soldier halted from harming our children. What real American wouldn't proudly arrest or destroy an evil bushite enemy, I ask all true family men of this World honestly?

--

"The People of Iraq are free"

The enemy bushite falsely faiths that somehow, in time, by forcing a continuing threat of our murders as the innocent striving for Freedom through representation, they as the enemies of You, America, Humanity, and God, will as they are doing, provide US a "free" government in this World that will permanently sell off all of our Nations assets below wholesale, to give into the convicted likes of a Halliburton, WorldCom, or five dollar a day, worker wages Bechtel. Now what kinda People's Democracy would that be then, where bush states is now truly "free" for his war crime ilk to rob from in Our stolen names dying? The demon bushmob 'cabal' has freed Iraqis from access to clean water, electricity, low cost fuel, food, medicine, being not bombed or shot at by getting organized, or non-radio-active-rec-centers.

/ / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American

casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my

part in those public proceedings.) Hmmm.. maybe CNN or
CBC can become publicly convinced we should have our own
news programs on what's truly happening?, to compete
against the 'evil bushites' in this competitive free
market place of ideas? Who knows..

Take care of the business, by getting US in on our
news-casts., as these principles here standing in words,

reality., by standing proud, strong, and forever free as

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an apology for his misdeeds to destroy our true American value with? I don't know how else to simply word this to the still sleeping, but bush isn't America, America is America. You, as an American, have a sworn right to demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws

of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush

demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,

Johnny Wizard

PRESIDENT BUSH: Yeah. Look -- what -- what we based our evidence on was a very sound National Intelligence Estimate. ...

DIANE SAWYER: Nothing should have been more precise?

It's the demon bushmob cabal's liberal usage of the
term "we", that every American has a right to demand
a true representation.

Example:

Beyond yellowcake: Dissecting the over-hyped threat
of those aluminum tubes.
http://www.motherjones.com/news/update/2003/07/we_489_01.html

/ / Condoleeza Rice, speaking to reporters aboard Air
Force One, defends the aluminum claim, saying it was
written into the National Intelligence Estimate:

"The NIE ...has the yellowcake story in it, had the
aluminum tube story in it. Now, if there were doubts
about the underlying intelligence to that NIE, those
doubts were not communicated to the president, to the
vice president, or to me. \ \

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American public claiming that he had not ``made up his mind'' about war with Iraq, that diplomacy would be pursued, that military force would only be a last resort when all other options were exhausted, etc., etc. O'Neill's exposures, including the existence of documents, prepared months before the September 11 terrorist attacks, that outlined plans for a ``post-Saddam'' Iraq and the handing out of lucrative contracts, reveal Bush's performance as a charade filled out with falsehoods. \ \

Isn't this fascinating... a post-Saddam plan to rob humanity by killing too cowardly American Patriot Soldiers for Halliburton and Worldcom.

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush administration's policy of locking up anyone called Mohamed and favoring Israel might drive the Arab countries to try an oil embargo again. It is, however, quite feasible that they may simply decide to follow in the footsteps of Saddam's Iraq and demand payment in Euros in the future. The math is simple: if they had done so a year ago, for every 85 cents (one Euro, at the time) they put in the bank, they would now have earned a $1.30. \ \

Your State-of-the-Union Address
http://www.dissidentvoice.org/Jan04/VIPS0117.htm

/ / It is important that you be completely clear on timing. While
the Newsweek report of February 24, 2003 was the first to
publicize Kamel's testimony that the weapons had been destroyed,
US and British intelligence (as well as UN officials) had had
that information since August 1995. If you were not given a full
account of what Kamel said before it appeared in Newsweek, your
advisers should certainly have given you the whole truth when
Newsweek did break the story three weeks before you sent US
troops into Iraq to destroy those same weapons. If they did not
tell you, heads should roll. If they did, it becomes necessary
to explain why the information from Kamel had no apparent effect
on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers

celebrating joyously in contempt for God while singing, right after the unreported dropping of thousands of pounds of bombs on everyone in Afghanistan, body parts everywhere, while knowing directly as individuals, every single, there was no evidence offered that anyone there was responsible for any crimes whatsoever, including the Afghanistan women who worked for the newspaper, but for to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. \ \

Any being would not want to be deprived the rights to living, by living to not deny the same rights of others. (First commandment is a fundamental of understanding space-time reality, as it pertains to the politics of an actual sustainable World, indivisible, and eternal.)

To have US exercise denial of rights granted through the protections of Freedom, asks naturally for reason to being ones own commitment kept. To leaderlessly faith in tyrant bush's faulty public judgement to committing US to indiscriminate murders so he can rob Iraq of all her riches going nowhere he silently contends as an illiterate demon liar, exposes Your Mr. bush Jr. as unfit to preside in Anyone's name. I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top

secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle

Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this

is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad

running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in

Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice, the bushites need advertise between commercial break only, "Laden did it", no need to follow the ample criminal 9/11 leads folks, because the crime they say wasn't committed by true American values. Go on along

bush, cheney, and rumsfeld say, pay no attention to our evidentiary findings such as, the American FBI's documented contention, that bush's business partner, General Ahmad, funded the 9/11 'mastermind' Atta, or the CIA's, regarding bush LYING in America's name about Niger (TREASON), or MSNBC's almost Biblical Revelation, about the bushmob having a signed and sealed, 'top secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the

rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not

so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

Through a legal lens - the attack and occupation of Iraq http://electroniciraq.net/news/printer1262.shtml

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to

This is why I plead with armed Americans to kill the unarrested bush for the love of children everywhere. Look, we know directly who the bushites are who PUBLICLY advocate the murder of innocent People through corporate censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumfuk treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under
every circumstance. Karma. Demon bush tells corporate
america that they'll persecute the innocent in any
country by denying our fundamental human rights of
Freedom and Justice, while now dropping 2000 pound bombs
in God's World containing children, while corporate nazi
bores, report in judgement of the great King who MAY
have cuddled some cute boy! Jackson has given so much
to America in stone, and in return, the corporate news
nazi bushites sit condemning a great man whose open
vulnerability gives him his wondrous strength and power
as true American artistry. While these very same
treasonous corporate bushite news anchors refuse to
report on tommy franks running death squads against

school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think,

buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

Jail for Bush: Holding the Greatest Traitor in American History
http://www.jail4bush.org/

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ï¿½timidï¿½
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications
at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS
continues to work closely with all the services." \ \

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to
isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration
wants to spare hardships to Iraqi civilians and to show
that the real target of the bombing campaign is Saddam. \ \

--

GET BUSH

So, to IRRATIONALLY target the telephone exchanges,
power grids, water dams, pipe lines, and residential
communities with thousands of toxic, radio-active
cluster bombs to blindly murder a person like You, (that
would later, blow up nazi bushite soldiers by landmine),
would be considered TRULY evil by demon bush standards
too?

Why does Johnny call the huge war criminal traitors puny
dumfuk bushite soldiers? They die truly as cowards for
the demon bush liar, being enemies of God and Humanity,
because prior to the war, (as outlined on March 7th), we
had completely unrestricted access to go wherever in
Iraq, without delay. So, demon bush sabotaged America's
ability to effectively disarm Iraq, and to bring
peaceably, freedom in the region through JUST causes,
all so he could STEAL further the lives of AMERICANS by
continuing with his murder rampages against the
innocent. We remember, Saddam offered the demon
antiChrist, Our Mr. bush Jr. unfettered access to the
Iraqi national media to preach his deceit against God
and Humanity freely, but bush refused to publicly
condemn Universal health care and education, along with
what has been described as Humanity's greatest food
distribution network. Instead, bush sacrifices bushite
soldiers to steal OUR Humanitarian Aid, to double pay
commi Halliburton, an american company found repeatedly
by Our ARMED Police agencies, defrauding all Americans
in criminal contempt for the People payers. All the

while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the

while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

began denigrating the very inspections they mandated
with 1441, and began denigrating the United Nations for
expecting them to live up to the bargain they authored. \ \

Brave Face Belies Administration's Panic Over Iraq
http://www.dissidentvoice.org/Articles9/Lobe_Iraq-Panic.htm

/ / The report, written by the CIA's station chief in
Baghdad, was formally presented to top officials Monday,
but word of its conclusions was also selectively leaked
to various reporters, apparently, said the newspaper, to
"make sure the assessment reaches Bush." \ \

Our Mr. bush Jr. - "...I appreciate the families who are
making the sacrifices along with our troops. ..The sacrifice
that our folks are making in Iraq will serve our interests..
..it's the same old stuff, it's propaganda... We just gotta
bring these killers to Justice, which we will. And a..
the military is adjusting.. "

Dying sacrificed as godless cowardly nazi vermin so far
more like... A good bushite soldier, is a dead one
stopped from victimizing our families for a thief of
Humanitarian Aid, the American cop killer, 911
perpetrating terrorist recruiter, Our Mr. bush Jr., the
evil antiChrist of Biblical revelations hated this
entire Universe over. Wow eh? Look, we'll talk about
me being make believe King whenever, just kill bush now
as the traitor he is to US People everywhere.

Bush to veterans: Drop Dead
http://www.commondreams.org/views03/1113-06.htm

/ / A firestorm of outrage has forced the administration
into a compromise phased in over ten years. But it will
still deny thousands of veterans their benefits as they
die off.

With the relentless militarization of the mainstream media,
Bush clearly believes he can ignore the soldiers he will
condemn to death, disease and abject poverty. \ \

Johnny Wizard Here To Tell It Like We Is

So, the bush regime knows that Saddam has no nukes, but
as any person could, maybe at sometime in the future
would target general populations, of which Saddam has
stated to be rationally stupid, immoral and evil. A
tactic that bush, as america, says without pause to
reflect, would do so in our stolen names is plausible
with him in power as a degenerate. The bush regime also
thinks Saddam does indeed have biological weapons, and
has so for decades but never used them, as the only

affordable balance to the militarization of the region. Namely, to counter the Israeli government's corrupt political position of American funded bigotry and lawless behavior, on claims God gave them a right as criminals apparently, to deprive Christians a right to live justly, to own property, or use public roads even, and that most of Iraq should too, be stolen by force like hitler did, as hitler did measure also, all Jews, by the same level of intolerance, ignorance and barbarity sharon does of US as Palestinians, you know, Catholics, Muslims, Jews and Atheists, absent love for ourselves as understanding, godly, and principally innocent until proven otherwise. Mr. sharon is not Jewish, nor is anyone else allowed to practice as such in the Likud party. But anyway, Saddam is no Saint, however, no evidence exists that Saddam has ever used bio warfare weapons on his own people, while Our Mr. bush Jr., is documented factually, as a murdering demon of evilness clearly paraded before ourselves by corporate command, as a supposed representation of OUR civilization's true will. As Our Mr. bush Jr. works diligently to destroy our lives through fraudulent means, counting on US not trying to save Ourselves by following the truth to set US free. A repuglican who without laughing, demanded law enforcement agencies not follow the ample criminal evidence to arrest the true perpetrators of 9/11, but instead, urged the closing of investigations, while top secretly, implicated bin Laden without evidence he couldn't divulge, of which the British government ended up doing so for the love of our selves, comprising of only, general maybe if's, of which only could, can, and does, jeopardize bush, cheney and rumsfeld by taking such a secret, now public position against our interests to kill us as the innocent with. Which is truly why bush rumsfeld and cheney are warmongering as despicable savages. 5 billion dollars in humanitarian aid is being blocked by the bush regime to enter Iraq, like food and medicine. The bush regime demands children be starved and not receive treatments for ailments, such as aspirin for headaches, or as cancer from the devastation the families of Iraq are still suffering through, since the last time a bush's american criminal military force dumped tons of radioactive waste in the region, while murdering indiscriminately ourselves as anyone, because principally, toxic American soldiers, like the American people, hold the title of the highest illiteracy levels of the developing world, which brings them as consequence, the worst health care providers to themselves as discounted, corporately mandated as

unworthy to understand their own behaviors, so they can be even further rooked as shysters. Over two million people have died directly because of American aggression against the practically defenseless in Iraq, who the bush regime even claims, have little of no power to change the political landscape, based in loose tribal ethics as protections, that has been as such, for approximately 4000 years. And as American traitor war criminal rumsfeld proclaimed, since american aggression has continued against Iraq over the last twelve years, so too, has their economy been devastated, and as consequence, the attraction to keep the more literate as wealth driven from remaining, has waned. But what can bush offer Iraq, indeed to our world my friends? Just murder US people for stolen cash profit, is clearly his only motivation, as a tyrant dictator far worse than Saddam has ever been. Mr. bush indicates he knows nothing of economics, or the important function of law to protect our societies, so what if he should kill Saddam, and maybe a million Iraqi people, then what? He hasn't thought that far, and clearly, due to his evilness we witness daily, couldn't care less. CNN and other corporate professionals refuse to tell the blood sucking, carcinogenic, corporate American real fast news blips, of causes they as a nation in total celebrated televised ignorance, have committed against the Iraqi struggling to survive People, and indeed around our world likewise. As was the bush regime's unreported support of the overthrow of democratically elected Chavez in Venezuela, who incidentally, as one of the very few, holds a perfect human rights record, unlike America, who is the only nation, the World Court has convicted by factual documented evidence, to be a terrorist state. There is no record of Saddam murdering millions of Iraqis, while targeting innocent children, but there is to the illegitimate bush family, and nazi soldier tommy franks intentions, the most despicable savage to ever don an American uniform, who would now have us all believe, such a evil strategy of criminal wrong doing, is the only option, to better the lives of those who barely survive from American oppression in Iraq as it is. What form of governance would bush be suggesting? Would it be like bush squandering almost 7 trillion dollars in bad business decisions for our futures as he has set forth for America already? Or maybe something like the new criminal heroin pushers in Afghanistan as foreigners? Costing the American nation, who holds the title of highest rates of human depravation in the industialized world, and highest percentage of imprisoned per populace in all recorded

history, 5 billion dollars every month to prop up sales in narcotics, and terrorist handbooks. Where political opponents who criticize the Karazi regime are murdered, for factually claiming the political aims of Karazi are not representing US people as the children? Or as evil bush, who would boldly lie to the face of God, that there were no girl schools in Afghanistan under the Taliban, while secretly thanking sadistic scum bag American traitor, mass murdering savage, wimp ass drug dealing coward tommy franks, for specifically targeting those very schools, women reporters, Mosques, red cross units, literate tribal leaders, men with beards, and children, while labelling all of Our humanity who would fight against injustice his enemy? Or that bush would dare still attempt to get away undamaged by the real men of this world, to spout his venom hatred for humanity to what must be drugged out to be so cowardly American soldiers, by lying to US as the demon of pure evilness we all witnessed, that heroin cultivation wasn't factually outlawed by the Taliban officially following Allah, leaving no position as God's will to back track politically on later? American military analysts, including the CIA and former secretary of Defense, William Cohen, claim Iraq is no threat to it's neighbors, as so too, does no nation in the region support bush's warmongering. In Congressional hearings last week, former UN arms inspector Scott Ritter courageously stated what many Americans believe, but rarely if never mentioned by corporate news standards as the will of the people, "A handful of ideologues have hijacked the national security policy of the United States for their own ambitions." Ritter insisted Iraq was no threat to the U.S. or the Mideast, and later offered that cheney be forced by Americans on mass, to offer evidence to his bogus, make believe accusations, that he wishes to use to actually murder thousands, if not millions of US REAL PEOPLE. Our axis of evil, bush rumsfeld and cheney, do not want renewed inspections of Iraq, they only want war to murder ourselves, and to create instability in our world through fear to prevent their rightful capture for 9/11, while we all are expected to sit back as corporate standard fascist cowards, to pretend bush was actually elected as President in America, because actual poll counts were forbidden to be publicized, therefor, he may have won our approval to use nukes against anyone for whatever. With CNN, the Commie Nazi Network, telling us we as the civilized are also convicted to poll, that evidence is no longer a requirement to convince US who is criminally insane, in this nightmare of criminal bush family

evilness, hell bent on destroying your world, and everything WE, as The People, have struggled so hard to protect. It would seem any world threat of terrorism, would be surely from a nation like bush's America. A cowardly nation that demands we as humanity, be deprived the guiding principles of Justice like they in weakness had abdicated as no longer their own as unfairly represented, leaving as slaves the bush regime to rob us all of our Freedoms, as a rule of Law instills such as in the Declaration of Independence, the Bill of Rights, and the American Constitution. All now trashed by Ashcroft, as clear criminal intent to obstruct Justice as the American dream for everyone.

E-mail this to somebody for Christ states,

yours truly,

Johnny Wizard

From below:

"Mr. bush you nazi vermin, you attack my America, you attack US all. American soldiers will not sit back as cowards entirely, and watch you sacrifice our lives as worthless without meaning."

I think I love you too much

Wow, your amazing! So, what your saying is bush the nazi tyrant, the unelected mass murdering fascist dictator, has no interest following the ample criminal leads, because they lead to him, rumsfeld, and cheney likely too, right? And, when that evil monster told us instead he would rely on secret evidence, but couldn't tell us why, as too the FBI or CIA, it turned out to be nothing but another wicked evil deception against the great American people, Tony Blair, bin Laden, and law enforcement officers everywhere, to even further give him cause to close investigations into 9/11 as Reuters told us, and rob directly from American soldier families, their lives, pensions, life savings, and blind faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

well i could care less about the situation but you have to understand
my comment since you have a history of having a hard time it seems
telling the difference between a real woman and a fake woman....but
surely you know there is no such animal as a woman friend......too
many motives.....you are either doin it or you aren't.......other than
that, what good are they???

Working the pond with three watts on a skip band isn't much of a challenge at all, Dave. Last week I managed to squeeze 74 mW ERP out of my experimental antenna on 162.5 kHz (and in case I didn't 'learn' you well enough the first time, that's KILO-Hertz, not MEGA-Hertz) and someone picked up my beacon in SLC. Now THAT'S a challenge!

Good point.

I think that was intended to mean, "....an antenna with a high Q coil is more efficient than an antenna with a low Q coil,....", which isn't exactly true. There are many helical antennas in use. As inductors they have very low Q, yet they are more efficient radiators than some antennas with high Q loading coils, and far more efficient radiators than the coils themselves. Don't forget that resistive loss is -only one- of the factors that determine radiation resistance. Again I point out that those huge loading coils have significant eddy current and reflective losses due to the fact that they are so large and are mounted with the axis perpendicular to the roof of the vehicle. And if that roof is ferrous (as most of them are), that's just like adding a solid iron core to an HF air-core coil -- bad news. Although increasing the conductor diameter (and therefore the overall size of the coil) is a basic technique to achieve a higher Q, it is nonetheless 'basic' and fails to account for all other relevant factors in the intended application, even factors that can negate any improvement that would be expected from the bigger coil.

Besides that, they are ugly. But if someone want's to drive a vehicle that looks like it collided with George Jetson's space buggy then that's their problem, not mine.

FREE!!

For advanced techs and serious radio hobbyists, we're now offering a FREE copy of our previously published "CB EPROM DATA BOOK" by Martin Pickering. (EPROM = Erasable Programmable Read Only Memory.) We sold it for many years but it's now out of print. This little manual of 60 illustrated pages is an absolute GEM of CB technical knowledge you'll just never find anywhere else. And it's yours for FREE from our Web site.

This book reveals the secrets of advanced channel programming, and picks up where our "CB PLL DATA BOOK" (www.cbcintl.com/pllbook.htm) leaves off. You'll get a thorough background in how these amazing programmable chips can be used to modify many popular CB PLL circuits for expanded frequency coverage. Covers the basic programming techniques, and even includes real PC board artwork for making EPROM circuits. Sample artwork includes EPROM boards for the popular MB8719, PLL02A, ï¿½PD2824, and ï¿½PD858 PLL circuits.

Best of all, the price is right! Download your FREE copy of "THE CB EPROM DATA BOOK" (948 KB Adobe PDF) at:

We've now added all our crystal charts for free download/printing
(PDF) on our site. These 36 charts cover about 95% of all American
mobile & base CB models, and show exactly which crystal(s) affects
which mode or channel. Very useful for troubleshooting "dead
channels" symptom, or for modification to 10M or other freqs.

A little of both. More for just plain
old protection than sound.
Pictures will be available on the web after

Meanest Dog in the World

Bush and Osama decided to settle the war once and for all. They sat down and decided to settle the whole dispute with one dog fight. They would have 5 years to breed the best fighting dog in the world and whichever side's dog won would be entitled to dominate the world.

Osama found the biggest, meanest Doberman and Rottweiler female dogs in the world and bred them with the meanest Siberian wolves. They selected only the biggest and strongest puppy from the litter, and removed his siblings, which gave him all the milk. After 5 years, they came up with the biggest, meanest dog the world had ever seen. Its cage needed steel bars that were 5" thick and nobody could get near it.

When the day came for the dog fight, Bush showed up with a strange looking animal. It was a 9 foot long Dachshund. Everyone felt sorry for Bush because there was no way that this dog could possibly last 10 seconds with the Afghanistan dog.

When the cages were opened up, the Dachshund came out of it's cage, and slowly waddled over towards Osama's dog. Osama's dog snarled and leaped out of its cage and charged the American Dachshund---but when it got close enough to bite, the Dachshund opened its mouth and consumed Osama's dog in one bite. There was nothing left of his dog at all.

Osama came up to Bush, shaking his head in disbelief, "We don't understand how this could have happened. We had our best people working for 5 years with the meanest Doberman and Rottweiler female dogs in the world and the biggest, meanest Siberian wolves."

"That's nothing,", said Bush. "We had Michael Jackson's plastic surgeons working for 5 years to make that alligator look like a weiner dog."

GOD BLESS AMERICA!

I was testing the children in my Sunday school class to see if they understood the concept of getting to heaven.

I asked them, "If I sold my house and my car, had a big garage sale and gave all my money to the church, would that get me into Heaven?"

"NO!" the children answered.

"If I cleaned the church every day, mowed the yard, and kept everything neat and tidy, would that get me into Heaven?"

Again, the answer was, "NO!"

By now I was starting to smile. Hey, this was fun!

"Well, then, if I was kind to animals and gave candy to all the children, and loved my husband, would that get me into Heaven?" I asked them again.

Again, they all answered, "NO!"

I was just bursting with pride for them.

Well, I continued, "then how can I get into Heaven?"

A five-year-old boy shouted out,

"YOU GOTTA BE DEAD."

Ma and Pa were two hillbillies living out on a farm. Pa has found out that the hole under the outhouse is full. He goes into the house and tells Ma that he doesn't know what to do to empty the hole.

Ma says, "Why don't you go ask the young'n down the road? He must be smart 'cause he's a college gradjyate."

So Pa drives down to the neighbor's house and asks him, "Mr. College gradjyate, my outhouse hole is full, and I don't know what to do to empty it."

The young'n tells him, "Get yourself two sticks of dynamite, one with a short fuse and one with a long fuse. Put them both under the outhouse and light them both at the same time. The first one will go off and shoot the outhouse in the air. While it's in the air the second one will then go off and spread the poop all across your farm, fertilizing your ground. The outhouse should then come back down to the same spot atop the now-empty hole.."

Pa thanks the neighbor, then drives to the hardware store and picks up two sticks of dynamite, one with a short fuse and one with a long fuse.

He goes home and puts them under the outhouse. He then lights them and runs behind a tree.

All of a sudden, Ma comes running out of the house and into the outhouse!

Off goes the first stick of dynamite ... shooting the outhouse into the air.

BOOM! Off goes the second stick of dynamite .... spreading poop all over the farm.

WHAM! The outhouse comes crashing back down atop the hole.....

Pa races to the outhouse, throws open the door and asks, "Ma, are you all right??!!"

As she pulls up her panties she says...
"Yeah, but I'm sure glad I didn't fart in the kitchen.

The CAT scan came back fine, no tumor, and they determined that yes I
DO have a brain hehe. The EEG got postponed due to the weather. I
still feel like crap, went to work last night, and came home early,
didn't make it tonight, head hurts so bad can hardly focus my eyes, I

I have a few SBE 40 ch sideband radios here, also several old Johnson

(Knock at the door) Aaron opens door wearing his skimpiest thong
underwear
Aaron: Hi Sparky! How are you!
Sparky: I'm good Aaron. Is dinner ready?
Aaron: Almost. In the meantime, you can snack on me, but we need to
hurry
before George gets here.
Sparky:(screaming) Aaron! Will you shut up with the advances! I already
told you I've started to like women now! Now leave me alone!
Aaron: OK, OK! I just thought we could be like the old days again.
Sparky: No, I'm really going to stick it out this time.
Aaron: (sniffling) Ok Sparky, have it your way. I'll respect your
wishes.
Sparky: Where's George? Do we have to wait for him to eat?
Aaron: Yes, he's bringing the salad.
Sparky: OK. Got any snacks?
Aaron: I think so, let me check.
(knock at the door)Aaron answers the door.
Aaron:(exclaiming) George! My God! What happened to you?
George:(crying) I was just out minding my own business, following this
little girl, and all the sudden, wham! Her Dad must have seen me and
punched me. I had just asked if she wanted some candy too. I think I
could have had her. Then the Dad pulled out of the window of my Pacer,
and beat me some more. I think he dislocated my shoulder too.
Sparky: Can we eat now?
Aaron: Sparky, can't you see George is hurt? Go get one of the steaks
for
George's black eyes. And while you're in the kitchen Sparky, get some
ice for his broken nose and busted lip too.
Sparky: OK, but I ain't eating the steak that you use on George's eyes!
Aaron: OK, whatever!
(Sparky spends fully 5 minutes trying to figure out which steak is the
smallest, so he can have the biggest?then finally he returns)
Aaron: God Sparky! Why did you take a bite out of it? It's raw, for
Christ's
sake!
Sparky:(unintelligible mumbling caused by mouthful of raw steak)
Aaron:(grabs steak from Sparky and applies it to George's eyes) There

now George. Is that better? Aaron knows how to make you feel better, doesn't he?
George: Yes Aaron, it's much better now. Thanks, you know I bruise easily.
Aaron: Hey Sparky, light the grill.
Sparky: Hey, those steaks ain't half bad raw! Do we really need to cook them?
Aaron: My God Sparky! Sometimes you act like a Neanderthal! Light the damn
grill!
(Sparky goes out back, turns on the gas, clicks the igniter repeatedly, nothing happens. Goes back inside for matches and returns)
Aaron:(just as Sparky lights the match) NO! STOP!
(loud explosion)
Sparky: (screaming) I'm on fire! Somebody help me!
(Sparky runs back through the house with his beard on fire, screaming for help. Aaron and George race behind him with teacups filled with water)
Finally, Aaron and George manage to catch Sparky and beat out the fire in Sparky's beard with the teacups.
Sparky: Thanks guys! That was close! I saw my life flash before my eyes.
Aaron: No prob Sparky. You know we love you.
George: Speak for yourself, Aaron! Faggot!
Sparky: Can we eat now?
George: Well, we could if you hadn't blown up the grill!
Aaron: It's OK Sparky. We'll just grill the steaks on the stove.
Sparky: I don't wanna wait! I'm getting dizzy. My cholesterol must have dropped
below 300.
George: Here, drink this.
Sparky: What is it?
George: Bacon drippings. It will bring the cholesterol level back up in your
blood.
Sparky:(drinks greedily) Burp! Thanks George.
George: No problem. Hey Aaron, you still have that "Little Girls Gone Wild"
video?
Aaron: I think so?check over there in the gay porn by the VCR.
George: Faggot! (looks for the tape)
Sparky: I'm hungry! Let's eat.
Aaron: Just hang on a minute. Let me get these damn steaks cooked. (throws the
steaks in the pan)
George: (tearing his eyes off the video) Sparky, get the salad and dressing
ready, will ya? I'm busy now.
Sparky: OK, George. (Sparky sets the table)
Aaron: How do you guys like your steaks?
Sparky: Raw is fine with me.

George: (rubbing his crotch while watching the little girl video) I
don't care.
Yeah, raw is fine with me too.
Aaron: (mumbles) Damn weirdo's?
Aaron: (grease splatters on Aaron's hairless chest) Ouch!
George: Aaron, do you mind if I take this video home with me?
Aaron: Sure, take it. You know I don't like females.
George: (under his breath) Faggot!
Sparky: Can we eat now?
Aaron: Yep! Steaks are done. (Aaron places them on the table)
Sparky: I'm first George! That's my steak!
George: Whatever Sparky! Hell, I'm just gonna leave now. (grabs the
video and
heads for the door)
Aaron: Where you going, George?
George: Um?uh?I'm not really hungry now. I think I'll just watch this
tape
at home.
Sparky: Good! Gimme his steak.
Aaron: OK George, see ya later.
George: Bye
Scene: Much later in the evening after George has gone home to watch his
kiddie
porn, we return to find Aaron and Sparky enmeshed in each other's arms.
Aaron: Sparky, I knew you would come around.
Sparky: Well Aaron, I kind of feel guilty?almost as if I'm slipping back
into
my old self. I've really tried to kick this man habit, but I can't seem
to stop having feelings for you.
Aaron: Well Sparky, I always knew we were meant for each other.
Sparky: I only ask one thing of you, Aaron.
Aaron: What might that be, Sparky?
Sparky: All I ask is that you don't breath a word of this encounter to
George.
Aaron: Fair enough. I know he's a bit of a bigot.
Sparky: Yes he is, but he's still my only real friend. You know, I can't
count
the times that he's tried to save me when I've gotten in over my head on
the newsgroup.
Aaron: I know Sparky, and he's done the same for me. I really love him,
but I
can't let him know that.
Sparky: So, we're sworn to secrecy, right Aaron?
Aaron: Absolutely! Remember, we did take the AKC pledge.
Sparky:(chuckles quietly)
Sparky: (tentatively) OK Aaron, I'm all yours.
Scene: Fade to black?
I'm an idiot

I am not George and I have proved that to you but go on calling me
that if you want, you must be drunk on the fumes from Landsharks ass
to be humping my leg this early.

When he uses Google it does, when he uses http://www.news.voila.fr it
doesn't. Or if he used AOL's news server to post it wouldn't show it
either.

/ / with the country of Iraq itself sorely in need of every imaginable supply, its most valuable resource was being shipped out of the country as expeditiously as possible (while the occupiers were pleading their inability to restore even household electricity in Baghdad.) \ \

Again, the evil bushmob sacrificing worthless American Patriot Soldiers, to steal a few extra dollars for their criminal ilk to make more of US as innocent overpay. What is an American soldier's life worth, if their so leaderlessly weak and cowardly, they refuse to protect America by destroying bush and rumsfeld for committing 9/11 against our Family?

Cluster Bombs: War Crimes of the Bush Administration

"But whatever we think about Rumsfeld's humanitarian missiles, he cannot plead ignorance about the traits and effects of cluster bombs."

A proud bushite soldier, is a dead bushite soldier halted from harming our children. What real American wouldn't proudly arrest or destroy an evil bushite enemy, I ask all true family men of this World honestly?

--

"The People of Iraq are free"

The enemy bushite falsely faiths that somehow, in time, by forcing a continuing threat of our murders as the innocent striving for Freedom through representation, they as the enemies of You, America, Humanity, and God, will as they are doing, provide US a "free" government in this World that will permanently sell off all of our Nations assets below wholesale, to give into the convicted likes of a Halliburton, WorldCom, or five dollar a day, worker wages Bechtel. Now what kinda People's Democracy would that be then, where bush states is now truly "free" for his war crime ilk to rob from in Our stolen names dying? The demon bushmob 'cabal' has freed Iraqis from access to clean water, electricity, low cost fuel, food, medicine, being not bombed or shot at by getting organized, or non-radio-active-rec-centers.

/ / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American

casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my

part in those public proceedings.) Hmmm.. maybe CNN or
CBC can become publicly convinced we should have our own
news programs on what's truly happening?, to compete
against the 'evil bushites' in this competitive free
market place of ideas? Who knows..

Take care of the business, by getting US in on our

[then subverted to steal American lives with by lying]

Demon Bush replied, "No, the intelligence I operated on
[then subverted to steal American lives with by lying]
was good, sound intelligence."

Where is bush leading America on not ever taking an apology for his misdeeds to destroy our true American value with? I don't know how else to simply word this to the still sleeping, but bush isn't America, America is America. You, as an American, have a sworn right to demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws

of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush

demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,

Johnny Wizard

The Last Word

/ / It was just reported by Chris Marden on the 27 November 2002, that bush's top whore richard pearl, has advised Britsh MPs, that bush secretly as the anti-Christ has no intention of allowing the Iraqi inspection process to succeed, and instead, is committed to murder ourselves either way. \ \

The Real National Security Threat: The Bush Economy
http://www.alternet.org/story.html?StoryID=17547

/ / While it is unlikely, it is not totally impossible that the Bush administration's policy of locking up anyone called Mohamed and favoring Israel might drive the Arab countries to try an oil embargo again. It is, however, quite feasible that they may simply decide to follow in the footsteps of Saddam's Iraq and demand payment in Euros in the future. The math is simple: if they had done so a year ago, for every 85 cents (one Euro, at the time) they put in the bank, they would now have earned a $1.30. \ \

Your State-of-the-Union Address
http://www.dissidentvoice.org/Jan04/VIPS0117.htm

/ / It is important that you be completely clear on timing. While
the Newsweek report of February 24, 2003 was the first to
publicize Kamel's testimony that the weapons had been destroyed,
US and British intelligence (as well as UN officials) had had
that information since August 1995. If you were not given a full
account of what Kamel said before it appeared in Newsweek, your
advisers should certainly have given you the whole truth when
Newsweek did break the story three weeks before you sent US
troops into Iraq to destroy those same weapons. If they did not
tell you, heads should roll. If they did, it becomes necessary
to explain why the information from Kamel had no apparent effect
on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers

celebrating joyously in contempt for God while singing, right after the unreported dropping of thousands of pounds of bombs on everyone in Afghanistan, body parts everywhere, while knowing directly as individuals, every single, there was no evidence offered that anyone there was responsible for any crimes whatsoever, including the Afghanistan women who worked for the newspaper, but for to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. \ \

Any being would not want to be deprived the rights to living, by living to not deny the same rights of others. (First commandment is a fundamental of understanding space-time reality, as it pertains to the politics of an actual sustainable World, indivisible, and eternal.)

I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top

secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned, while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle

Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC waste, that includes plutonium in trust, to 'bushite' your dumfuk evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this

is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumfuk losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad

running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in

Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God, or the Lord, Allah, or just Johnny, instead of victimizing Catholics, Muslims, Jews, or Atheists, along with all the rest as a Palestinian truly measured, encompasess everyone.

Again, by denying the rest of US as Humanity Justice, the bushites need advertise between commercial break only, "Laden did it", no need to follow the ample criminal 9/11 leads folks, because the crime they say wasn't committed by true American values. Go on along

bush, cheney, and rumsfeld say, pay no attention to our evidentiary findings such as, the American FBI's documented contention, that bush's business partner, General Ahmad, funded the 9/11 'mastermind' Atta, or the CIA's, regarding bush LYING in America's name about Niger (TREASON), or MSNBC's almost Biblical Revelation, about the bushmob having a signed and sealed, 'top secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumfuk loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the

rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not

so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

George S. Patton Jnr. "It's no fun to say to a man you love, go out, go out and get killed, and we have had to

say it, and by God they have gone..."

/ / That's right. American troops are now being used to destroy
private property of "suspected Iraqi guerrilla fighters." What

that does not apply to people we attack so that we can bring them our

/ / We must act, even if the threat is nonexistent - because of the
potential danger. If "self-defense" consists of necessary
"preemption," then what would happen if we started acting on this
Bushian principle domestically? After all, killers, robbers, and
rapists don't announce their intentions, politely putting us on notice
before they strike. Why not just jail them before they have a chance
to commit a crime? This principle, if applied within the U.S., would
lead straight to totalitarian rule. Applied abroad, it means perpetual
war. \ \

This is why I plead with armed Americans to kill the unarrested bush for the love of children everywhere. Look, we know directly who the bushites are who PUBLICLY advocate the murder of innocent People through corporate censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumfuk bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are
indiscriminately bombing residential communities with
radio-active toxic waste for nothing but to please their
evil false deity, Our Mr bush Jr.. No rational reason
but for a hatred to Your Humanity, and God if you
believe.

Example: that evil nazi terrorist buford blount
confesses to murdering thousands of innocent Iraqi
People for nothing, no reason he proudly professes as
wicked evil heinous traitor. Think of the lives You
could save Patriot, by justly killing the unarrested
buford blount, on hopes a person to take his place could
at the very least consider being honorable in defending
Your America? Demon buford blount is truly the enemy to
American soldiers, for, if your family was murdered by
buford blount irrationally commanding mindless bushite
soldiers for nothing but to further rob the dying
American tax payers, would you not too, spend your will
hunting the evil nazi fuck down personally to spare
further another innocent family suffering? To kill the
unarrested unAmerican buforld blount is to stop him from
ordering the practically dead already, nazi dumfuk
treasonous bushite brethren teens, from victimizing
again US as the innocent undefended.

While CNN still insists it's better for them to
misinform and ignore, than to expose the demon bush as
the true target for any Patriot's rage. American
soldiers are being sacrificed to die for no known good
reason, but for bad leadership as evil bushite war
profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and
they kill by the thousands. And they would, if they
gained the weapons they seek, kill by the millions and
not be finished. The greatest threat of our age, is
nuclear, chemical, or biological weapons in the hands of
the terrorists, and the dictators that aid them. The
evil is in plain sight, the danger only increases with
denial."

Remember: Demon bush doesn't forget signing his soul to
the invade Afghanistan plan by not following the 911
evidence, but would top secretly attribute to Laden for
blame, authored by himself, rumsfeld, Condoleeza, and
General Ahmad two days prior to the public event of
murdering "thousands" in wealthy corporate America, a
secret plan that has been confessed publicly to US as
fully implemented by the White House right from the
start to Jim at MSNBC, months after the fact when the
demon antiChrist was caught with American blood in his
breath.

Not to follow the criminal leads surrounding evil bush
as mass murdering antiChrist, is what the White House
confesses to Americans today as official policy under
every circumstance. Karma. Demon bush tells corporate
america that they'll persecute the innocent in any
country by denying our fundamental human rights of
Freedom and Justice, while now dropping 2000 pound bombs
in God's World containing children, while corporate nazi
bores, report in judgement of the great King who MAY
have cuddled some cute boy! Jackson has given so much
to America in stone, and in return, the corporate news
nazi bushites sit condemning a great man whose open
vulnerability gives him his wondrous strength and power
as true American artistry. While these very same
treasonous corporate bushite news anchors refuse to
report on tommy franks running death squads against

school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think,

buford blount figures I as a real man will not seek him
out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help
yourself? The true danger to America increases with
American doubts on bush's blatant, true naked evilness,
or humoring God as Johnny, and betting on yourself for a
change by supporting me as the time being? Look, what
could you do for your freedom, when I demand the pursuit
of Justice by following evidence to truly protect this
World we share? Support my demand to raise the news
media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

GET BUSH

Officers fault air strategy as ï¿½timidï¿½
http://www.freerepublic.com/focus/f-news/842417/posts

/ / Jim Wilkinson, director of strategic communications
at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS
continues to work closely with all the services." \ \

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to
isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration
wants to spare hardships to Iraqi civilians and to show
that the real target of the bombing campaign is Saddam. \ \

--

GET BUSH

So, to IRRATIONALLY target the telephone exchanges,
power grids, water dams, pipe lines, and residential
communities with thousands of toxic, radio-active
cluster bombs to blindly murder a person like You, (that
would later, blow up nazi bushite soldiers by landmine),
would be considered TRULY evil by demon bush standards
too?

Why does Johnny call the huge war criminal traitors puny
dumfuk bushite soldiers? They die truly as cowards for
the demon bush liar, being enemies of God and Humanity,
because prior to the war, (as outlined on March 7th), we
had completely unrestricted access to go wherever in
Iraq, without delay. So, demon bush sabotaged America's
ability to effectively disarm Iraq, and to bring
peaceably, freedom in the region through JUST causes,
all so he could STEAL further the lives of AMERICANS by
continuing with his murder rampages against the
innocent. We remember, Saddam offered the demon
antiChrist, Our Mr. bush Jr. unfettered access to the
Iraqi national media to preach his deceit against God
and Humanity freely, but bush refused to publicly
condemn Universal health care and education, along with
what has been described as Humanity's greatest food
distribution network. Instead, bush sacrifices bushite
soldiers to steal OUR Humanitarian Aid, to double pay
commi Halliburton, an american company found repeatedly
by Our ARMED Police agencies, defrauding all Americans
in criminal contempt for the People payers. All the

while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating "Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the

while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

Johnny Wizard Here To Tell It Like We Is

So, the bush regime knows that Saddam has no nukes, but
as any person could, maybe at sometime in the future
would target general populations, of which Saddam has
stated to be rationally stupid, immoral and evil. A
tactic that bush, as america, says without pause to
reflect, would do so in our stolen names is plausible
with him in power as a degenerate. The bush regime also
thinks Saddam does indeed have biological weapons, and
has so for decades but never used them, as the only

affordable balance to the militarization of the region. Namely, to counter the Israeli government's corrupt political position of American funded bigotry and lawless behavior, on claims God gave them a right as criminals apparently, to deprive Christians a right to live justly, to own property, or use public roads even, and that most of Iraq should too, be stolen by force like hitler did, as hitler did measure also, all Jews, by the same level of intolerance, ignorance and barbarity sharon does of US as Palestinians, you know, Catholics, Muslims, Jews and Atheists, absent love for ourselves as understanding, godly, and principally innocent until proven otherwise. Mr. sharon is not Jewish, nor is anyone else allowed to practice as such in the Likud party. But anyway, Saddam is no Saint, however, no evidence exists that Saddam has ever used bio warfare weapons on his own people, while Our Mr. bush Jr., is documented factually, as a murdering demon of evilness clearly paraded before ourselves by corporate command, as a supposed representation of OUR civilization's true will. As Our Mr. bush Jr. works diligently to destroy our lives through fraudulent means, counting on US not trying to save Ourselves by following the truth to set US free. A repuglican who without laughing, demanded law enforcement agencies not follow the ample criminal evidence to arrest the true perpetrators of 9/11, but instead, urged the closing of investigations, while top secretly, implicated bin Laden without evidence he couldn't divulge, of which the British government ended up doing so for the love of our selves, comprising of only, general maybe if's, of which only could, can, and does, jeopardize bush, cheney and rumsfeld by taking such a secret, now public position against our interests to kill us as the innocent with. Which is truly why bush rumsfeld and cheney are warmongering as despicable savages. 5 billion dollars in humanitarian aid is being blocked by the bush regime to enter Iraq, like food and medicine. The bush regime demands children be starved and not receive treatments for ailments, such as aspirin for headaches, or as cancer from the devastation the families of Iraq are still suffering through, since the last time a bush's american criminal military force dumped tons of radioactive waste in the region, while murdering indiscriminately ourselves as anyone, because principally, toxic American soldiers, like the American people, hold the title of the highest illiteracy levels of the developing world, which brings them as consequence, the worst health care providers to themselves as discounted, corporately mandated as

unworthy to understand their own behaviors, so they can be even further rooked as shysters. Over two million people have died directly because of American aggression against the practically defenseless in Iraq, who the bush regime even claims, have little of no power to change the political landscape, based in loose tribal ethics as protections, that has been as such, for approximately 4000 years. And as American traitor war criminal rumsfeld proclaimed, since american aggression has continued against Iraq over the last twelve years, so too, has their economy been devastated, and as consequence, the attraction to keep the more literate as wealth driven from remaining, has waned. But what can bush offer Iraq, indeed to our world my friends? Just murder US people for stolen cash profit, is clearly his only motivation, as a tyrant dictator far worse than Saddam has ever been. Mr. bush indicates he knows nothing of economics, or the important function of law to protect our societies, so what if he should kill Saddam, and maybe a million Iraqi people, then what? He hasn't thought that far, and clearly, due to his evilness we witness daily, couldn't care less. CNN and other corporate professionals refuse to tell the blood sucking, carcinogenic, corporate American real fast news blips, of causes they as a nation in total celebrated televised ignorance, have committed against the Iraqi struggling to survive People, and indeed around our world likewise. As was the bush regime's unreported support of the overthrow of democratically elected Chavez in Venezuela, who incidentally, as one of the very few, holds a perfect human rights record, unlike America, who is the only nation, the World Court has convicted by factual documented evidence, to be a terrorist state. There is no record of Saddam murdering millions of Iraqis, while targeting innocent children, but there is to the illegitimate bush family, and nazi soldier tommy franks intentions, the most despicable savage to ever don an American uniform, who would now have us all believe, such a evil strategy of criminal wrong doing, is the only option, to better the lives of those who barely survive from American oppression in Iraq as it is. What form of governance would bush be suggesting? Would it be like bush squandering almost 7 trillion dollars in bad business decisions for our futures as he has set forth for America already? Or maybe something like the new criminal heroin pushers in Afghanistan as foreigners? Costing the American nation, who holds the title of highest rates of human depravation in the industialized world, and highest percentage of imprisoned per populace in all recorded

history, 5 billion dollars every month to prop up sales in narcotics, and terrorist handbooks. Where political opponents who criticize the Karazi regime are murdered, for factually claiming the political aims of Karazi are not representing US people as the children? Or as evil bush, who would boldly lie to the face of God, that there were no girl schools in Afghanistan under the Taliban, while secretly thanking sadistic scum bag American traitor, mass murdering savage, wimp ass drug dealing coward tommy franks, for specifically targeting those very schools, women reporters, Mosques, red cross units, literate tribal leaders, men with beards, and children, while labelling all of Our humanity who would fight against injustice his enemy? Or that bush would dare still attempt to get away undamaged by the real men of this world, to spout his venom hatred for humanity to what must be drugged out to be so cowardly American soldiers, by lying to US as the demon of pure evilness we all witnessed, that heroin cultivation wasn't factually outlawed by the Taliban officially following Allah, leaving no position as God's will to back track politically on later? American military analysts, including the CIA and former secretary of Defense, William Cohen, claim Iraq is no threat to it's neighbors, as so too, does no nation in the region support bush's warmongering. In Congressional hearings last week, former UN arms inspector Scott Ritter courageously stated what many Americans believe, but rarely if never mentioned by corporate news standards as the will of the people, "A handful of ideologues have hijacked the national security policy of the United States for their own ambitions." Ritter insisted Iraq was no threat to the U.S. or the Mideast, and later offered that cheney be forced by Americans on mass, to offer evidence to his bogus, make believe accusations, that he wishes to use to actually murder thousands, if not millions of US REAL PEOPLE. Our axis of evil, bush rumsfeld and cheney, do not want renewed inspections of Iraq, they only want war to murder ourselves, and to create instability in our world through fear to prevent their rightful capture for 9/11, while we all are expected to sit back as corporate standard fascist cowards, to pretend bush was actually elected as President in America, because actual poll counts were forbidden to be publicized, therefor, he may have won our approval to use nukes against anyone for whatever. With CNN, the Commie Nazi Network, telling us we as the civilized are also convicted to poll, that evidence is no longer a requirement to convince US who is criminally insane, in this nightmare of criminal bush family

evilness, hell bent on destroying your world, and everything WE, as The People, have struggled so hard to protect. It would seem any world threat of terrorism, would be surely from a nation like bush's America. A cowardly nation that demands we as humanity, be deprived the guiding principles of Justice like they in weakness had abdicated as no longer their own as unfairly represented, leaving as slaves the bush regime to rob us all of our Freedoms, as a rule of Law instills such as in the Declaration of Independence, the Bill of Rights, and the American Constitution. All now trashed by Ashcroft, as clear criminal intent to obstruct Justice as the American dream for everyone.

E-mail this to somebody for Christ states,

yours truly,

Johnny Wizard

From below:

"Mr. bush you nazi vermin, you attack my America, you attack US all. American soldiers will not sit back as cowards entirely, and watch you sacrifice our lives as worthless without meaning."

I think I love you too much

Wow, your amazing! So, what your saying is bush the nazi tyrant, the unelected mass murdering fascist dictator, has no interest following the ample criminal leads, because they lead to him, rumsfeld, and cheney likely too, right? And, when that evil monster told us instead he would rely on secret evidence, but couldn't tell us why, as too the FBI or CIA, it turned out to be nothing but another wicked evil deception against the great American people, Tony Blair, bin Laden, and law enforcement officers everywhere, to even further give him cause to close investigations into 9/11 as Reuters told us, and rob directly from American soldier families, their lives, pensions, life savings, and blind faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

Weak Pathetic Coward Nazi Bastards

Lemme learn ya',,,my name is Dave as much as you aren't N7VCF. Careful,

Shoot, opposed to JerryO doing it on a 100 watts,,,yes, it most

How low can you go? There are very interesting things taking place
experimental-wise way down where only the freaks frequent.
Have you ever talked to an Emperor of a foreign country? An American
head of state in Sri Lanka? Both confirmed with cards and one of the
contacts was done on the freeband...real nice official card
received....American celeb hammies and the like don't impress
me,,,,perhaps if they were using a handheld near Victoria Falls I'd be
more inclined. Low power long distance is where it's at,,,except on the
bowl and tracks, of course.

It is down to 135/85 taking 100 mg Toprol a day, I saw the doc today, and he's thinking that the BP and fast pulse rate might be a symptom of another problem. I am now off work until I see a Neurologist on the 17th of next month, the doctor is thinking I am having some type of seziure. It's causing me to black out for a few seconds, and the right side of my face stars twitching. So now I am under driving restrictions until this can be resolved, heh guess driving down the road and then blacking out might be a problem eh? The work I do, involves some pretty dangerous equipment, like climbing inside augers, and working with laser guided saws ect. I work at a place that packages and proccess meats, again not exactly a good idea when you might black out and fall inside an auger when it's still running, or accidently lop off a hand with a saw heheh. Oh well I have 20 days now to dedicate to boning up on my CW to finish my license upgrade, already passed written for general.

Stay warm, and be carefull on the roads, not sure how they are out your way but they suck here.

Congratulations on the upgrade. I'm sure you will never look back.
Been keying the mic and generating some heat lately, hopefully some will
thaw out that frozen tundra y'all call home. Supposed to be the coldest
night in a few years here, tonight. Calling for twenties in the wee
hours and a (gasp) freeze warning. Prepare to pay more for citrus this
winter if the freeze materializes.

Well I hope they get ya dialed in soon Keith, hang in there. ;)

Everything is pretty much cleared and salted up here now, I have to
go back out at 11:00 tonight to plow a couple lots that had cars in
them earlier today.

Good luck with your health.

Careful yourself. I'm not N7VCF. I have proven it many, many times. Many people in this newsgroup know this to be true. In fact, a couple years ago I bought a scrapper Heathkit from Jerry O. -- why don't you ask him where he shipped it? I suppose if you are nice about it (ha!) he would give you my full address, which is in Spokane. I'm not N7VCF. Get over it.

Duh.

What does that mean, "...opposed to JerryO doing it on a 100 watts..."? Do I need to 'learn' you, a "professional journalist", in proper grammer again?

No, I don't suppose you take much interest in anything that may challenge you physically, emotionally or mentally (as exemplified by your ignorance of both grammer and radio fundamentals).

Us "freaks" are accomplishing things that you couldn't comprehend. And at least a couple of us "freaks" is playing on freqs around 0.01 Hz, although there is increasing interest in VLF from 3 to 9 kHz.

I'll bet they talk to a lot of people. Not much point in talking to them, though, since most of them don't even listen to their own constituants.

Yet 1000 miles on 74 mW doesn't even ruffle your feathers. Right. Sure. Whatever you say, Dave.

Seriously tho.... I don't know if you are interested in antique lawnmowers, but
I have the whole article that goes with that pic. It's a do-it-yourself project
in a Popular Mechanics book from the late 40's. I can scan it if you want. (The
full set of these books also have some old radio projects in there, and a ton of
other stuff like boats, campers, speaker cabinets.... you name it. Cool set of
books.)

You should see the dude who cleans the sidewalks at the mall. He
has an old riding mower (10hp) with a snow-thrower attachment on the
front of it. This guy has to go at least 400 lbs and the snow all
blows back in his face. He looks like the friggin abdominal snowman!

That poor old tractor sure earns its keep hauling his wide ass around.

Well I just bought a new garden tractor for around here, it replaced
an 8 year old Cub Cadet. I don't keep them around much longer than
that. Although I am somewhat of a pack-rat.

That stuff is fun to browse thru, thanks anyway.

Public display is not considered "personal use". Once you display something
publically, the "personal use" rule is useless to you... and you are open to
prosecution under copyright laws, which also cover public display or
performance of copyright material.

Before you go wild, I am just making you aware of the law... as I have done
with CB laws where someone really wanted to know. Whether you take notice
of that law is up to you, but at least you are fully aware of the situation.
If they come after you, you cannot say that nobody warned you.
But remember, if you don't care about stealing copyright material, then
don't lecture people about stealing frequencies.

[Found this gem of a story online someplace. It is a Classic]

King Shit (by The Checkered Demon 1, circa 1991)

All these excrement stories are stirring up memories of a fine foul day, some 12 years ago, when my little brother decided to give anal birth to the biggest turd I have ever seen.

I was raised, in typical appalachian style, as poor white trash without running water. The outhouse is the center of many fond and wondrous memories for me; spiders, the combination of summer heat and the overpowering stench of centuries-old feces and urine allowed to fester, wasps, billions of biting flies, freezing cold winters, and little or no privacy available. But then, I am tasteless. My brother is not.

To his little-kid brain, the outhouse was a place of great terror and fear. He had been stung, as I remember, one time while trying his first on-my-own poop. He was terrified, and decided that the shitter was a BAD place, and little kids didn't even poop in bad places. So, with that knowledge, he decided. "I am not going to poop anymore."

My parents and I first noticed his odd behavior four days into his Ironman Sphincterclench Endurance Competition. He seemed to be sick, as he would occasionally get glassy-eyed and stand in deep concentration. Mom was concerned, but didn't say much other than "Are you feeling well? Are you sick?"

He was fine, he just hadn't shit in four days. And, his little-kid brain had neglected to realize that if you don't want to shit anymore, you must AT LEAST cut down on the amount of food you intake. If anything, he doubled the amount of food he ate, since he was not going to have to poop anymore.

He tells me now that day four was the worst day. After that, his butt seemed to enjoy the vacation, and didn't mind letting its work pile up, so to speak. Days five and six passed without much difference, but his odd attacks seemed to be more frequent and of a little more intensity than before, but a lot briefer. Mom really began to get worried. She thought he might be epileptic.

Day seven rolls around with a force that would not be denied much longer. Struggle and strain though he did, my brother

decided that it was better to do that than ever have to dump anymore. He tells me that at this point, he had decided to poop again, but was afraid to, because of what might actually come out of his butt. (His brain, most likely). And the final clincher, he has an anal spasm during a vacation bible school meeting, and they bring him home because THEY think he is having an epileptic fit. I would wager that my anus would have puckered up about that time as well. Also, I'll bet that several of them thought he was going to speak in tongues, and kiss a rattlesnake, or something like that.

Mom would not let him talk his way out of this; the truth had to come out. He confessed his crime against nature, and said he would start shitting again if Mom swore she wouldn't punish him, and that she would take him to the doctor if anything... unusual happened to him while he was excreting. She agreed, under the condition that he use a potty chair in the house, so that we could run to his side and laugh hysterically if something happened. That last bit wasn't strictly a part of the negotiations, but that is what happened.

By God's grace, I happened to be in earshot when the ThunderFudge(tm) decided to part company with my brother. The actual sounds went something like; "<fart> oh. Oh. <fart, fart> OH. <fart, fart, grumble, gears grinding, hellspawned demons screaming for release,> ow. Ow. OWWWWWWWWWW! OWWWWWWWWW! OWWWWWWWW! OWWWWWWWW!!!"

Oh, the humanity of it all.

I knew that he could hear me if I snickered, so I tried to suppress the urge, which, as we have seen in the last few paragraphs or so, urge suppression does not run in my genes.

I laughed out loud.
Repeatedly.
Louder each time.

He was pissed, but then, I wasn't the one who had decided to pinch a loaf for the rest of my life.

He and Mom then left to apply some medication to the area, leaving me wondering if I ever had children, would I ever have the inner strength to cope with a son as brain-dead as this one?

I snuck a peek into the storage room they had been in. What I saw astounded me. The butt-monster had run the length of the pot, a good seven inches, and then formed an L-shape and continued upwards for another solid (heh) foot. Towards the end of the process, my brother must have stood, to be able to fully excrete this DungO'Death (tm). It was smooth-surfaced, and looked like it was about five inches around. It was about the same color as mahogany.

It was taken to the outhouse, and laid to rest 15 feet below the surface of the seat. It didn't even break when it impacted with the mound; instead, it just sank in, like the King Shit that it truly was, ruling over all the other worthless pieces of shit around it. Nobility suited it well.

My brother recovered, eventually developed something similar to intelligence, and later on we both moved out of the house. That particular outhouse was abandoned, and another was constructed. But I still think of King Shit, covered now by many others, still the greatest one of all time.

Frank,
Not to change the subject, there was an article in a old
Electronics Illustrated about a VLF super regen receiver. I don't
remember the year (mid to late 60's) or issue, but it was a real
simple one with 1 tube.

Agreed. These two were ignored for a few days and they began to howl
like never before. Twas quite effective. Now that some are engaging them
again, the ignorance flows from their mouth, often manifesting in their
low self esteem by their need to put another down in order to compensate
for all they lack. Screw the killfile...there is a twisted satisfaction
in watching them reap what they sow, especially when they don't even
realize what is taking place all around them. Ignore mode is much
stronger than killfile. Now, if you will excuse me, I must go and listen
to the Houston heap quiver and warble about how life would be on channel
6 if only someone heard his signal.....this much fun ought to be
illegal!

>Working the pond with three watts on a skip

Lemme learn ya',,,my name is Dave as much
as you aren't N7VCF. Careful,
now.

>Careful yourself. I'm not N7VCF.

Then neither of us have anything to cry about when one of us refers to
the other as such.
Unlike yourself, I need not point to others for validation.

>I have proven it many, many times.

the only thing you have proven many, many times, is what a liar you are
and what a troll you are. Take f'rinstance the fact that on certain
words, sometimes you mis-spell them, sometimes you don't. Hey, don't
froth at the snout at me,,,I merely point things like this out.

> Many

>people in this newsgroup know this to be true.

JerryO doesn't constitute "many." Name three more, two after that, and
you may be approaching "many" status in your two minion's eyes, no one
elses. Nevertheless,
it would also serve so that you may not be looked upon as posting
another lie just to try and refetch some of that dead ego I took from
you....you know, since YOU feel it to be of such pertinent relation that
you had to bring such nonsense to word.

>In fact, a couple years ago I bought a scrapper
>Heathkit from Jerry O. -- why don't you ask

>him where he shipped it? I suppose if you are

> nice about it (ha!) he would give you my full

>address, which is in Spokane. I'm not N7VCF.

If Jerry would give out someone's address that he acquired via a private business deal for the mere asking, he is a lowlife...,,,but then again, if he is running to your corner to back anything you say, as opposed to you looking to him for validation,,,,,...

>Get over it.

LOL,,,,,you are the one getting all worked up, as usual, over the reference. You should try and emulate me when attempting your lack of communication skills, as I never became hostile with you over your referring to me as Dave McCambell. Why would I? We have you for that when you are called Frank C. Gillinad,,,that, in addition to you answering for posts directed toward him.

_
And "working the pond" would refer to just what? Across the ocean?

>Duh.

Shoot, opposed to JerryO doing it on a 100 watts,,,yes, it most certainly is much more of a challenge doing "the pond" in such a manner.

>What does that mean, "...opposed to JerryO

>doing it on a 100 watts..."?

Your communication deficit is full blown today.
It means, just waht it says...hahaha!
See, YOU took my comment to Jerry about working
the world with 3 watts and misappropriated it here. Your ignorance has you ignoring Jerry's comment concerning working with 100 watts around the world, in whicih I replied with a post about 3 watts,..you know,,,,the one that has you drooling and scratching your filthy tshirt. See what you can learn when force fed.....!

>Do I need to 'learn' you, a "professional

>journalist", in proper grammer again?

CB "grammer" (SIC) isn't proper, and Gillinad can spell "grammar." You spell like Dave Hall or Geogre. Those two infamously, continually and repeatedly spell like second graders that were held back. Of course, you aer aware of that <g>. When you can learn proper communication technique. c'mon back and you won't have it so bad. Until then, feel free to copy my smoke!

What that means Mopar is that he's been
one of those playing both sides of the fence.
Kind of like when Prozac came back on here,
then all of sudden started in on the people he

Amateur Radio Newsline report number 1380 with a release date of Friday, January 23, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T. The ARRL says that it will petition the FCC for a code free entry level license with high frequency phone privileges and Amateur Radio Neewsline announces the Roy Neal, K6DUE, Amateur Radio Mentoring Project. These stories and more coming your way on Amateur Radio Newsline report number 1380 coming your way right now.

HAM RADIO POLITICS: A NEW DIRECTION

Topping the news this week -- honoring one of our own. Enlisting an army of volunteers to make us all a little bit better -- and doing it in the name of the late Roy Neal, K6DUE. But first -- the biggest organization of Amateur Radio operators in the world finally takes a position on the code versus no-code issue. The ARRL is asking the FCC in a petition for rulemaking to create a no code entry level H-F license for anyone who can successfully pass a written exam of a mere 25 questions. If the FCC accepts the ARRL idea, it would keep the more stringent requirements for the Amateur Extra Class license, including their ability to send and receive Morse code. Amateur Radio Newsline’s David Black, KB4KCH, takes a look at the details of what the ARRL is asking the FCC to do:

--
Code free access to ham radio's high frequency bands ... it's part of what could change amateur radio's complexion forever. And it could become reality.

The ARRL says it will ask the FCC to make sweeping changes to the United States amateur radio service. Perhaps the biggest change of all: Creating a new entry level ham radio license that grants access to high frequencies without requiring any Morse code proficiency.

But that's not all. The League also proposes consolidating all amateur radio licenses into three classes: Novice, as it's being called for now, General and the highest level, Extra. And only the Extra class license would require Morse code proficiency--of 5 words per minute. The new Novice license would require a 25-question written test and would offer limited HF, Morse code, data and phone and image privileges on 80, 40, 15 and 10 meters. Novices would also have VHF and UHF privileges, including access to 6 meters and 2 meters. Their power levels would be restricted to 100 watts on 80, 40 and 15 meters, and to 50 watts on 10 meters and higher.

The middle amateur radio license would continue to be the General, but it would include all current Technician, Tech Plus and present General license holders. This license would not require a Morse code test. Under this proposal, if you are a current Technician or Technician Plus, you would automatically obtain General class privileges with no additional testing. The current General examination would remain unchanged for new applicants.

The third license class, the Extra, would involve the fewest changes. Under the League proposal, hams with Advanced class licenses would essentially automatically become Extra class because of similarities in the technical proficiency required for both levels. New applicants for the Extra class license would have to pass a 5 word-per-minute code test--the written test would stay as is. If you're currently a Novice, Tech Plus or General license holder, you would receive a lifetime 5 word-per-minute credit.

The proposed changes got the blessing of ARRL's Board of Directors January 16th. The proposals are the creation of a League Executive Committee acting at the Board's direction. The new structure suggestions come as a result to changes in international radio regulations that are part of the World Radiocommunication Conference 2003. At the same time, the FCC has been wanting to streamline the amateur radio licensing structure which it began more than five years ago.

How do radio amateurs feel about the changes? Reaction is mixed:

--
Janice Rock AF4LT - Audio Only Report: Please listen to audio version of newscast.
--

Janice Rock, AF4LT, sees benefits and drawbacks:

--
Janice Rock AF4LT - Audio Only Report: Please listen to audio version of newscast.
--

Supporters say the new structure offers a true entry level license with HF privileges that should boost growth in the amateur radio service. While some hams may claim that taking away code for HF access damages amateur radio, other hams dispute that. Bill Levey, WA4FAT:

--
Bill Levey, WA4FAT - Audio Only Report: Please listen to audio version of newscast.
--

Supporters say the changes will help amateur radio by allowing new Novices to participate in emergency nets on HF sideband. The impact of this proposal on amateur radio's long term future has Janice Rock concerned for another reason:

--
Janice Rock AF4LT - Audio Only Report: Please listen to audio version of newscast.
--

League Executive Vice President David Sumner K1ZZ says the Novice class license could wind up getting a new name, more appropriate for the times -- this, as amateur radio faces what could be one of the biggest changes in its history.

From Birmingham, Alabama, I’m David Black, KB4KCH for the Amateur Radio Newsline.

RESCUE RADIO: NYC ARES ACTIVATES FOR COLD WEATHER

The New York City District Amateur Radio Emergency Service was called into action last Wednesday evening, January 14 th. This, after the American Red Cross of Greater New York contacted Mike Lisenco N2YBB. Lisenco is the District Emergency Coordinator for ARES and the message was clear: Call together the members of ARES to provide emergency communications between the warming centers being established in the five boroughs and Red Cross headquarters in Manhattan.

--

Lisenco: “Once I received the phone call from the coordinator of disaster volunteers at the Red Cross of greater New York, the first thing that I did was to call the five EC’s we have here in New York City. Each borough which constitutes a county has its own EC. In turn they called their people looking staff the shelters.”

--

By the next morning, New York City District ARES Emergency Coordinators had more than a dozen Amateur Radio operators on standby awaiting the activation. Friday evening they went into action after Mayor Bloomberg announced the

shelter openings. The ARES radio operators manned their posts throughout the operation, which lasted the better part of a day during some of the most frigid weather ever recorded in the Big Apple. The hams finally stood down on Saturday afternoon.

This is not the first time that New York City District ARES has provided critical communications for emergencies. They were active with the oil barge explosion at Port Mobile on Staten Island, the Northeast Blackout in August 2003 and did heroic work following the terrorist attacks of September 11, 2001. Break 1

Stay tuned for the details on one of amateur radios most ambitious mentoring projects. It’s coming up later in the newscast, but first From the United States of America, we are the Amateur Radio Newsline, heard on bulletin stations around the world including the Peace River Repeater Associations systems serving Punta Gorda Florida.

ANNOUNCING THE ROY NEAL, K6DUE, AMATEUR RADIO MENTORING PROJECT

Amateur Radio Newsline is paying tribute its late vice president, Roy Neal, K6DUE, by naming an ongoing mentoring program in his honor. Roy became a silent key last August after surgery. He was 82.

The Roy Neal, K6DUE, Amateur Radio Mentoring Project is designed to pair new hams -- often called “newbies” -- with veteran amateurs. This, in the hope that some of the established hams’ operator skills can be passed down to new generations.

--

Pasternak: “ere is a long tradition of mentoring, often called “elmering,” in Amateur Radio. No one knows the origin of the term, but the first teacher might well have been named “Elmer.” My mentor was a guy named Charlie Zussman. Back in the 1950’s he was WA2AKX. Today he’s WE2R. And his helping me become a ham has lead to a friendship that has lasted a lifetime. What he taught me was that tradition is an important part of the hobby.

--

That’s Bill Pasternak, WA6ITF, who has produced these newscasts since 1977. He and the Newsline Board of Directors came up with the idea for this project. Bill says that ham radio has become a tremendously complex arena and new hams often don’t know where to turn for help:

--

Pasternak: “We have licensed hams who are truly experts in numerous fields ranging from bouncing radio signals off the moon, to writing complicated software which enables new forms of two-way communication. We want to take advantage of that knowledge base to help newcommers.”

--

While Amateur Radio includes world-class experts in a number of specialties, there are literally thousands of hams who have operating skills also worthy of passing on. For example, contesting is very popular, yet it is a tough nut to crack for a beginner.

--

Pasternak: “Contesting is intimidating. I know. I’m just getting started. Good contest operators often are able to contact four stations per minute for hours at a time. The great ones do even better than that. How they are able to do that is a skill that should be passed on to newcommers.”

--

Two large pools of Amateurs are needed to make this mentoring project work. First, there must be a group of volunteers who have a skill and are willing to share their time. The second group is made up of the large number of beginners who want to learn.

One of the nations top mentors, kit building expert Joe Eisenberg, K0NEB, has agreed to help set up databases and to begin the process of matching mentors with beginners. All we need to know is if you need assistance or if you are able to mentor others. We also need your name, call letters, address with zipcode, phone number, e-mail and when its best call.

The special e-mail address to register is mentor@arnewsline.org.

Mentors might be matched by zipcode – and be in the same town, or they might be half-way around the world from each other and communicate by e-mail. Either way I think we can make it work.

--

Pasternak: “The project’s namesake, Roy Neal, K6DUE, was himself a mentor and not only in ham radio. I know this first hand because he is the one who taught me to become a better writer and producer.

More important: Those of us who knew Roy, also know that helping others was a very important part of his life. As such. we feel that the least that we here at Amateur Radio Newsline can do is keep his memory alive with this project.”

--

Again, that e-mail address to register for the Roy Neal, K6DUE, Amateur Radio Mentoring Project is mentor@arnewsline.org More information is on our website at www.arnewsline.org

And Roy, old buddy, this one is for you! (ARNewsline(tm), W6RCL)

THE BPL FIGHT: NORTH CAROLINA HAMS MEET WITH POWER PROVIDERS

Slow but steady progress in dealing with the imminent release of Broadband over Poweerlines in North Carolina. Gary Pearce, KN4AQ, is here with more:

--

Progress Energy fulfilled their promise to North Carolina Amateur Radio operators and invited several Raleigh area hams to observe their new Phase II BPL trial in a rural subdivision south of the city on January 15th.

BPL – Broadband over Power Lines – is a system for delivering high speed Internet through neighborhoods and into homes and businesses via the power lines. The technology places radio frequency signals on the power lines in parts of the spectrum between 2 and 80 MHz. Those signals radiate to some extent, and can cause interference to a receiver in the vicinity of the power lines. Naturally this has become cause for great concern among hams worldwide.

In Raleigh, three ham radio operators met with engineers for both Progress Energy and Amperion, the equipment manufacturer. Two of the Progress Energy engineers were also hams.

The BPL trial consisted of a half-mile of overhead feeder along a highway, and a few dozen homes passed by buried power lines. A “repeater” amplified the signal about every other block.

We were particularly interested in the spectrum used. We learned that each run of BPL, from repeater to repeater, uses two blocks of spectrum, 2.5 and 3.5 MHz wide. At each repeater, a different block of spectrum is required.

The overhead feeder segment in this trial used spectrum blocks around 25 and 29 MHz. We listened with mobile equipment driving on the road adjacent to the power line, and received S-9 signals in the immediate vicinity of the line that sounded like this when tuning across the 10 meter band:

--
[audio clip of BPL signal]
--

The signal fell off quickly when driving away from the line, but a ham at a home station almost a mile away heard the 10-meter BPL signal about S-6 using an 80-meter dipole antenna.

Amperion says a Network Operation Center can move any repeater to another block of spectrum, or notch part of a block by remote control, to eliminate interference, but they were unable to demonstrate that for our test.

Even with that flexibility, fitting 3.5 MHz wide blocks of energy in between ham bands would be a delicate jigsaw puzzle. That much “empty” spectrum exists only between the 30, 20 and 17-meter bands, and it’s empty only from the perspective of Amateur Radio.

Skip could completely upset the equation. BPL signals, which are similar to very low power QRP Amateur signals, could reflect off the ionosphere and appear

hundreds or thousands of miles away. The energy of one isolated trial area might not have much impact, but a mature nationwide system with hundreds or even thousands of installations using the same spectrum blocks could be a very different story.

Yet to come in BPL is a comprehensive report from the NTIA; an FCC Notice of Proposed Rulemaking for changes in Part 15, based on last year's Notice of Inquiry; and a decision by your local utility about getting involved in BPL.

Reporting for Newsline, this is Gary Pearce KN4AQ in Raleigh, North Carolina

--

The hams at the test included Wake County ARES E-C Tom Brown, N4TAB, Technical Specialist Frank Lynch, W4FAL, and reporter Gary Pearce, KN4AQ. (ARNewsline(tm))

THAT FINAL ITEM: THE LIFE AND TIMES OF K2ORS

And finally this week, a new book is in the works about a broadcast legend who also happened to be a ham radio operator. Take a listen:

--
Shep: “Well there I am playing that character deep in the jungle. We have $400,000 of camera equipment that’s being eaten by mosquitoes. They eat Betamax cameras. You don’t know about the tropics. Leaches are coming up the tripods, when a runner comes down the beach. He’s a Chumaro Indian.

He’s running. He’s sweating. He arrives in the clearing. This is exactly what happened.

The Director is standing there. He's sweating and saying: '...damn, we got to get this.' We kept trying to clean the lens off. It was a tough shoot.

And this Chumaro runner comes up and he's saying; 'Message. Message." He has a message. The Director looks at it and he hands it to me and the message said -- and I quote: '...The Dayton Hamvention called. They want you to speak this spring.'

I said: 'For cripes sake, how did they know I was in the jungle' (laughter)"

--

That was the late Gene Shepherd, K2ORS, speaking at the Dayton Hamvention several years ago. Shep as he liked to be called, passed away in 1999. Now, author Eugene Bergmann has set to work writing the definitive book about the ham who invented talk radio. In a recent interview with Amateur Radio Newsline, he told us why:

--

Bergmann: "Well I first started listening to Jean Shepherd way back in '56 when I was in college and I think what he had to say and the way he said it affected my thinking for the rest of my life. Soon after he died I realized how important he was to my way of thinking. That he was like an old friend. I got more and more involved in learning more about him and I finally decided that I had to write a book about his art."

--

In writing his book, Eugene Bergmann wants to make certain that every aspect of Shep's life and career is accounted for, including his love of ham radio. And a love it was as in this very rare recording where he accurately predicted the explosive growth in F-M and repeaters in general and one New York City machine in particular:

--

Shep: "I don't think you guys who sit around every night like you do recognize the already legandary status of this repeater outside of this area. I just came back from a trip from the Canadian border and all the way down through New England and way up in the Northern part of Maine I worked guys and the one thing that they all talked about was SUR (WA2SUR). And they really was a quality of 'wow' in their voice. I think that in another ten years there's no telling how immense this repeater will be and what a structure it will be. I am very serious when I say this. I think we are in the beginning of a thing here and I think that ultimately 25 years from now people will look back on the early two meter guys like us -- we're considered early guys now -- with a legendary awe. You know, with a quality of awe, like 'my god -- they started it all."

--

That was recorded way back the evening of June 21st 1972 over the then WA2SUR repeater in New York City. K2ORS was right on in his F-M and repeater growth

forecast. Bergmann says that’s the kind of he plans to include:

--

Bergmann: “In May of 1968 in one of his broadcasts he said: ‘...I became at the age of ten, totally, maniacally and for life I might point out -- completely skulled out by Amateur Radio.’ So he was quite an enthusiast up to his death in ‘99”

--

Sound intriguing? Well you can find out a lot more about Eugnene Bergann’s book and how you can help to writer it on this weeks RAIN Report. Just go to www.rainreport.com or dial into area code 847-827-7246, sit back and enjoy a quarter hour with Eugene Bergmann and his new book on the legendary Jean Shepherd, K2ORS. (ARNewsline(tm))

AMATEUR RADIO NEWSLINE™ ANNOUNCES CREATION OF THE ROY NEAL, K6DUE, AMATEUR RADIO MENTORING PROJECT

January 15, 2004 (Los Angeles California) The Amateur Radio Newsline Inc., a Federally chartered 501(c)(3) not-for-profit corporation has today announced the creation of the “Roy Neal, K6DUE, Amateur Radio Mentoring Project.” This is a program designed to take newly licensed radio amateurs and place them one-on-one with veteran hams so that they may learn the traditions and operating skills that no classroom or home-study environment can teach.

Roy Neal, K6DUE, was a driving force within the structure of Amateur Radio Newsline. He passed away on Friday, August 15, 2003 from complications arising from heart valve replacement surgery a few days earlier.

In addition to serving as Amateur Radio Newsline's Vice President, he was also our teacher, advisor and friend. Those of us who had the honor of knowing Roy were keenly aware of his willingness to help anyone better themselves. He was always willing to share his lifetime of knowledge in many areas including science, space exploration and Amateur Radio. With this in mind the Amateur Radio Newsline Board of Directors at its annual meeting on December 13, 2003 voted unanimously to honor Roy’s memory by creating a program to carry on his vision.

What we have named “The Roy Neal, K6DUE, Amateur Radio Mentoring Project” is loosely based on a similar program created by Broadway performer Ann Reinking. Reinking was a student of and performer with the legendary choreographer/director Bob Fosse. She is now carrying on the “mentoring” tradition in the art of dance through her own educational foundation, the Broadway Theater Project. This is a Florida based training program connecting students with seasoned theater professionals. If we may quote Ms. Reinking:

“Its sort of an un-written law or rule in the world of dance that you pass on what you know. This particular craft is at its best when its passed from one person's hands to the next.”

Now, if you think about it, what Ann Reinking says about "dance" applies equally to our world of Amateur Radio. Maybe more so, because, for decades the knowledge and tradition of our hobby/service was passed down from seasoned operators to newcomers, one to one. Unfortunately, in the ham radio of today, this art of mentoring that we call "Elmering" seems to be disappearing. It is being replaced by "weekend cram class training" and/or the more tedious world of “home study.” Both provide lots of technologically trained hams, but they do not turn out skilled operators or hams who really appreciate the art of amateur radio. Only one-on-one “mentoring” or “Elmering” can do that.

“The Roy Neal, K6DUE, Amateur Radio Mentoring Project” is to be a similarly structured program that fosters those one-on-one relationships that go well beyond the knowledge necessary to pass a ham radio exam. It will put an emphasis on our traditional ham radio values by placing new hams into contact with skilled operators who are willing to teach them such radio art-forms as how to work DX, or run a contest, build and operate a repeater, talk by bouncing signals off the moon, kit construction and anything else that makes a ham a ham. In essence, to pass along the living traditions that make ham radio what it is to all of us old timers.

To make this work, two groups of hams are needed. First we need skilled operators who are willing to donate time to assist those in need of training. We also need new hams to come forward and say: “I want to learn more.” We will do our part by matching the mentors to those in need of Elmering.

To get the project underway we have asked Joe Eisenberg, K0NEB, to create the necessary databases and begin the process of matching volunteer mentors to those wishing instruction. We are also asking both groups to send us an e-mail at mentor@arnewsline.org. In your note please state if you are offering to be a mentor or are in need of training. Please include your name, call, address, e-mail address with zipcode, phone number, best time of day to call and any other pertinent information.

It is our hope that the nation's Amateur Radio community will join with us to make "The Roy Neal, K6DUE, Amateur Radio Mentoring Project" a part of the traditions of the hobby, and that it will become a lasting memorial to the radio amateur who gave so much of his life to making Amateur Radio the best hobby and service in the universe.

Police: teen nailed to wall by students
Jason McKee , jmckee@pottsmerc.com 01/23/2004
OLEY -- Four students, including three from Boyertown Area High School, were arrested for allegedly nailing another student to a wall after an argument over a football game, according to police.
All of the boys are students at the Berks Career and Technology Center's east campus on Friedensburg Road in the township, police said. A fight broke out at a building construction site being operated by the school, according to Oley Police Chief David White.
"Apparently there was a disagreement over the Eagles game," White said.
The building site is a home being constructed by the students on Old State Road. Students from the vo-tech school learn the construction trade during the process. The home will be put on the market after completion.
One of the boys, apparently the one who isn't an Eagles fan, was wrestled into the basement by the other four. Using a hammer, they nailed the victim's shirt and pants to exposed studs in the basement, police said.
"They were laughing about it," White said of the four who were charged.
None of the boys involved was identified because of their ages. All but one are under the age of 18, police said.
The victim was not injured in the Jan. 13 incident. Another student helped release him from the wall.
White said the four defendants were charged with harassment and criminal mischief, summary offenses.
Three of the students were also suspended from Boyertown Area High School, police said. The fourth student is an 18-year-old senior at Exeter High School.
Each citation carries a maximum fine of $300, plus court costs. They were also ordered to pay restitution for the victim's damaged clothing, according to police.
"I think they learned a lesson," White said.

Amateur Radio Newsline(tm) Report 1381 – January 30, 2004

Amateur Radio Newsline report number 1381 with a release date of Friday, January 30, 2004 to follow in 5-4-3-2-1.

The following is a Q-S-T.

Hams across the nation react to the ARRL restructuring proposal and the first B-P-L law suit involving ham radio is threatened in Austria. These stories and an interview with ARRL President Jim Haynie, W5JBP, highlight this weeks Amateur Radio Newsline report number 1381 coming your way right now!

RESTRUCTURING: HAMS REACT TO THE ARRL NO-CODE PROPOSAL

Hams are starting to react to the recent ARRL proposal to restructure the United States Amateur Radio service, and not surprising the comments are as diverse as the community itself. Amateur Radio Newsline’s David Black, KB4KCH, is at our South-East Bureau with this part of the story:

--

If you listen to the ham bands and check out the comments on the qrz.com website, it appears that most amateur radio operators have a somewhat sedate response to the ARRL's restructuring proposal. While some activists make their opposition quite vocal, the majority of comments so far seem to accept the League's initiative, 'though some do express reservations.

"I can live with this" is how some comments go. Others more strongly support the League by saying, "right on, A-double-R-L." The biggest concern most express centers around the ability to monitor the airwaves for rules compliance if explosive growth results. As one operator on 15 meters says, "If we get a million new hams, will the FCC give us 500 more Riley Hollingsworth's to keep them in line?" Hollingsworth handles amateur radio enforcement matters for the Commission.

Some operators say the League's proposal will wind up dumbing down amateur radio. Some even claim to have resigned their ARRL membership, 'though so far, no proof of that has surfaced. Vehement opponents of restructuring may in fact terminate their League memberships, but the number is not expected to be significant.

Restructuring is not a done deal. Announcement of the League's proposal is only the start. The League will formally request that the FCC make a rules change. Once the Commission receives that request, it will be up to the FCC to decide

whether or not it will consider the League proposal put it out for public comment. Chances are that it will. Once the proposal is assigned a rule making designation, you will have a chance to make your opinion known.

Comments are likely to come from the general public, the business community and any special interest groups as well as those who hold an FCC assigned call sign.

Stay tuned -- the story's just beginning.

From the South-East Bureau in Birmingham Alabama, I'm David Black, KB4KCH, reporting for the Amateur Radio Newsline.

--

Unless the FCC decides to place the ARRL request on a separate fast-track, you can expect the agency’s first action to be putting it out for initial comment sometime in the next several weeks. (ARNewsline(tm))

RESTRUCTURING: THE ARRL ON THE ARRL RESTRUCTURING PROPOSAL

The ARRL is now explaining why it has decided to ask the FCC to restructure the United States Amateur Radio Service, and the words are coming straight from the top. Amateur Radio Newsline’s Mark Abramowicz, NT3V, caught up with ARRL President Jim Haynie, W5JBP, by phone and got some insight into why the ARRL Board acted as it did :

--
With the American Radio Relay League's imminent filing with the FCC of its proposal for a new, no-code HF entry level license, the debate is certain to heat up.

ARRL President Jim Haynie W5JBP acknowledges the league's proposal will generate some controversy. But he says months of research, surveys and lots of internal debate went into crafting the revival of a Novice-class license.

Yes, Haynie confides, the ARRL's directors and Haynie himself were pressing the flesh - so to speak - for months gathering input from the amateur community. Directors also were conducting informal surveys among ARRL members. And, he says, a professional research company was hired by the league to survey hams about the state of the hobby.

Haynie says the research company's findings were pretty sobering and bolstered the ARRL board's drive for license reform.

"For example, 53 percent, if my memory serves me correct, today of all amateurs now are 55 years or older," Haynie says. "And this is growing at an exponential rate, it's not linear. And this is a very disturbing thought."

He says the results also revealed something the ARRL suspected for some time.

"There's people getting licenses and they're getting involved in what we call, or what I call '2-meter ghettos' and they have no place else to go so they lose

interest after about a year or six months or whatever," Haynie explains. "So you've got 200,000 or 300,000 Technician licenses out there who say 'I've tried' and they did and they didn't like it."

Haynie says it became clear one way to recapture the magic of the hobby lay in the experiences many long-time hams had when they first entered amateur radio.

"We went back and thought about, okay, how did it used to work and what was successful about it? And the old Novice class license was extremely successful, I think. And, we said, 'Well, okay then we have to go back to some form of that.' "

Last year's World Radiocommuncations Conference laid the ground work for countries to decide for themselves what to do about CW and licensing. But Haynie says the WRC '03 decision played a small role in the ARRL's deliberations.

"Morse Code is certainly tradition, I don't deny that," Haynie says. "And I think it's a neat ability. It's a skill. It has nothing to do with intelligence."

Haynie says he and other directors have heard some argue: 'Hey, I had to pass a code test, why shouldn't everyone else.' Haynie says that's like saying I'd like to play golf like Tiger Woods and coming to the realization that's probably not going to happen because you simply don't possess the skills - even with lots of practice. The same logic, he says, applies to CW. For many hams, he says, it's simply not their bag.

Haynie says the ARRL's proposal preserves CW for one license class, yet opens the doors to the world of HF for those who couldn't learn and master Morse Code to pass even a 5-words-per-minute test.

"People, they realize, they've come to grips: We are getting older. And we're not getting the people into Amateur Radio," Haynie says.

"And the amateur community realizes that we've gotta do something. And, I don't say that the league's proposal is perfect. Neither does any of the directors or officers of the league say that. But it was the best that we could come up with that still preserved the Morse Code tradition for the Extra class exam, and yet, gave you the taste of the old Novice that I used to have 30-something years ago."

Haynie says he's confident, based on his experience with the FCC, that the agency will look favorably on the ARRL license proposal.

"I have a gut feeling that they will take a majority of it, at least I think they will. They'll probably fine tune it, they'll tweak it some because that's typical of the federal government," Haynie says.

"But on the other hand, I know, I know that they want to simplify the Amateur Radio Service. They want three classes of licenses. They want to reduce their workload and continue to do what they like to do and amateur radio take care of itself."

And how long does Haynie think it will take the FCC to act and make any changes to the Amateur Radio license structure? He says don't expect a decision anytime soon.

"I don't see anything happening on any of the petitions, including the league's, probably 'til late 2005," Haynie concludes.

Haynie says his e-mail and phone have been busy since the board's vote two weeks ago. He says he's comfortable with the license proposal and is prepared to support and defend it.

Haynie says he had the chance to do so earlier this week before his hometown radio club in Garland, Texas. He says after explaining the league's rationale to the group, those willing to listen asked lots of questions. Haynie says he felt by the time it was over, many appreciated the league's work on behalf of the hobby.

Haynie's next stop: The 44th Tropical Hamboree in Miami on February 7 where he's expecting to get lots of feedback.

For the Amateur Radio Newsline, I'm Mark Abramowicz NT3V in Philadelphia.

--

If all went as expected, the ARRL was to transmit its proposal to the FCC on Wednesday, January 28th. And less we forget, a word of congratulations to Jim Haynie on his election to a third term leading the United States only recognized Amateur Radio society. The ARRL Letter Board of Directors expressed its confidence in W5JBP’s leadership on January 16 with a unanimous vote for his him to continue as President. (ARNewsline(tm))

THE BPL FIGHT: AUSTRIAN BPL PROVIDER SUING HAMS OVER NEWS STORY

In what looks to be a case of “he said -- no -- he said,” a row is brewing over the introduction of Broadband over Powerline telecommunications in the city of Linz, Austria. One that has a service provider taking that nations Amateur Radio society to court over statements quoted in the media world-wide.

As reported a few weeks ago, stories were circulating that PLT, or Power Line Telecommunications as the Europeans call their BPL system, had been halted in Linz. This, due to interference caused by the system. Also that the Austrian government had enjoined the service provider and the system would never be permitted.

Not true says the BPL provider and the power company and its now headed to court to try to stop the hams from complaining to them and to the press. From across the Atlantic, Jeramy Boot, G4NJH, has more:

--

The Austrian national amateur radio society, OeVSV, has objected to the use of PLT in Linz, stating that it causes interference to amateur stations, and issuing a press release which was picked up by the Austrian mass media. It appears that the OeVSV was misquoted as saying that the Austrian ministry had taken out an injunction against the PLT providers and that the service had been closed down for good in Linz.

The management of Speed-Web Consulting and Linz AG, who are responsible for the PLT transmissions, are disclaiming what they say are "press attacks by Austrian radio amateurs". They say that there has not been any injunction against them and the roll-out of PLT continues.

Speed-Web and Linz AG say that Austrian radio amateurs are doing their best to stop PLT "by filing undue interference complaints". They go on to say that "if there should be any actual, harmful and officially proven interference case caused by Powerline Communications, mitigation measures will solve this very case at that specific location in the concerned frequency".

On the 14th of January, Linz AG stated that it would be suing the OeVSV, as well as its president personally, over this matter.

Jeramy Boot, G4NJH.

THE BPL FIGHT: FCC'S ABERNATHY ACKNOWLEDGES AMATEUR RADIO BPL CONCERNS

Here at home, FCC Commissioner Kathleen Q. Abernathy is apparently shifting away from her definition of BPL as a "Broadband Nirvana.” Last week Abernathy specifically cited Amateur Radio concerns about the interference potential of Broadband Over Power Line in remarks she delivered to the Catholic University of America's Columbus School of Law.

According to the ARRL Letter, Abernathy said BPL should not be widely deployed before dealing with ham radio's interference fears. She admitted that she now recognizes that Amateur Radio licensees have raised concerns about the potential for harmful interference. Abernathy described this as something that will have to be addressed before any mass market deployment can occur.

Commissioner Abernathy made her remarks on January 22 at the school's Washington, DC campus. Abernathy said that if engineers can find a way to prevent harmful interference to other radio services, BPL would represent a tremendous advance for consumers, because it could bring broadband to any home

that has electric power delivery. (ARRL)

RADIO LAW: CONGRESS MAY RAISE INDECENCY AND OBSCENITY FINES

Using obscene and indecent language on the airwaves may soon get very expensive. This as congress considers raising the stakes for those who insist on talking dirty on the radio. Amateur Radio Newsline’s Bill Pasternak, WA6ITF, has the details:

--
United States Representative Fred Upton of Michigan introduced congressional legislation to upthe maximum fine for an indecent broadcast from $27,500 to $275,000. Under the Upton sponsored measure the maximum fine for a continuing violation would be raised from $300,000 to $3 million.

Upton had also scheduled hearings to review the FCC's indecency enforcement policies for January 28th. Ken Johnson, a spokesman for Representative Billy Tauzin of Louisiana is quoted as saying that law makers intend to move the legislation quickly in hopes of sending a signal to broadcasters that enough is enough.

This action comes following recent complaints by FCC Chairman Michael Powell. He says that the existing penalty cap on indecency fines was too low to discourage off-color broadcasts.

For the Amateur Radio Newsline, I’m Bill Pasternak, WA6ITF

--

Commissioner Powell believes that once broadcasters start to feel the pinch where in their wallets they will start to think twice about transmitting indecency on the airwaves. (Published news reports)

ENFORCEMENT: UPS TO THE FCC: YOU HAVE OUR FULL COOPERATION

The FCC has received a letter from United Parcel Service offering the company’s full cooperation in removing any unlicensed radio equipment from its nationwide fleet. This follows a January 7th letter to the Middlesburg Ohio office of U-P-S detailing unlicensed 10 meter operations coming from delivery vehicles in that area.

The FCC also has contacted another trucking company, R and L Transfer of Norwalk Ohio regarding the same type of problem. Unlicensed operators coming to the 10 meter band has been a growing problem around the world in recent years. (FCC)

**

ENFORCEMENT: THAT RADAR IS A NO-NO

The FCC has also written to a pair of hams in the Winfield and Haysville Kansas area. This, regarding a reported piece of marine radar equipment mounted in a land based vehicle. According to the FCC the radar unit was being used for storm spotting without being licensed for this use. The identities of those using the radar system were not revealed. (FCC)

OUR GOLDEN PAST: CARL & JERRY "LIVE" AGAIN

Its time for a trip back to the 1950's. To a kinder and gentler Amateur Radio. Our tour guide for this journey is Bruce Tennant, K6PZW:

--]

Remember the names Carl and Jerry? Well if you were playing with ham radio in the 1950's and 1960's you are well aware that these are the first names of the two fictitious teenage electronic whizze's. Characters created by the late John T. Frye, W9EGV, for his long-running magazine series of the same name.

The Carl and Jerry stories appeared in Popular Electronics from October 1954 through December 1964. They told of the adventures of two perennial teenage boys who shared a special bond because of their shared love of music, electronics and radio. Now, many of these stories are again available to read to enjoy thanks to a new spot on the world-wide-web. Better yet, they are the kind of stuff you may want to read to your grandkids, especially if they have the same wonderment as you when you were their age.

Where are they and how do you these Pop Com classics? Thats easy. Just follow to link you will find in this weeks print edition of this Amateur Radio Newsline report. And good news for our sight impaired listeners. Word is that the print works well with most devices to help the blind to read as well.

Traveling back in time for the Amateur Radio Newsline, I'm Bruce Tennant, K6PZW, enjoying the past.

So far there are only 21 of the stories in the seriers on the web, but enough to keep you glued to your computer screen for several hours. They are there to read at http://home.gwi.net/~jdebell/pe/cj/cnjindex.htm (ARNewsline(tm))

A note to those of you who intend to operate from Australia on an extended visit. It appears that many amateurs, including those operating maritime mobile from within Australia's territorial waters, are using their own callsign with the 'stroke VK' suffix. Under Australian telecommunications law, this is

not permitted for any lengthy stay. Once past the grace period, all radio amateurs operating from Australia, and more importantly, from Australia's territorial waters must obtain an Australian license and individual VK callsign from the Australian Communications Authority. WITH THE ARRL: MAJOR CHANGE IN DXCC POLICY ANNOUNCED

A major change in the criteria for determining what is a new DXCC entity. An ARRL news release says that the organizations Board of Directors has removed the guideline that provides for an entity to be added to the DXCC list if it has a separate International Amateur Radio Union member society. The ARRL says that this provision had the unintended consequence of bringing in applications for IARU membership that do not further the objectives of the organization. In fact, all it has done is to create what ARRL terms as an unfortunate and unnecessary administrative burden for the IARU. (ARRL)

THAT FINAL ITEM: RADIO FROM SPACE - THE SETI INSTITUTE IS MONITORING

Lastly this week, scientists searching the stars for aliens are convinced an E.T. is out there -- it's just that they haven't had the know-how to detect such a being. Amateur Radio Newsline’s Norm Seeley, KI7UP, has the rest of the story:

--
Science Online says that technological advances have opened the way for scientists to check millions of previously unknown star systems, dramatically increasing the chances of finding intelligent life in outer space in the next 25 years.

The article quotes Seth Shostak. Shostak is the senior astronomer at California's non-profit Search for Extraterrestrial Intelligence Institute says that it is like looking for needles in the haystack that is our galaxy, but there could be thousands of needles out there. But on a recent visit to Australia to attend a conference on extraterrestrial research, Shostak said detecting alien life is only the start.

Since it was founded in 1984, the SETI Institute has monitored radio signals, hoping to pick up a transmission from outer space. Its Project Phoenix conducts two annual three-week sessions on a radio telescope at Arecibo, Puerto Rico. Project Phoenix, is the privately funded successor to an original NASA program that searched the heavens for signals from extra-terrestrial beings. That program was canceled in 1993 amid much skepticism in the Congress regarding the possibility of life in outer space.

For the Amateur Radio Newsline. I’m Norm Seeley, KI7UP

--

But Science Online says that the search has been slow. About 500 of 1,000 targeted stars have been examined and no extraterrestrial transmissions have been heard. (ScienceOnLine)

This is Andy Jarema, N6TCQ, Chief Financial Officer of the not-for-profit organization you know as the Amateur Radio Newsline. And once again, I am using the single word -- HELP! If you value this service, please help. We try to keep these kind of thing as subtle as we can.

You responded so wonderfully to our plea last April, and we haven't really asked for anything
since. But, unfortunately, your response dwindled in the waning months. The expenses of bringing you the up-to-date news on Amateur Radio did not.

We'd really like to hear from you. And we'd really like to hear from the repeater clubs out
there. These are the wonderful folks who re-transmit our broadcasts, bringing your nets increased value, and giving your members the latest in Amateur Radio news and information to enhance their hobby.

But Amateur Radio Newsline cannot continue without the funding needed to pay the monthly bills. And right now, we can't.

In the quarter century that it has existed, no one at the Amateur Radio Newsline has ever taken a salary. We all volunteer our time and talents. But what we ARE faced with are monthly expenses for gathering and delivering the news to YOU! We are talking telephone, Internet access and the like. This has not changed.

The bottom line is this: I’m asking that you try to find it within your organization or yourself as an amateur to continue this service. As we've said before, whether Amateur Radio Newsline continues to provide this service or if it disappears is totally your decision. We're here to serve
you for as long as you want us. Your response over the next several weeks will provide the answer.

The address for the Amateur Radio Newsline is Post Office Box 660937, Arcadia California, 91066.

Looking forward to hearing from you REALLY soon, I'm Andy Jarema, N-6-Tiny California Quake.

$300 is too steep anyway for any 2950, I dont care if it had gold
finals in it. I can get a 2950 off ebay for $75 if I take my time to
buy and do everything to it myself and it would do anything that one
would do..... plus some! :)

I get a kick out of guys who seem to want to turn everything up so
they can kill peoples TV's, phones and stereos. People like to hear
good sounding radios, not overmodupolluted crap.

Nope, never went to Daytona. Been to Bristol many times tho, it's
a REALLY fun track. 1/2 mile oval with really steep banking, ain't
a bad seat in the house. Went to the Brickyard in Indy twice, but
I don't like the obstructed view there.

Been to Sturgis? Thats another of my "trips I have to take". We have
been there, just not during the rally.

No not yet. I've gone every year to Street Vibrations
in Reno. I know plenty of people that have been there, but
I should get off my ass and make that plan and ride out there.

Oh that's old news. The guy that designed it
rides a Ducati, been a ton of articles on it.
Did you know he designed it on whim and a dare?
Then management saw the plans and said build it as
just a show piece. Since they showed it at the Detroit
auto show hundreds of people want to buy it now.

No doubt about that. I usually hangout in Virginia City,
where mostly old time biker are. Early morning and late night
all the women are hanging out the windows bare breasted or
flashing their butts out the windows ;-)

Yea, they are supposed to test it at the salt flats, dunno if
I'd want to be the test driver since it has a theoretical top
speed of over 400 mph. (not that it wouldn't leave the ground
at that speed).

transshark i used to know gay people that talked on the radio and we got along just fine after, and i do say after they came out of the closet....frankly i don't give a damn if someone is gay or not....it is their business....but don't try and play me because i can't be played......this sort of attitude was met with a certain amount of resistance at first but after a while they came around to my way of thinking and after that everything was just fine......we said hello and how you doin and all that cool stuff and then they got aids and died.......point is transshark if you want to do that gay stuff, then do it but don't try and play us , because we can't be played....just remeber a lot of times homos try and blend in with the hetero types in order to hide their gayness......so i have to ask you are you gay or not???? ....AKC4L..........

"Clairifier Mod"?! Why would you modify the clairifier on a 2950!?
About the only thing worth anything extra there is the tone encoder,
but only if you want to work 10m repeaters.

I must admit, I did do a nice job of satirizing the AKC membership, did I not? Yes, I wrote it. I admit it. BFD!

Original text, messups and all:

The whole story, up to now.. (Knock at the door) Aaron opens door wearing his skimpiest thong underwear Aaron: Hi Sparky! How are you! Sparky: I'm good Aaron. Is dinner ready? Aaron: Almost. In the meantime, you can snack on me, but we need to hurrybefore George gets here. Sparky:(screaming) Aaron! Will you shut up with the advances! I already toldyou I've started to like women now! Now leave me alone! Aaron: OK, OK! I just thought we could be like the old days again. Sparky: No, I'm really going to stick it out this time. Aaron: (sniffling) Ok Sparky, have it your way. I'll respect your wishes. Sparky: Where's George? Do we have to wait for him to eat? Aaron: Yes, he's bringing the salad. Sparky: OK. Got any snacks? Aaron: I think so, let me check. (knock at the door)Aaron answers the door. Aaron:(exclaiming) George! My God! What happened to you? George:(crying) I was just out minding my own business, following this littlegirl, and all the sudden, wham! Her Dad must have seen me and punched me. I hadjust asked if she wanted some candy too. I think I could have had her. Then theDad pulled out of the window of my Pacer, and beat me some more. I think hedislocated my shoulder too. Sparky: Can we eat now? Aaron: Sparky, can't you see George is hurt? Go get one of the steaks forGeorge's black eyes. And while you're in the kitchen Sparky, get some ice forhis broken nose and busted lip too. Sparky: OK, but I ain't eating the steak that you use on George's eyes! Aaron: OK, whatever! (Sparky spends fully 5 minutes trying to figure out which steak is thesmallest, so he can have the biggest.then finally he returns) Aaron: God Sparky! Why did you take a bite out of it? It's raw, for Christ'ssake! Sparky:(unintelligible mumbling caused by mouthful of raw steak) Aaron:(grabs steak from Sparky and applies it to George's eyes) There nowGeorge. Is that better? Aaron knows how to make you feel better, doesn't he? George: Yes Aaron, it's much better now. Thanks, you know I bruise easily. Aaron: Hey Sparky, light the grill. Sparky: Hey, those steaks ain't half bad raw! Do we really need to cook them? Aaron: My God Sparky! Sometimes you act like a Neanderthal! Light the damngrill! (Sparky goes out back, turns on the gas, clicks the igniter repeatedly, nothinghappens. Goes back inside for matches and returns) Aaron:(just as Sparky lights the match) NO! STOP! (loud explosion) Sparky: (screaming) I'm on fire! Somebody help me! (Sparky runs back through the house with his beard on fire, screaming for help.Aaron and George race behind him with teacups filled with water) To Be Continued Finally, Aaron and George manage to catch Sparky and beat out the fire inSparky's beard with the teacups. Sparky: Thanks guys! That was close! I saw my life flash before my eyes. Aaron: No prob Sparky. You know we love you. George: Speak for yourself, Aaron! Faggot! Sparky: Can we eat now? George: Well, we could if you hadn't blown up the grill! Aaron:

It's OK Sparky. We'll just grill the steaks on the stove. Sparky: I don't wanna wait! I'm getting dizzy. My cholesterol must have droppedbelow 300. George: Here, drink this. Sparky: What is it? George: Bacon drippings. It will bring the cholesterol level back up in yourblood. Sparky:(drinks greedily) Burp! Thanks George. George: No problem. Hey Aaron, you still have that "Little Girls Gone Wild"video? Aaron: I think so.check over there in the gay porn by the VCR. George: Faggot! (looks for the tape) Sparky: I'm hungry! Let's eat. Aaron: Just hang on a minute. Let me get these damn steaks cooked. (throws thesteaks in the pan) George: (tearing his eyes off the video) Sparky, get the salad and dressingready, will ya? I'm busy now. Sparky: OK, George. (Sparky sets the table) Aaron: How do you guys like your steaks? Sparky: Raw is fine with me. George: (rubbing his crotch while watching the little girl video) I don't care.Yeah, raw is fine with me too. Aaron: (mumbles) Damn weirdo's. Aaron: (grease splatters on Aaron's hairless chest) Ouch! George: Aaron, do you mind if I take this video home with me? Aaron: Sure, take it. You know I don't like females. George: (under his breath) Faggot! Sparky: Can we eat now? Aaron: Yep! Steaks are done. (Aaron places them on the table) Sparky: I'm first George! That's my steak! George: Whatever Sparky! Hell, I'm just gonna leave now. (grabs the video andheads for the door) Aaron: Where you going, George? George: Um.uh.I'm not really hungry now. I think I'll just watch this tapeat home. Sparky: Good! Gimme his steak. Aaron: OK George, see ya later. George: Bye To be continued.. Scene: Much later in the evening after George has gone home to watch his kiddyporn, we return to find Aaron and Sparky enmeshed in each other's arms. Aaron: Sparky, I knew you would come around. Sparky: Well Aaron, I kind of feel guilty.almost as if I'm slipping back intomy old self. I've really tried to kick this man habit, but I can't seem to stophaving feelings for you. Aaron: Well Sparky, I always knew we were meant for each other. Sparky: I only ask one thing of you, Aaron. Aaron: What might that be, Sparky? Sparky: All I ask is that you don't breath a word of this encounter to George. Aaron: Fair enough. I know he's a bit of a bigot. Sparky: Yes he is, but he's still my only real friend. You know, I can't countthe times that he's tried to save me when I've gotten in over my head on thenewsgroup. Aaron: I know Sparky, and he's done the same for me. I really love him, but Ican't let him know that. Sparky: So, we're sworn to secrecy, right Aaron? Aaron: Absolutely! Remember, we did take the AKC pledge. Sparky:(chuckles quietly) Sparky: (tentatively) OK Aaron, I'm all yours. Scene: Fade to black.

I don't want to get rid of anyone. But, "Mr. Comcast" will need to tone it
down a notch, or lose his account.

Where will you Pro-Coders go now? I have a feeling that all you against NO-CODE HF will like the new move. You may not like it now, but you will. If not, will you give up on Amateur Radio like several have stated they resigned there ARRL commission? There is no proof that anyone has resigned there ARRL Membership! Was it all talk and no action? You Pro-Coders are full of it and you know it. If it becomes a reality, I will be one of many who will get a membership with the ARRL to take the place of the grumpy old men. 55 years of age and older as the ARRL reported, so good bye!!!

Not at all. Are you?

Anyway, how's GW doing? Have you shown him the "Little Girls Gone Wild"
video yet? That part of the parody was prompted by you making lewd comments
about my daughter. Remember that episode? I do. Had something to do with you
wanting to sniff her bicycle seat.

Damn, dude! Gettin' a little testy tonight, aren't you? Why all the anger?

BTW, I have several friends here at TCPD, and in the Galveston County
Sheriffs Office. Got any names you care to drop? LOL!

Give Mr. Comcast a little info and he goes nuts, spinning in circles and lashing out impotently. Funny part is, I gave him the info, and he immediately goes Googling to dig things up, and can't comprehend things have been laid to make him the fool.

Don't ya just love it when a plan comes together? LOL!!!!!

Where will we go?

We'll still be able to run code where we do now, and will. If the phonies don't like it, they can move down the band where they belong. ;-)

And about the E-Bay thing with him, just do
not post that radios are modified, or that
amps are capable of being used on 11
meters. We all know what equipment
can be modded, and what name brand
amps are actually designed to be used
on 11. Without blatantly stating that they
are for 11 meters, E-Bay will have a
harder time of deleting the posts.

Dave, perceptions are funny things. Two people can drive down a road and see a tree, but while one person remembers the tree in one place, the other might remember it being someplace else, and the reality might be that the tree is not in either of those places. Yet you, in your determination to prove to the whole world that the tree you saw is in the place you thought is was, have not only returned to that empty field, but have grabbed an axe and started swinging away at thin air. In the meantime, a crowd of onlookers has gathered, staring in disbelief as they watch some nut-case (that's you, Dave) dancing in a field tripping on his ego. Relentlessly swinging away, undiscouraged by the comments from the multitude of generally reasonable people, you must believe that either the tree exists or that you are actually convincing everyone else that it exists (or both). If you had any brains at all you would realize how stupid you look, put down the axe and walk away. But you don't -- you just keep swinging away, much to the delight of many curious folks who have never seen a full-fledged loony gone berserk. They get their fill of this memorable exhibition of ignorance then leave, only to tell their children the story of Dave McCampbell, the fruitcake who spent years trying to chop down an invisible tree.

Swing away, TwistyDave! Swing away!

YAWN!!!!!! George is getting boring again,
same old rhetoric. Accusations, harassments, forges
you would think he would get tired of that. I was talking
some good skip yesterday, strange though, north/south
not the usual west/east.
I also see that George's fiction writing habits are
going the bizarre again.............

A few more weeks until the green flag drops!!!!!

How are you going to determin, if someone did take the CW-test to get the licence?
Doing like you announced will be a violation of the international Amateur Radio Rules.
Are you going to make no more QSO with hams outside US? Are you going to make QSO only with hams they gave you proof of their CW-examination?
Even from today on, you never can tell, if somone one the HF Bands did take the CW-Test. HF is not only for american hams. The majority of the entire ham radio world voted to drop the CW-requirement for getting access to frequencies below 30MHz at the WRC 2003 at Genever, and the american communications commission did as well.

I've got my license in 1990, and had to go the full way, 60 signs per minute, the standart in Europe. Now it is allowed to get the same licence called CEPT without CW-test. Nobody over here in Europe is angry against them who will get the ability to work on the HF-bands now. We welcome them and will help them to get used to the new spectrum.

What will you do, if you meet one of those GB, PA, HB9, OE, DL, VK and so on, just to name a few, on the portion of the band, which you call EXTRA-allocation-subband?

Please specify, and give a full answer.

Thank you, Mr. George Bush, WA3MOJ

This douche bag followed me here from the Browns football newsgroup.
He's the NG punch klown over there. The asshole is on a bunch of
depression meds and stool softeners. (he can't shit from the side
effects of the mind eraser drugs his head shrink has him on)

He's another one of my pets.

I'm not making any of this shit up, he posted it.

I give up. It's just not worth checking this NG any
more. Between the 'clowns', the 'anti's, and the other

doesn't stand a chance. Wading through all the garbage
to find the rare legitimate post isn't worth the effort.
I have no idea what the attraction is with the name calling,

Talking about a mans wife is real origonal, did you think that
one up while trying to un-pack in the shitter, stanley?

You were supposed to meet me at Kamms corner in Cleveland and
say that shit to my face, none to my suprise you then said you
were afraid of what I'd do to you if you showed up, and posted
that you wouldn't show.

Go find someone else to bother.

I got the holes thing covered, you need to find a hooker that will

It's original when she says it. Rather than thinking about me in the shitter, if I were you, and thank God I'm not, I'd be thinkging about ways to jack up my pecker.

Yeah.... (yawn).... typical redneck statement.... you can't deal with your inadequacies in the virtual world, so you resort to threats of physical violence. Go over to Iraq and try that schtick with the unemployed Saddamists, fuckwad. It's easy to be a hero behind a keyboard. Go over there and do it where it counts.

You nailed it Doc its Steve Parks, Randy
Chapman, and Landshark that are
responsible. Steve and Randy for posting
crap 24/7 and Landshark for being so
obsessed he could not stick to his killfile
like he said. You know Doc that is all it
would have taken is for Landshark to give
up his vendeta against "george" but no he
obsessed every day and even collected
a list of aliases he claimed "george" used.
I mean who cares how many aliases some
one used why get so obsessed about it
like he did and look now he has ruined the
NG with his childishness.

I won't be going anywhere. I'll still be operating CW in all the normal
places.

As for the ARRL. I will be staying with them also. There is a much better
chance of changing them from within, then from without.

Most of those so called goofs as you called them are the ticket
holders like yourself, but with an open mind. You and what army are
gonna get rid of them? You and Bruce? Bah, Have fun trying.

I have done no such thing, so maybe you should tell me why I should.

What I do say is that a copyright thief is still a thief, and is in no
position to whine about other people who he calls thieves.
So, I am speaking out against theft... and you seem to be defending
theft with excuses and diversions.
The words "personal use" will not get you out of trouble if you get
caught for public display of copyright material.

As you are so keen on "ratting" on "criminals", are you going to rat on
yourself, or wait until one of your victims decides to make you pay for
your crimes.

It just goes to show one thing - the "akc" are the criminals on this
newsgroup, copyright theives and repeater jammers... anyone want
to add to the list of crimes these so called "pro-legal" trolls are guilty
of?

The "akc" show themselves for what they are - criminals. While they are busy complaining about and "ratting out" illegal equipment, they are happily breaking laws themselves. When they are made aware of their illegal position, they divert attention.

If we didn't know better, we would think that they had no respect for the law. Wait a minute... we don't know any better.

I really would love to hear about them getting "ratted out" for their crimes - specially if it is done by one of their victims.
With copyright theft, there may be no set "fine" to rely on... the victim of the crime will go for a figure they feel is right as compensation, then you can add legal costs to that.

I think they realised that they couldn't stop the things coming over, they could only stop themselves from getting their "cut" of the action.
Money talks.

When CBs were first legal over here, nearly all our sets used BCD type PLLs.
Not because of rules here, but because that is what was available.

As the PLLs were based on the USA PLLs, piggy-backing has been used quite a bit. There is a UK PLL that will piggy-back on an old Sanyo BCD PLL used in the old USA 40 channel sets... giving our 40 channels on top of the USA 40.
Not that I would give out the info and wiring diagrams to anyone, just because they e-mailed me asking for it... that would be naughty.

Am I right in believing that America forced manufacturers to use the more secure chips? We had no such rule - type approval is based on what it does as standard, not what it can do once some smart-@r$e gets inside.

There are now legal marked CBs with more bands than the users know what do do with... just extra dead channels.

Beats me why they bother. Clearly, with all the sexual crud they post, legality is not their real issue.
I'm going to be a bit busy for a week or two so I may not be about much on here. E-mail will still get looked when I get time.

If that is so, then how would the FCC handle streamlining the
licensing. It is the FCC that wants this. The ARRL is the body that
has thrown in the NO-CODE. Everyone is putting this onto the techs,
what about the Advanced Licensees that will have a free hand out (in
your words) to extra? No one is bitching at them!!! Its all comes down
to the CODE either way you look at it.

A number of people ARE upset about the free upgrades proposed for the Advanced also. There's no reason that they should get them. They can get off their behinds and take the test. The focus is on the Techs not because of the code but because there are so many more of them than Advanced licensees and because the Techs generally have a lot less experience overall.

The FCC did not solicit petitions or initiate an NPRM of their own. At this time the FCC doesn't really care one way or the other about the code issue. There were 14 petitions thrown into the hopper before the ARRLs, several of which proposed no-code licensing.

No my explanation is not flawed. I started with no experience but STUDIED
and worked for each level that was required. I gained experience as I went
just as today's Technicians should be required to do.

By the way, turn on your spell checker.

The ARRL proposal will require a major rewrite of most of Part 97. This
will involve a lot of work for the FCC. The so-called streamlining will not
justify this major overhaul since maintaining a database requires the same
work whether the license class field has 3 possible entries or 5 possible
entries. Note that there has been no indication that the FCC has been
pushing for any additional streamlining of the system since the last

overhaul in 2000. For these reasons, the ARRL proposal (and several others that amount to major overhauls) are the least likely ones to go through.

The least amount of effort for the FCC will be to do nothing.

The second least amount of effort for the FCC will be to simply drop the code test for one or more license classes but otherwise leave them alone. The only change in the rules would be deleting references to Element 1.

I dont spell the best and never claimed to be. Techs have to take a
test like all other hams have to take a test. Only difference is the
level of examination. Your simple explanation here in this post would
support the NO-CODE cause as well. When you have the experiance, go
for it. Most techs can operate a simple HF rig unless they are total
dummies like Bruce and Dan. I dont expect a new tech to understand
ever function on a Yaesu ft767GX, but I can guarantee you that if the
new tech has had any experience with 11 meters, he would figure it out
faster than one who hasn't. So lets all keeps the New Hams up on
UHF/VHF to learn and get experience before we turn them loose on hf?
Now it sounds like your trying to say that VHF/UHF is not as good as
HF! What is it you phoney people want?

The FCC has made references to the Streamlining. It will be alot of
work in order to change the system, but in the long run, it will be
much easier to maintain. Think about it, they will only have to
maintain 3 groups of licenses, Novice, General and Extra instead of 6,
Novice, Tech, Tech +, General, Advanced and Extra.

It is very true that the easiest way out of this is to drop the code,
but drop it period for all Licenses.

According to the Commission's records, these devices have not received an FCC equipment authorization which is required for Citizens Band transmitters marketed in the United States.

3. Section 302(b) of the Act2 provides "[n]o person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section." Section 2.803(a)(1) of the Rules3 provides that ". no person shall sell or lease, or offer for sale or lease (including advertising for sale or lease), or import, ship or distribute for the purpose of selling or leasing or offering for sale or lease, any radio frequency device unless: (1) In the case of a device subject to certification, such device has been authorized by the Commission in accordance with the rules in this chapter and is properly identified and labeled .." Mr. Jonathan Edward Stone's (d.b.a. Omnitronics / Pacetronics) offer for sale of these devices violates both sections.

4. Mr. Jonathan Edward Stone d.b.a. Omnitronics / Pacetronics marketed these devices as amateur transceivers. The Commission has evaluated radiofrequency devices similar to those listed in paragraph 2 and concluded that the devices at issue are not only amateur radios but can easily be altered for use as Citizens Band devices as well. A CB transmitter is a transmitter that operates or is intended to operate at a station authorized for the CB service, and it must be certificated by the FCC prior to marketing or importation. The Commission has further concluded that these devices fall within the definition of a CB transmitter and therefore cannot legally be imported or marketed in the United States. See Response from the Commission's General Counsel to U.S. Customs Service dated May 17, 1999, 14 FCC Rcd 7797 (1999).

5. Additionally, dual use CB and amateur radios of the kind at issue here may not be certificated under the Commission's rules. Section 95.655(a) of the rules states: ". . . . ([CB] Transmitters with frequency capability for

the Amateur Radio Services . . . . will not be certificated.)" See also FCC 88-256, 1988 WL 488084 (August 17, 1988). This clarification was added to explicitly foreclose the possibility of certification of dual use CB and amateur radios, see id., and thereby deter use by CB operators of frequencies allocated for amateur radio use.

6. Furthermore, the Commission has revised Section 2.1204(a)(5) of its rules to prohibit all marketing and/or offering for sale in the United States of such devices even when the purchaser(s) had provided assurances that the transceivers are being bought solely for export. ALL DOMESTIC MARKETING OF SUCH DEVICES VIOLATES THE COMMUNICATIONS ACT OF 1934, AS AMENDED, AND THE COMMISSION'S RULES.

7. In addition to the marketing of the non-certified transceivers addressed above, Mr. Jonathan Edward Stone d.b.a. Omnitronics / Pacetronics is warned that Section 302(b) of the Act2, and Section 2.815 of the Commission's Rules requires FCC Type Acceptance (or Certification) of External Radio Frequency Power Amplifiers (or amplifier kits) capable of operation on any frequency or frequencies below 144 MHz. Furthermore, Section 2.815(b) of the Commission's Rules prohibits the marketing of External Radio Frequency Power Amplifiers (or amplifier kits) capable of operation on any frequency or frequencies between 24 and 35 MHz.

8. Subsequent violations of the Communications Act and/or of the Commission's Rules may subject the violator to substantial monetary forfeitures not to exceed $11,000 for each such violation or each day of a continuing violation, seizure of equipment through in rem forfeiture action, and criminal sanctions including imprisonment.

9. Mr. Jonathan Edward Stone d.b.a. Omnitronics / Pacetronics may request a personal interview at the closest FCC location to its place of business, namely:

Federal Communications Commission
9330 LBJ Freeway, Suite 1170
Dallas, Texas 75243-3470

which can be contacted by telephone at 214-575-6361. He must schedule this interview to take place within 14 days of the date of this citation. Mr. Jonathan Edward Stone d.b.a. Omnitronics / Pacetronics may submit a written statement within 14 days of the date of this Citation to the same address. Any written statement should specify what actions have been taken to correct the violation(s) outlined above. When corresponding with the Commission, case number EB-03-DL-253 should be referenced.

10. Any statement or information provided may be used by the Commission to determine if further enforcement action is required. Any knowingly or willfully false statement made in reply to this notice is punishable by fine or imprisonment.

I remember I mentioned some more enforcement actions would be forthcoming?
I couldn't say WHO at the time, but it has
come to pass! See below:

ENFORCEMENT: UPS TO THE FCC: YOU HAVE OUR FULL COOPERATION

The FCC has received a letter from United Parcel Service offering the company's full cooperation in removing any unlicensed radio equipment from its nationwide fleet. This follows a January 7th letter to the Middlesburg Ohio office of U-P-S detailing unlicensed 10 meter operations coming from delivery vehicles in that area.

The FCC also has contacted another trucking company, R and L Transfer of Norwalk Ohio regarding the same type of problem. Unlicensed operators coming
to the 10 meter band has been a growing problem around the world in recent years. (FCC)

And.................

there will be more!

Like I said, it does not make the system easier to maintain. For current
license class, the database only needs a single field. It doesn't matter if
there is a choice of 3 possible entries or 6 possible entries. It's a
single keystroke in a single field.

I should correct myself, it wont make the system easier to maintain,
however it will reduce the amount of paper work, printing supplies and
confusion at the testing site and printing facility. Therefore it will
help reduce confusion at the FFC offices.

asked for was a simple answer. It seems Dan, Bruce and Charles want to

Hmmmm.... let's see now.... the name is signed "Not George", the notory is fake, and the page isn't being used for any commercial gain or profit. Looks to me like the picture is used as part of a parody or joke. How is that not "personal use"? Because you happen to be on the butt-end of the joke? Even if the NAS decided to prosecute "George" for a violation of their copyright, they would have to show the damages that resulted from the use of the picture. What are those damages? There aren't any. And you should also notice that their copyright declaration is very explicit. So explicit, in fact, that I don't even think it would hold up in court unless the violation was glaringly obvious -and- there were significant damages. And if it -did- hold up in court, you would have to be prosecuted as well since you copied their legal page verbatim. So once again you live up to your name -- Hypocrite Landshark.

Ok, at the time I am a no-code tech but I am working on getting my CW so I can advance to General. I would prefer to go the "Old School" route as the people who got me into it also did. I think my 12 year old son is even challenging me on the CW. If I get it and my general, he goes and gets his tech. I got news for him. He'd better get ready for the CW cause when I take it, I am also going to take the Extra class in the same session so he had better get ready to go General pretty quick (laughing).

On the other hand, I think that it is good that they are trying to make the hobby more attractive so that more might get into it.

As a result, I do think that more "self-policing" should be practiced as in every crowd, you have a bad element.

Feel free to e-mail any comments about this posting to me.

When I was a kid, that kind of stuff was considered a prank, along the same lines as tossing someone into the "bradley" wash basin, or stuffing someone in a locker.

I was shocked when I saw the headline, thinking initially that the kid was "crucified". But after I found out that the nails only went through his clothes, I filed it under the "no big deal" category.

This sort of stuff is what builds character (boys will be boys). As long as it doesn't get taken to the extreme level such as what happened at Columbine or what happened at the football camp sodomy hazing case.

When you know the facts Bruce, then state upon them. All those that
are getting a Auto Upgrade are just getting some HF privileges. Big
Deal! You seem to be acting like your losing your whole lifestyle. If
it's that big of a deal and it causes you to bang your head against
the wall, maybe you should see a counselor or a Psychiatrist to get
some help with you problems. Apparently it is your mind that is going
south, not Amateur Radio.

N6RPI was able to do what he could to learn, In my position, I have to
listen to a Business Band Radio all day when in the truck so listening
to code tapes won't help much. At the home/office, cant concentrate on
30 different things, I have to be focussed on my work or it could cost
me thousands of dollars. Since you had the time Bruce to get your
code, You must not have had much else to do.

A truck driver that doesnt even have a CB in the truck, isnt that
funny! Your inteligence level is really up there with Homer Simpson.
It's about time you spelled moron correctly. How many times did it
take for you to learn that? I am a truck driver, but there is a
difference between the usual truck driver and myself. I own 13 trucks,
4 of which are car carriers, 6 wreckers and 3 flatbeds. What do you

I too would like the Old School approach, hence my name here. There
isnt much for VE testing in my area and it conflicts with my schedule
when one is in town. Therefore I have to work while I wait for the
oppertunity to get the time. Thats good you have someone to work with
as well. Not much here locally in the means of Amateurs on any band HF
or VHF/UHF. I wish you and your son luck on the tests.

It is a well known fact that there is at least one other amateur in
the area of an offending user. All it takes is some effort to protect
it. It isnt that hard to report someone. I dont like being called a
knarc, but damnit if someone is going to risk me losing my priviliges
for there actions.

I have been busy doing work and real life things that affect my living

I never stated that you said anything about coders being better than
no-coders either. Im not supporting a free upgrade, Im happy being a
tech, I am however supporting licensees being able to work HF via
phone. Cant do code while at work, Causes too much of a distraction
for other employees here. Your opinion about me being weak is noted
and trashed. There is alot of good that can come from this, More good
than bad if there is any bad at all.

Change happens and there is always someone going to get a better end
of the deal. Its a part of reality that we have to deal with and
accept. I accepted the fact that I have to pay extreme taxes and
insurance owning my own company, but the hardest part was getting it
all together and dealing with it. I dealt with it and I am happy that
I did. Some had to really work for code and some had it where code
came naturally, now we may not even have to do it at all. It happens,
times change!

I should correct that, not all CB'rs act like Bruce. Bruce is the kind
of guy that sits behind a microphone talking big and tough and will
never show his face. Most CB'rs I have talked to and dealt with are
nice and very responsible people. But there are some out there that
ruin it for the CB Community just like Bruce ruins it for the AMateur

NEWINGTON, CT, Feb 2, 2004--The FCC is working on at least two fronts to eliminate unlicensed operation from the 10-meter band. Earlier this month, FCC Special Counsel Riley Hollingsworth sent warning notices to two shipping companies regarding reports to the Commission that some of the companies' vehicles may be the source of illegal radio transmissions on the amateur band. One of the companies, UPS, has offered its full cooperation.

"Many truckers use CB radio, which does not require a license," Hollingsworth pointed out in letters earlier this month to UPS offices in Ohio and Indiana and to R&L Transfer Inc of Ohio. "However, any person using a radio transmitter on the Amateur Radio bands must possess a station and operator license." Hollingsworth asked the over-the-road shippers to advise their drivers that such radio operation could subject them to heavy fines and seizure of their radio equipment.

UPS Attorney Daniel N. Tenfelde last week assured Hollingsworth that his company was taking its Warning Notice seriously and has launched a full investigation.

"We discovered that some employees had obtained CB radios that contained a mechanism allowing them to switch frequencies into the 10-meter Amateur Radio band," he said in a January 28 letter. "It is not UPS policy to allow equipment such as this to be used in our vehicles." He said UPS' contract with the Teamsters Union allows only for CB radios. Tenfelde said UPS is working with its transportation and labor groups to let drivers know that such unlicensed operation violates both UPS policy and FCC regulations.

The February QST 1992 review of the Ranger RCI-2950 made note of its CB heritage and features--such as a "roger beep" and a public-address speaker jack. The ARRL Lab said it may be possible to modify the '2950 for operation outside the amateur bands. The RCI-2970DX was reviewed in QST for October 2001. The ARRL Lab said that using then-available information, it was unable to modify the '2970DX it tested for operation on non-amateur frequencies.

Times change and you are no longer a kid. Laws change. Living in the past and longing for the way it "was" is nice, but not realistic. Twas a time many never had to lock their doors.....and so it goes.

Disagree. There is nothing "character-builiding" concerning a forced physical act against one's will. Forcibly placing your hands upon an unwilling participant teaches character alright,,,,,of the criminal element.
Such acts of physical aggression are against the law and for good reason.

>(boys will be boys).

And some will be criminals. This is what I mean,,this is the mindest of Philthydelphia,,,,this kind of stuff is not only taught but avidly defended. Children do not take to violence as a natural act. They are a product of their environment.
The act was against the law.

>As long as it doesn't get taken to the extreme

The courts determined long ago this "level" you speak of, and they have distinguished such behavior as illegal and in violation of the law for good reason. Forcibly intruding and imposing your will against an

unconsenting individual IS taking it to the "extreme level."
Try that on an educated adult and see where it lands you,,,,,,in the most fortunate scenario, one may need a physician. In an unfortunate scenario, one may require an undertaker.
Then again, most educated adults know better than to forcibly place their unwanted hands on another's person.

No comparison to rape, either. The court recognizes such, which is why the laws and sentencing guidelines differ between the examples you offer. The acts can not be compared.
They broke the law with their acts, despite you disagreeing with the law. Many times in the past, condoning the breaking of selective laws has been vehemently attacked by yourself.

You are most definitely affecting lil Geo's twisted psyche, as he feels the need to keep score of such non issues (shrug). You giving up equals out (in his feeble mind) the notion that his "GW" is now on "his" side, whatever that may be.

"Honest"? Hell, Paul, you were shown to be part of the problem at one time,,busted, disgusted and can't be trusted. You were given an opportunity to explain yourself and you went and did what lowlife lids do when caught doing something wrong,,,,,you lied and had to be called on that, too, Paul. No loss to you leaving, Paul, IF that's what you are attempting to convey. Most lowlife lids that have told us they were leaving in the past have never kept their word. In fact, when one claims such, abuse of the group usually escalates for a while.

>Maybe that's what you were after to start with.

Maybe that was YOUR reason for starting your bullshit, Paul. Nevertheless, the group is a jewel of information for those interested in amp information, freeband information, dx info, contact info, repair info, mods and tricks, etc., and just about everything else cb related. Just because you are standing on the outside looking in (and rightfully so) doesn't mean the rest of the world is shunned in the manner you experience, Doc, but you're not alone,,,you have Geo and Gillinad and N8 and Lelnad as company....."team Voob."

Never heard of 2 meter CB, what is that? Have an 11 meter rig in the pickup, but thats it. I got 2 Meter, 1-1/4 Meter, 70cm, 900 mhz and 1200 mhz Amateur Radio with a FT767GX Next to them in the house. You know so much about CB, That make you the worst CB'r of all, the one that hides behind the keyboard and microphone talking crap. You shouldn't talk about what you don't know.
What does your medical company do by the way?

I like to hear the voices of those I talk to. You get so much more
hearing how they respond and react to certain ways others talk to
them. With CW, its like talking to a computer, just dead heap!

It's is probably because no one takes the time to explain why they say what they do. Hey, I can't deny I won't dislike CW, I just have no use for it at this time and don't feel I should be forced to learn it in order to go to HF. If and when I get to HF and I hear a few stations keying-a-way on CW, I will be the first to admit that I am wondering what the hell are they talking about? Give me credit here, I am interested in it, And I do know one thing that I haven't seen anybody say that shows I do know something about it, You can't send your voice through the CW or FSK modes.

None of us have said anything about throwing it in the trash. Some of these NO-CODERs are gonna get there code because of the mystery of code. It's like watching a scrambled cable tv channel, makes you wonder what is going on. I don't want to see code gone as in never used again. Keep it part of the Amateur Community, but don't force it on others. There is other ways of preserving code which I see on Field Day and Swap Meets also at Club Meetings. Keep it alive by discussing it and doing competitions like field day.

Got what? Being capable of doing another mode doesn't make you a more
capable operator than a tech! By your definition, if a tech operated a
CB, All the UHF/VHF rigs, A GMRS Rig, FRS Rig, A Business Band Rig,
that would make him a more capable operator? If you say no, then your
full of it, because I know you dont have all of that from post dated
back over several months ago.

Dang...something I can agree with.

You know something? I suggested the three license system a long time ago
to the FCC. And I also suggested a endorsement program. Such as for
various 'specialty' modes. SSTV, CW, Digital, etc. These would require
the applicant to show some degree of competence in those modes, such as at
a club.

It was totally ignored of course.

Steveo's the perennial bully, who took a constant beating from his alcoholic old man, and then took it out on the school kids who wouldn't give him their homework.

Sure it does. The more modes you can do, the more capable you are.
Don't have all of what? UHF/VHF GMRS FRS are all operating on FM and
channalized. Business band rig is the same. ALL THE SAME MODE AND METHOD
of operation. And I used to be a 2 way technician. I've done it all.
Not to mention working on, repairing, and installing of anything from mobile
to full flegged repeater systems, including linking, etc in the
commercial/government invironment.

CB is familiar to me also. But only from a tech point of view. I have
never operated on CB other than to radio check a radio I had fixed.

Have a good day.

You really think they are so stupid as to
believe you post from google, comcast,
aol, and voila? Why should anyone give them
a break and explain it to them if they are
dumb as a box of rocks. this is just part of
dumbing down of america it's shameful
that you want to hold them by the hand

LMAO!!! I said that exactly, he laughed and
accused me of having an AOL account, webtv, mindspring,
earthlink account when I told him that the screen nic
came via email with passwords. Man that was more than
three years ago and these maroons are still chasing their tails.

You are a perfect example of the class of people that will be found on a
No-Code Ham band. Jerks and Jerk off that are interested in instant

Odds are it will take the FCC about 2 years to make any changes (if they make any changes). If you practice 30 minutes per day using the free G4FON software, you should be ready to take the code test in about 2 months.

The FCC generally doesn't even see the paperwork anymore. The VECs enter it
right on-line. Thus there is no confusion at the FCC offices as they aren't
doing any of the work.

If Doc denies he lied and was caught screwing around, I'll gladly
respond to him wiht the proper thread and show him the error of his

want folks to know what a lying lid he was and what he was responsible

getting popped by ICOK for breaking their TOS and getting canned for his
unprovoked malice he brought to this group against cbers that were in no
manner bothering him whatsoever,,,,,predictably, Paul lied about it
claiming it was his ISP acting up, and had to be shown he was lying
through his teeth by a local near him who posted through the same

disappeared temporarily and when he reappeared, his IP was

- The Real Deal -

http://www.alternet.org/print.html?StoryID=17671

/ / But the Pentagon's OWN energy support center pointed out that it also was delivering some gasoline to Iraq - for only ABOUT $1.00 a gallon. THE PENTAGON'S audit agency then asked halliburton officials for internal documents to justify its pricing - but the officials refused. \ \ (Not Democracy)

Imagine this is why the bushite soldier states the Humans must not be allowed to disagree with anything the bushmob in Iraq does, because then we'll all know together how pathetically weak and cowardly they truly appear as criminally acting with such betrayals as an ungodly evil tyranny, without any true leadership to speak about. Robbing their own nation of America as immediate family in the process. Dying. All for intolerant war monger bush's hatred for the American dream, and contempt for all human good will as kindness.

http://www.alternet.org/story.html?StoryID=17671

/ / The Corps unilaterally issued a waiver of Halliburton's requirement to provide "any cost and pricing data." The Corps says it issued the waiver at the request of Halliburton. How convenient. \ \ (N.D.)

Just another PUBLIC bushmob act of sedition against the old red, white, and blue, to sacrifice an American Patriot as measured worthless with. So American Soldier, what are you going to do for US payers being robbed in the open by the bushmob in Your dying brother's name like that?, as one American Citizen censored from speaking publicly at length like all the rest of US are also in corporate america? Just try to air an American Patriots concern on american talk radio, and see how fast your rights are silenced by the witches, or bushite cultists Art Bell has no problem giving his National show over and over again to forbid any protest.

/ / Steven Russell said that "protests are not authorized and that participation in protests is punishable." \ \

/ / Steven Russell. "These People have always hated US in this area. It is not surprising that they hate US." \ \

He ain't kidding me he is completely unqualified to hold any leadership position. A real de-generative paranoid delusionist, mared likely early on from corporate neglect he suffers still from. He is what is referred to as a bigot, and likely therefor, a probable racsist. The 'area' he forces through threats of murder, are to demand this vision be no greater than his own. His own of equality being freedom by Justice Supreme doesn't stand his scrutiny as aimed for target. Bible or Constitution, all trash. Innocent guilty, good guy bad guy, he couldn't divulge as devote blind bushite, war criminal 'mastermind'. Oh by the way, truly, he breeds indiscriminate warfare as a bad soldier, while the bushmob are walking away with who's loyal investment. . . ? . . . The clock is ticking. If I can teach Buford and Steve with this breaker, they'll turn around and kill bush and rummy instead for 9/11 to make the newspapers. This is why a repuglicon doesn't like to feed early start programs, that way, Lt. Col. Steven Russell can pretend he's doing US in this world a favor, when really, he couldn't care to know if his ACTION would CAUSE the needless murder of yet another, Patriot American brother. Steven, you arrest Buford, and Buford, well you just go ahead and arrest Steven, and then... well, we'll take it from there.

Instead What?

Instead tell US as an antiAmerican bushite?, you'll murder US innocent for demon bush and rotten rummy?, regarding those free speechers who dare voice with FACT, that, Iraqi banking, university, or health care, is more intelligent to remain Universal as it was to serve the People's interests BEFORE baathist bremer sabotaged communications? The bushmob isn't bringing Freedom, but stealing it. And as such being consequence, so too, Amerka. Haven't you heard? Bush's Amerka will be freeer now that evidence is no longer a requirement to convince US who is evil incarnate, and protesters can be shot without CNN making the news over it. It's betterer I'm sure Ashcroft would say to torture or murder the innocent, that to arrest the culprits responsible for high treason in God's America. Right bushites?

/ / commander of the 1st Battalion, 22nd Infantry Regimen, Lt. Col. Steven Russell, as saying, "This is to remind the town that we have teeth and claws and we

will use them." \ \

What an evil dumdum traitor to the town of New York City steven russell is eh?

Imagine this is why the evil dumdum bushite soldier states the Humans must not be allowed to disagree with anything the bushmob does criminally, because then we'd all know how they ungodly as cowards behave; treasonously acting in such a inhuman tyrannical manner without true leadership to speak about. Ask an American Soldier who proudly states they wouldn't kill unarrested buford "bush bitch" blount or steven russell instantly to save the life of one innocent defenseless child, and I'll show you an enemy of America as just another expendable soulless nazi bush whore. (ten cents per I'm paying..) Let's all hope and pray a sexy rummy cluster dud dropped by bank robbing heroin pusher tommy franks does them in, instead of US good guys driving in the designated place at the right time bound for further criminal bushmob sacrifice as leaderlessly too weak and cowardly to stand up for 'the Human cause', eh?

An aside: Corporate Americans are publicly taxed twice as much per capita for their inhuman private health care exclusions, than Canadians do for public health care that measures every Canadian as Canadians. (The bushites are evil, and dumber than dumb I told you before the election, but your news agencies refuse to still listen to our top priority concerns regarding the demon antiChrist's murder rampages against American principles, and her citizens left uncapitalized.)

Think of it: the criminal bushmob will easily sacrifice a leaderless bushite nazi soldier, to steal from their own families back home undefended, maybe a nickel, while I, as a real man, beg them to be Soldiers from America's America, by getting to unarrested buford "bush bitch" blount, death squad recruiter tommy franks, or even baathist bremer as the actual enemies of true Patriots everywhere. At the same time, DEMANDING the start to promoting free fair elections, the solving of tommy's bank robbery, and the return of the stolen Humanitarian Aid giving illegally to double biller commi Halliburton.

But so far, they cower as cowards, afraid to protect their own family from further bushite tyranny that they don't have a mind to speak of. Nor, an Art Bell to learn from. (American Talk Radio don't wanta get political while advocating no concerns about dying soldiers led by the bushmob. Why? Americans seem to hate all of their humanity, or so the bushites would

like you to think so through censorship of the dying victims. However, I'm still holding out on the chances of one or two in the Marines as loyal to America, who will if they have to, bravely be taking down bush and rumsfeld immediately for escaping arrest regarding 9/11. You can fool some of the people some of the time, but bush can't fool all of the people as evil incarnate, for that would just be plain silly.)

Look, about all those bad names you thought I called you before, as a messed up son of a gun, listen, we all make mistakes, and... well, if your willing to work for the survival of Justice in America, somebody'll be proud to salute your Patriotism as Freedom truly reining. (Or perhaps the real Americans, to protect the lives of their blood brothers and sisters, will bravely demand the immediate arrest by gun point of the bushmob for 9/11, to be strong and brave, humane and godly. I guess we'll ask who is the sea, the demon antiChrist bush, along with Ashcroft and rotten rummy, or still We. - ba)

Communicating knowledge is powerful stuff let me tell you. (Roar!) A person can spend a lifetime of study in a branch of understanding, and write an illumination readable by another in just a few short hours, then take in a play or perhaps a movie, then the weekends over, and you better get back to work or you'll lose the house on this next late mortgage payment. I don't claim to have all the answers, but i do just about. Hidden in here somewhere...

Step Right Up

I know generally, American people ain't so politically aware, when it comes to huge amounts of living wasted by little scary, but far too distant as likely scenarios. Tell me what you think: can you imagine 10 billion dollars in one year spent to investigate Laden, (with perhaps only three officers in total working on those 'secret investigations'? [Connie Chung - CNN], instead of just dirt cheaply starting, with whom did what when where went why? (W199i and Barbara Bodine) Evidence must be crucial to convince US who is stealing literally, billions. Every year. (Where is some great King to wake up to this madness, and offer US an ever changing alternative I kept foolishly asking myself.) Look,. I know a bushite war monger's lying can spook me too, on how they manage to have no commitment to communicate honestly with the facts, while publicly advocating the indiscriminate murder of ourselves as the

innocent., instead of SEEKING solutions to remedy things with intelligence bringing kindness as it's territory. God is all great, and I'm not so bad either.

Of the blind human condition trying to thrive, G is the last Word on lethal threats to the innocent. Threats made by war criminals who have high-jacked America's White House, protected by dying as evil bushite nazi teen terrorists angers everyone truly. Enemies of our Humanity whom is still living art within Heaven. I genuinely dislike devote bushite, American cop killing cultists with everything I am of honestly, and so too, it does appear also, the bushmob could care even less for its disciples. For the demon antiChrist, Your Mr. Bush Jr., fools all Patriots when he tells them evidence of his treason. What secrets? He secretly planned and implements to not work for public criminal investigations regarding the murder of thousands of American People. Thousands. With Kissinger. What is it, that you as a bushite or otherwise, can't figure? None are seperate from this dying dream we call life's living end. Time to change your religious convictions on the true existence of a higher power maybe? (I am really very easy to believe in, and when speaking face to face, I leave little of no shadows to doubt I am simply a, super freak as Natural human Being. I scare few that shouldn't be, and I can't read anyone's mind, however, intention, is a whole other matter all together. You gotta be almost like a god to fool me into thinking one plus one doesn't equal two.)

Anyway.

America is still a work in progress, alive, willing, and almost able to defend by rule of individual rights by wHoly miGht. It makes absolutely no difference on what you think of me personally, (if you've finalized an estimation), I mean it, no difference. There are ideas as this Universe living would concur upon, timelessly, and see?, I know this as the Son of Man of anyone already, always have. (I don't need people to tell me I'm great as the Wisdom of Ages, I just need a few dollars to tide me over until I can get a steady paycheck.) I have no intentions of ever forcing the world against our ability, or getting elected as King for being just myself as a none-partisan, soft-spoken well mannered businessman. I am the actual make believe Lord and Creator of the bushite cesspool labeled America, and thanks for nothing is not what I'm demanding.

Letting the bushmob escape from committing the terrorist acts of 9/11, can not go further unanswered in this universe, I'm sorry. That's just not a world I as a defender of my living purpose would feel comfortable held up in chains and shackled ever. It's really not where I dream unbound along with the real world ways of life's struggle for true freedom, being my commitment kept honorably by doing some good for my sake is a virtue for all. God, American People are so ignorant, cowardly, and duped to not help ourselves sometimes, it destroys US, instead of the lying bush demon antiChrist. You know?, the enemy of all People, freedom and Justice? as a corporatist bushite cult deceiver would want US to not believe?

(nap break)

Can you believe that demon bush spewed last week that American Patriot Soldiers have been SACRIFICED because Saddam, ""did not let us in." Now, if he is that uninformed on Our documented reality regarding TRUTH in America, along with his now completely confessed absent war rational, will You, as an American Soldier, watch yet another corporately unspoken for Brother or Sister sacrificed to DIE in servitude for that super evil bush's bullshit continuing in Your name unchallenged?

DYING!

The David Kelly Story: Turning Murder into Suicide
http://www.globalresearch.ca/articles/THU311A.html

/ / When seeking reasons for the cuts and bruises on the scalp, chest and mouth, why is murder-made-to-look-like-suicide not properly explored? Presumably pathologists employed by the Home Office know better than to mention such a scenario. \ \

This whole Britain Blair thing is so disturbing when parlayed with the facts outlaid. Look, MI6 (C) confesses the 45 minute thane was really just based on how long it might conservatively take for the Iraqi military to get small caliber weaponry, like grenade launchers, to anywhere along the Iraqi border. (With an additional report alleging MI6 obtained those timings from an out of date Russian military manual. (Likely therefor, a bit of a brag)) If that is not 'sexing up' by the devote bushite Blair warranting his immediate resignation he promised, nothing is. Huge penis shaped nuclear warheads, as apposed to a sweet pea shooter aimed at space invaders? Hutton should be considered for treason when you think about the time spent privately reading the 45 minute, Weapons of Mass

Destruction thane over and over again, never mind the fact he is blatantly, nakedly, attempting to cover up the murder of a Brit. (The British can't be played as stupid collectively as bush's America, because they're not. Kinda like Canadians, Norwegians, the Swedes, Belgians, France, and most other developed, and semi-developed nations. Hundreds of countries, comprising near 7 billion People. (Thousands of millions wiser together, than Americans without public heath care) US: that Ashcroft, bush and rumsfeld dictate by ungodly decree, are not of true Human values when talking about protecting our Justice and Freedom ruling our ways.. into the mystic. With King Johnny somewhere partying not stop with women, wine, and song.)

Now, with this Chalabi debater telling US, no, it was him alone who provided the false information to Britain personally, in private, illustrates again, intelligence gathering among war criminals leaves little left to the imagination. Like imbeciler bush's Chalabi on the bombing of the UN, that he and his gang knew well of before it happened, but didn't seem to tell anyone who cared to listen?, that I'm aware of so far. Now, why do you suppose that would be Annan? Annan., be a leader and speak up for our political climate in Iraq for Christ's sake. Demand to know who Chalabi personally warned of the imminent attack before it happened, to protect such a dreadful reoccurrence happening as whomever. Asking our world to step up to the podium for Allah's sake would be a good thing to save your brother Saul, and our friend(s) future. Nudge nudge "Jesus says Allah is Gggggreat!!!"

I ask Humanity, shouldn't Annan, if anyone, be speaking up scientifically on American soldiers eating rummy's radio-active depleted plutonium, while being blowed up by landmine cluster dud? now that I come to think of it... how is this to fit in any public American school text book without mentioning the dying for nothing as evil bushites part? Can't fit without some revolutionary process of evolution to the betterment of America as dreamt of by big picture planning, no?

Now, can someone, at least, lend me some credit for the time being?

To you, for now,
I bid,
adieu.

"...defaulting as cowards into ungodly tyranny?"

Upon reading this with another go, I laughed, then when reminded of the results, I realized,. we haven't yet failed to please our forgiving Nature. (Or the great lovable, nothing to speak of) By living to do something good for this world, we hope we can bring happiness to ourselves, and in thanks, to the wonderment of what it is for you or me to be present in this living day. You must be alive as something special too, when you think about it in that phrasing. We are miraculously magnificent as God's free graces, and our possibilities are spectacular, if this true freedom justice thing catches on as vitally important. To you, I bid, a due.

Being as understanding as I am, I sense a
few might fear knowledge being told
as if one were sitting upon, Mount

you, that you treat us as
fair, as you, yourself,
would be included.

Ahem... When you get to be as smart as me, the world can seem in some need of our assistance. Now, why we haven't been able to articulate that until I crowned myself make believe king, simply, to ask some questions of myself mostly, I can't say either. But Jeeze, I so much hope we're able to become what we concieve for the better, because, then.. Wow! As ground fool Creator, I have dreamed of crystal clear drinking water, good food, and further, committing ourselves politically to a better world for all persons included. How? Arrest bush and rumsfeld for 9/11 as starters, and we'll take also the bonus of ending the fight of further terror wars for the war mongering evil, George Bush Jr. and twisted rotten rummy; who instead, will be behind bars awaiting public trial., for the murder of thousands of God's People in New York City. For, that demon antiChrist has no right to dictate to the rest as Earth's new chance Lord, for that would not be me truly.

...While we now learn from public disclosures on Connie Chung, apparently, George Tenant, had only 3 CIA officers investigating Laden just prior to 9/11. / / Except that the United States has absolutely no intention of actually getting out of Iraq. It wants its troops to remain, and it wants Bechtel, MCI and Halliburton to stay behind and run the water system, the phones and the oil fields. \ \

Never ever land more like. Imagine that: Arabic WorldCom phone bills, Halliburton gas bills, with the only store "legally" open to US public will be Bechtel, who will demand through bushite tyranny, you pay your wages for something unjustly over billed as, but put together at less than five dollars a day wages offered, being as the only jobs available through not publicly accounted bushite middleman directly chancing the whole country of America as undefended financially., extending "their" risk to do nothing; by the further needless SACRIFICE of MORE AMERICAN (bushited) PATRIOTS AS truly dying WORTHLESS WITH as da dumdums. Armed American Soldiers should be bravely going after Baathist bremer with DEMANDS for immediate democratic elections and the immediate return of ALL the stolen oil-for-food money to be spent entirely on priority Iraqi needs, solving the bank robbery, while considering to start printing up millions of invites for Iraqis to stay in America until the toxic waste dumped by rumsfeld can be partially neutralized., while we hunt down the rest of the evil bushmob, one by one, with the full extent of Law, entrusted to the Loyal American Patriot Soldier's Oath to do what is strategically right in our America to survive. Why do we do this? To protect our fellow Soldiers from sacrificing under lawless criminal command where a, buford "bush bitch" blount type, murders good people for no stated reason, but to toll more American casualties, while robbing all Civilization as fallen bushite victim.

No wonder the evil bushites are now leaving in the light, their Iraqi dis-investment plan, for the easier pickings of undefended COWARDLY America tax payers to

rob from. Again, more than half of the monthly 4 billion plus 'top secret' plan, plans to not account to ourselves., on costs of expenses doing nothing much of anything in Iraq TO SACRIFICE MORE AMERICAN PATRIOTS AS WORTHLESS WITH. (Apparently, they can't think this far due to the required math skills of subtraction and division.. Or, so the bushmob don't say in between Our commercial breaks on newscasts, or our acclaimed artists publicly blast during the, we're the best at this, award ceremonies.)

See the tragedy? The leaderless "bushited", American Soldiers are too weak or cowardly to stand strong as Americans for the needless loss of their very own by cluster bomb. It is From the get go, an American Soldier is sacrificed for, as the evil demon bush lies. Examples abound today like stolen money being wasted to fake fix things, really lives little damage undone. Or leaving buford "bush bitch" blount and the heroin pushing, child killer tommy franks unarrested, does little of no good for America's image abroad, when waring the bushmob "Freedom" medal, on an American cop killing cowardly bushite soldier's dying breast. A "Freedom" medal celebrating the ultimate escape of bush and rumsfeld from an American Patriot's wrath as the primary 9/11 instigators. (Say to a proud bushite, "General Ahmad funded Atta" and they run away as cowards, to play pretend like nazi savages who dropped bombs on US innocent irrationally to pay further costs in sacrifice to their false-deity unthinkingly.)

God or no God, I hate the demon antiChrist, corporate america's false-deity, Your unelected Mr. bush Jr., as much as any real Creator of this world, or any other should.

With such real inaction on old promises [lies] made by the dishonorable and dishonest leaderless bushite nazi savages, while desecrating all of Humanity by fighting against a just rule of Law, (instead of protecting America's America), forces the continued REAL WORLD sacrifice of true Liberty, until the bushmob gang is brought up by US for war crimes., as the 9/11 perpetrating, super evil as ungodly, demon antiChrist in disguises. (I very much would feel welcomed to play my part in those public proceedings.) Hmmm.. maybe CNN or CBC can become publicly convinced we should have our own news programs on what's truly happening?, to compete against the 'evil bushites' in this competitive free market place of ideas? Who knows..

Take care of the business, by getting US in on our

is America. You, as an American, have a sworn right to

demand for America, bush not be allowed to further miscarriage Justice blindly back to the dark ages, by not correcting himself on behalf of established publicly, where American intelligence stood, stands, and ultimately strives. Freedom is not protected by letting the "bad guys" go, to further toll more innocent lives for criminal sacrifice. Sometimes, the real simple things are over looked as profound meaning. The Magna Charta of 1215 states that a freeman should not be imprisoned. Simple right? Not for the bushites who side instead to faith in pope bush, who deliberately unminds a timeless universal principle that exists also in the 1700 B.C's, Code of Hammurabi, where all individuals are to be found equally under the Law, to be fair minded about our business. Simple right? No, corporate america says being fair, is not to care one way or the other between commercials., and the result? The available 9/11 evidence is not publicly disclosed as relevantly important, for Laden did the whole thing by himself, (bush, cheney, and rumsfeld said they know better than everyone else put together so don't even bother to form your own conclusions on your present state devaluating) case closed, now blindly pay your further tithes to bush, cheney and rumsfeld for letting the crime go publicly undetected, while with 13303, we will silently watch bush make himself tyrannical dictator over the rest of our Humanity, where he tells US, to escape, he will with evil american nazi bushite soldiers in tow, get this: not be found accountable to Ourselves anywhere by law to witness, or to an all knowing God even. Spooky, strange and somewhat disturbing, siding to show, bush really is dim-witted as archetypical evil incarnate eh? See? Civilization's Code of Hammurabi consists of 282 paragraphs, of which, the first line from the first paragraph translated states "If a man bring an accusations against a man, and charge him with a capital crime, but cannot prove it, he, the accuser shall be put to death." Your demon bush Jr. is recognized as an enemy of God not only by the Taliban, but since the birth of the Human condition.

The position Your Mr. bush Jr., the antiChrist, threatens against US all, (EVERY FAMILY'S MAN, WOMAN, AND CHILD), is one where, as murdering war monger nazi tyrant, he can with bush bitch traitor buford blount and bremer, deem any NATION of People, outside all the laws of the Universe, regarding our truer existence dying. My timing as Creation is impeccable, when you think about it. But don't think too much about nothing in your own defense while dreaming what is doing, isn't

really happening. The unjustified NEEDLESS continuing murder and destruction in Iraq by toxic bombings and the use of cluster bombs as landmine to really kill cowardly and ignorant American soldiers pirated as anti-American lawless God hating nazi teen bush bitches, then, with tommy franks to undermine the ORHA plan to rob the central bank, museum, and steal billions in humanitarian aid by killing more leaderless as evil godless american soldiers with, was in itself, a crime against Your Humanity., and bush along with rummy need to pay the Piper immediately, before needlessly, taking US any further as not truly represented lyrically to sing or dance about aimlessly.

The demon bush's life, isn't worth the sacrifice he makes of our opinions on Liberty, or our children's future.

The French 1789 Declaration of the Rights of Man and of Citizens, makes perfect sense when it states in so many words, that all People are born [anywhere] free in respect to their legal rights, Laden, and You included. But no, not by the evil bushite misrule. If a Human is not american, then the bushites don't need to follow the actual criminal leads to establish a criminal case rightfully against the accused, and instead, the bushites will blindly victimize our dying world as the disenfranchised and innocent, without true leadership present as spoken for.

By corporate america not working to understand Freedom requires our due process as our self commitment, means, a bushite nation guided by the flimsiest of allegation to deny the rights of all People falling as innocent victims, instead of nabbing the actual criminal masterminds who murdered Americans to steal Freedoms granted to US all by living in the know. So, I purpose a quick, let's get started, New World Constitution; anyone who victimizes the innocent intentionally, should pay a price by our political will, instead of ourselves censored, as the unconcerned bushmob victims. By our corporate news agencies encouraging the blind ungodly belief that evidence is no longer a requirement to convince US who is a criminal, is another bushmob war crime in the making, and a road straight to doom for everyone corporately devalued for bankrupt liquidation. Suspicion is the minimum, when it comes to bush demanding your blind faith in him religiously for indiscriminately murdering hundreds of thousands, while ignoring our Judicial investigations, so fraudsters commi Halliburton, can over bill even further, US tax

givers as the unwilling still paying. It was reported that seriously incompetent Bechtel, (who steadfast so far as america's corporately unaccountable, refuses to fix what they're currently being paid for by tax paying bushite soldiers DYING as COWARDS for the wrong side to blow up then pretend repair as), hires workers at five dollars a day, while billing US all as unworthy of consideration in the final tallies during news break. What can't you figure if corporate news america will forbid you raising concern for the life of an American tax payer losing out to war criminals who would murder New Yorkers for a fast dollar at your expense for further keeping silent? These words are freely your own to do as you will. Shout for Americans dying needlessly under the TRULY incompetent bushite lawless rule, or don't side to help a plead for mercy regarding yourself truly included.

Can the bushites possibly think, we're all not ever possible to stand together without a true Loyal President, or, make believe King named Johnny, on the facts firmly established regarding the treasonous war monger antiChrist lying to Patriots dying US as victim for?

America, I will now leave the rest of Our job in your hands for the time being.

Yours again,

Johnny Wizard

written into the National Intelligence Estimate:

"The NIE ...has the yellowcake story in it, had the

Washington Post defends Bush, Iraq war against Paul O'Neill's
exposures
http://www.wsws.org/articles/2004/jan2004/wash-j16_prn.shtml

/ / Until the middle of March 2003 Bush came before the American
public claiming that he had not ``made up his mind'' about war
with Iraq, that diplomacy would be pursued, that military force
would only be a last resort when all other options were exhausted,
etc., etc. O'Neill's exposures, including the existence of
documents, prepared months before the September 11 terrorist
attacks, that outlined plans for a ``post-Saddam'' Iraq and the

handing out of lucrative contracts, reveal Bush's performance as
a charade filled out with falsehoods. \ \

follow in the footsteps of Saddam's Iraq and demand payment in Euros

While the Newsweek report of February 24, 2003 was the first to publicize Kamel's testimony that the weapons had been destroyed, US and British intelligence (as well as UN officials) had had that information since August 1995. If you were not given a full account of what Kamel said before it appeared in Newsweek, your advisers should certainly have given you the whole truth when Newsweek did break the story three weeks before you sent US troops into Iraq to destroy those same weapons. If they did not tell you, heads should roll. If they did, it becomes necessary to explain why the information from Kamel had no apparent effect on your decision to launch the invasion. \ \

From Johnny

/ / ..then call
themselves heroes in my name after the carnage for
blindly dropping bombs from the sky on everyone.
Heroes? More like typical american nazi cowards,
willing to murder their own families as themselves, than
bravely put their lives on the line standing to protect
Justice as freedom for everyone, as to what true
bravery, and heroism has always been. While the world
watched CNN broadcasting, American nazi teen soldiers
celebrating joyously in contempt for God while singing,
right after the unreported dropping of thousands of
pounds of bombs on everyone in Afghanistan, body parts
everywhere, while knowing directly as individuals, every
single, there was no evidence offered that anyone there
was responsible for any crimes whatsoever, including the
Afghanistan women who worked for the newspaper, but for

to be victims of fanatic nazi american barbarity, disguised as human, like bush almost gets away with as pure evil deceived, now completely impossible to believe. Oh, by the way, I am now taking new memberships for al-Qaida.

As I say, there isn't a real man in the American Marines, or the Army willing to protect America with their lives, for if there were, rumsfeld and bush would be rightly dead for the murders continuing against those they know as innocent. As even with their continuing threats against more innocent people as American lives they brag to throw away as just soldiers, as all these other nations they try to make ready to sacrifice millions for, while propagandizing that our Justice we need not believe in to grant us freedom from oppression, nor evidence no longer a requirement to convince us who is evil, and who is not lying. Nobody deserves to be murdered, but a murderer escaping to recommit. \ \

Any being would not want to be deprived the rights to living, by living to not deny the same rights of others. (First commandment is a fundamental of understanding space-time reality, as it pertains to the politics of an actual sustainable World, indivisible, and eternal.)

To leaderlessly faith in tyrant bush's faulty public judgement to committing US to indiscriminate murders so he can rob Iraq of all her riches going nowhere he silently contends as an illiterate demon liar, exposes Your Mr. bush Jr. as unfit to preside in Anyone's name. I hate bush with everything I am, or ever will be as Human.

Who will care for your life in corporate america, where, with a silence of contempt through censorship, rob themselves as ungodly and criminal degenerates under the bushite doctrine of enslavement of their species? Know, that it is NO SECRET, Eason Jordan of CNN knows, (as too, Robert Habinovitch of CBC does too), about General Ahmad, and demon bush's 9/11 strategy existing in 'top secret' Presidential directives, written two days prior to the event of murdering thousands of Americans, a plan to blame Laden on as innocent of to secure invasion of Afghanistan for Enron. (Laden would plead innocent naturally, the Taliban would vote against persecuting the innocent until proven otherwise as Clinton learned,

while demon bush and cheney would privately plead to have our Police work halted, to attempt their getaway.) Both, Jordan and Habinovitich have refused OUR staff since the event of reporting the facts for our judgements, and side instead with not reported reasons like those given by irrational and dumb evil Walter Issacson, that CNN is forbidden to PUBLICLY report on the murder of innocent children by traitor tommy franks, because, you should remember how many people died in New York City. (Why not just murder more New Yorkers, they're closer?) Sure, it's stupid, dumb, and as evil as it comes, but Walter dictated policy, you as a CNN staff member had to comply with, or face the consequences of termination. These bushite censors of our top priority news interest stories are our enemies as traitors to the Human cause. Jordan, nor Habinovitch will give no reasons for publicly denying our police agencies protection, (PHONE THEM UP AND ASK THEM SOLDIER) hoping we can't see them not doing our jobs to protect Your freedom, while leaving the outstanding investigation officers left in the bind, on hopes bush'll disappear them, like they no doubt have plans to get those loose ends who directly know of their treason against God's America, and all that is Honorable and Just in our World.

Kill the demon antiChrist, Your Mr. bush Jr. American Patriot Soldier, and be loved by all as Saviour.

--

Where's the NRA on whoring as bush bitches?

American soldier, Your one true loyalty should be to America, not traitor bush to rob ourselves from. Remember: bush, he ain't got no public concern worth mentioning, when it comes to the whereabouts, of more than half the American tax payers expenses regarding Iraq's jeopardized security, now being sold off as planned to the bushmob at what will be, lower than going values. Namely, your own as measured worthless.

As American Soldier, in unbiased corporate TV america, your told you're willing to DIE in servitude as a thieving bushite slave without question, a blind loyalty and obedience, not to a Just God mind You, or the Battle Hymn of the Republic, no, but to worship the demon bush in a destructive cult-like ignorance that does not even afford Your costly ongoing sacrifice, the luxury, of telling US why corporate america refuses to scientifically report on your actual consuming of MEASURED microscopic radio-active heavy metal TOXIC

waste, that includes plutonium in trust, to 'bushite' your dumdum evil comrades you'll kill with especially, or to being blowed up to smithereens by sexy rummy's cluster duds. Mr. franks and bush bitch buford blount State it is of little or no concern to corporate americans how many bomblets were used, or where they fell to kill women, children or US Patriots with, for, the glorious bushmob will take a few extra bills payable from America to the commi business partners that way for including You in indiscriminate mass murder, see?, and none are the wiser. American Patriot Soldier, repeat after me: "A proud bushite nazi soldier is a dead bushite nazi soldier halted from harming our innocent sons and daughters." Or, AGAIN, corporate america's public refusal to speak up for 'The People' (soldiers included) paying the almost half of Iraq's monthly bill going mysteriously vanished in rummy or bush's war crime pocket... Who gives a toot where it is all going wasted right bushite?, it's only You or yours who could go as the innocent in God's favor still being sacrificed next.

Look, as the very old tales tell repeatedly, the lawless Satan wager, to somehow without knowing how, become omnipotent ruler as tyrannical dictator of this forsaken World, leaving US ALL including Johnny, deprived our rights to justice and freedom, and instead, to the lot of US, be ACTUALLY put up on a cross to die again metaphorically for unarrested bush to continue example with, as an illiterate barbaric enemy of "The Man", just like, isn't going to happen in this lifetime. I ain't no fictional character, and as true blooded Patriot, hate the bush demon war monger during breakfast, lunch, and supper. And besides, I'd personally kill bush first before that neither world tried. Trust US, G, or I single handedly as a man, will triumph over traitor bush's criminality, as the American cop killing 9/11 perpetrating war profiteering savage he is as antiChrist, it's just, will you like Talk Radio in America censors, and rich CNN celebs readily encourage, silently continue to watch your fellow family murdered for bush bitch buford blount, and still refuse to voice objection nor take any action in defense of all that is Our World truly suffering as Yourself included? I despise bush like every alive person who would read this is.

Refuse to speak for Your own freedoms truly pirated by bush, and you'll likely continue to lose out really like America currently is. Refuse to help our desperately pleading God you know being victimized in Your name truly, and you will bare the consequences of being

forsaken. Maybe even, towards an end you'll declare, someone else has forsaken you, when it will be only yourself to blame for not speaking for all those denied their happy lives through the brutal criminal tirades of the demon antiChrist, Your Mr. bush Jr.. Again, this will never change: We had complete co-operation granting one hundred percent access through Iraq without delay, prior to bombing any of Iraq's public sector with toxic waste that contained US People. Every Iraqi child murdered served no good reason or purpose but to war God's love, and my good name. And, still today, that unarrested evil demon tyrant dictator, still chooses to sacrifice many a soft spoken, slow footed American Patriot to, so far, too few bushite nazi dumdum losers. In addition: We have also learned, Iraq had granted surrender of Iraqi assets to give to the war criminal bushmob, if they would forego the needless indiscriminate murder of easily tens of thousands of innocent families, (like dropping cluster bombs into our residential communities), but war criminal rotten rumsfeld refused because he had already PERSONALLY set up hundreds of illegitimate targets that would, kill primarily only innocent people while destroying public institutions, and bring home a few extra million American payments, tax free.

What more could Saddam do that he wasn't asked for? I beg you to kill the demon bush on behalf of our humanity, and on behalf of the rare American Patriot who will get rightly confused as, bush bitch buford blount's thoughtless nazi teen savages. The anitChrist must not be allowed to survive continuing such heinous war crimes against our being, and myself as the no longer reluctant standing eternal King.

Listen to witness, America's corporate news celebs will mention it is of no concern to You as the unjustly robbed from and dying for the demon antiChrist in sacrifice. Look, I as Christ too, would destroy any cowardly proud bushite nazi teen soldier victimizing my innocent family irrationally, as most, if not all able-bodied men of our world would also if forced into a decision to defend our lives from the likes of a bush bitch buford blount, or a bomb wherever death squad running tommy franks heroin pusher, but I'm told through my faith in the power of myth, the military should have one or two brave and godly Patriots still idly standing around, who would willingly chance to uphold their sworn Oath to protect their country and family, like with the American Constitution's Bill of Rights, and Justice everywhere by protecting the falsely accused, as could

be, themselves, they should know now, or soon will be learning of the other way. A proud nazi bushite savage, is a dead nazi bushite savage halted from harming our innocent families irrationally, and low and behold, a good nazi bushite savage is easily found as an enemy of ALL Humanity and God, hiding as nazi vermin in the pirated, bushite military uniform, not true Americans, but enemies to US all, which includes their selves they pour toxic waste on, while the bushmob robs their 'smart' family back home, undefended, neglected, and wounded like Christ was.

Your Mr. bush Jr. is worthless to this world as a hater of American freedom to not arrest himself and rotten rummy for murdering US New Yorkers on 9/11.

All I'm looking for in this world, one human enough to join US equally as a Loyalist to Humanity, and to do everything we can together to destroy that treasonous 9/11 perpetrator, corporate america's so very deeply hated and despised this entire Universe over, Your Mr. bush Jr.. To not bravely kill or immediately arrest the demon antiChrist along with rumsfeld the rotten, sets enslaved america tracking further down an old worn path of History, as enemies of not only the good Iraqi People bush and bremer whom openly rob from now without apology while giving out cheap candy, but of US all truly in the bigger dream without bindings. It's like bush is waging his demon war with every political body that believe evidence is a requirement to convince US who is evil, or criminal, an wallah, as if by some Supreme Will, the Son of a Just God named Johnny really comes down to our levels to raise a simple awareness through one hell of a, big time collecting plate. (Every proud bushite nazi bagged, I'm willing to pay the good deeder, ten cents per..)

Fear not my friend, the fascist bushite shall be lost by our universally wreathed good guy plot line. An evil bushite now irrationally fights against everyone's freedom for a war criminating ungodly tyrannical evil power that persecutes the innocent with murder, or torture to steal our, sworn to uphold eternal values from. If I don't destroy the demon bush antiChrist in Our defense with this last breath, someone else will, and our faith in God will with hope, find a love truly honored with respect and gratitude for being so magnificent. Never again, left vulnerable in my name as undefended to be victimized for a war monger's consequence.

Let US get out there and bag US the bush demon for God,
or the Lord, Allah, or just Johnny, instead of
victimizing Catholics, Muslims, Jews, or Atheists, along
with all the rest as a Palestinian truly measured,
encompasess everyone.

Again, by denying the rest of US as Humanity Justice,
the bushites need advertise between commercial break

criminal 9/11 leads folks, because the crime they say
wasn't committed by true American values. Go on along
bush, cheney, and rumsfeld say, pay no attention to our
evidentiary findings such as, the American FBI's
documented contention, that bush's business partner,
General Ahmad, funded the 9/11 'mastermind' Atta, or the
CIA's, regarding bush LYING in America's name about
Niger (TREASON), or MSNBC's almost Biblical Revelation,
about the bushmob having a signed and sealed, 'top

secret' war plan to not follow the 9/11 evidence to secure invasion of Afghanistan for Enron, at Condoleeza's desk, two days prior to the terrorist act taking place, of which when confronted, confessed as fully implemented by the Whitehouse. A 'top secret' plan to blame Laden on a crime they wouldn't actually try to arrest for with evidence, a plan arranging that would find bin in Afghanistan pleading innocence with the help of bush's partner again, General Ahmad, a crime of such magnitude, it would 'justify' a war mongers criminal invasion to thwart Enron's impending CRIMINAL bankruptcy, THIEVING FROM MOMS AND POPS, to then, ATTEMPT, to close the surviving, armed with knowledge for good reason Police investigations. All of this setting a lowly nazi bushite war criminal, frothing publicly at more than six billion + of US, to state without opinion, that We, as Humanity, are no longer afforded God's GIVEN Human Rights to defend ourselves, nor is the criminal dictates of the demon antiChrist accountable to any rules of law. Universal they publicly quip, as the not-so 'secret' ungodly bushite doctrine of tyranny as enslavement of all that is Righteous and Holy in this World, because, hey, there is no God to speak of... and the King of kings, Son of God fellow, well.. that's all just ninepence fiction. No, WE, as all the make believers of this World, will no longer have ANY legal recourse to defend our own loved family from being stolen from through a bush bitch buford blount doing whatever criminally with dumdum loyal nazi teen bushites leading to sacrifice for, for demon bush dictates his corporate american bred bushite nazi teen leaders, can not be held to a code of conduct, distinction, or honor. That's the bush world now you'll except without say. As an American, you're forfeiting your rights by not saying anything to protect those falling murdered in evil bush's name. American Talk Radio is waiting for your call to be hung up on.

All Nations outside of America are a politician's friend, and nobody is going to vote to incriminate ourselves for something we would be innocent of. For bush, Ashcroft, and rumsfeld to contend, humans outside of bush america's border, are no longer afforded the rights of being, and bushites can rob our Universe and there is nothing anybody can do about it, isn't going to sell well anywhere. The criminals have enough of a time not getting caught for the things that they do, and almost no one but the lifeless, would stand silently with bush while needlessly murdering ourselves as the innocent.

See?, when bush bitch buford blount murderers innocent people, often their surviving friends and family take it out by killing bushite soldiers that mindlessly follow bush bitch buford blount's criminal command. And, why shouldn't we? The unarrested bush bitch buford blount confesses to murdering thousands of good honest People, for no objective, but to let the bushmob rob even further more children from US all. Kill bush for the love of Jesus, please.

Notice to the World: Literate American Soldiers have not voiced written objection to my writing, (us.military.army) but for the exceptionally rare bushite nazi savage, who sorrily slack, others shouldn't be allowed to tell the truth about polls, 9/11 criminal investigations, or bush and rummy getting the Patriots murdered for pension thieves and heroin pushers to tyrannically profit at our devolvements. Encouraging US to continuing in bush's name getting robbed and murdered irrationally? no rights to defend ourselves from crime in a court of law they say?, without a God, or any reason for love of this world whatsoever? The bushites think that they can first degree murder our world's women and children, our freedoms as Justice for US all, and miraculously, as the result, will bring our entire, dazed and confused World to it's knees as the whore of Babylon. Indefinitely. (Not like a real Whore mind you, most crack-addicts, and even some G men, hold limits on how far they'll go victimizing the innocent to glorify a blatantly evil and ungodly enemy of all that is good and righteous in this world.

Anyway.

The CIA, and the FBI are surely in agreement with US, on this indivisible Justice thing. The quicker bush dies as unarrested traitor by the hands of a true American Patriot, the sooner an explanation will be demanded as forth right and coming.

Again, American soldier, wake up, and kill bush for sacrificing your friends and family to die as cowards, too afraid to stand with God in defense of the once great American flag. My America, is the land of the not so stupid, and brave enough to kill unarrested bush and rumsfeld for 9/11 almost immediately, or any other war criminating enemy of America fighting to not have our Justice served by nabbing the true 9/11 suspects.

This is what bush needs to be immediately arrested on for his Niger claims, if you see him not behind bars awaiting public trial, do the American Police force and soldiers everywhere a favor, and kill the escaping demon bush for the love of Your life wills it.

By protecting the demon antiChrist bush for continuing in Our names to rob from Humanity by breaking American laws willingly, will now be a public declaration supporting crime against our betters. I will not stand motionless while bush and rumsfeld with bremer persecute school teachers not guilty of criminal offences, while pirating Iraq's wealth for Dutch-Shell, Worldcom, and double billers, commi Halliburton, all the while, feeding American Patriots radio-active toxic waste to die as losers. Think Patriot.

Arthur MacArthur "Those forty minutes when I defied my orders, were the keystone of my career." A career that would lead him to the highest rank in the United States Army. Saving many lives he did by doing so bravely.

His son later, defying Hoover, smashed thousands of American WWI vets, who were demanding their promised checks to save themselves from starvation. Winning he did, corporate banking's recognition and praise as a savior of the american way of life, and The People?, they ate it again when in 1950, at the age of 70, defying Truman, launched a win sumtin at all costs attack against China, that quickly during the unreported stupid needless slaughter of countless American teens, forced Truman to concede defeat by begging for a immediate truce with China while firing MacArthur, who came home to giant demonstrations of love and affection for sacrificing American lives forgotten to the accolades of corporate america's unsung hero.

This is why I plead with armed Americans to kill the unarrested bush for the love of children everywhere. Look, we know directly who the bushites are who PUBLICLY advocate the murder of innocent People through corporate censorship, who support furthering the demon antiChrist's senseless crimes against my America, and our World. Example: You'd think Art Bell figures none of his listeners could in no other way, learn of traitor bush murdering thousands in New York City, and his contemptuous silence on the issue forbidding anyone else from publicly mentioning it. I have dominated alt.fan.art-bell for years, while Art Bell, like Canada's Peter Warren, will continuously advertise open line calls, but abruptly end calls topicing on KNOWN FACTS surrounding their evil false deity bush, 9/11, Iraq, depleted plutonium, Halliburton, and the deaths of our innocent lives fallen to their personal inaction depicting our community as uninterested. Art Bell in FACT has pre-screened his "open line" calls since bush stole power, and does so, to make appear Americans aren't clued in, on the now hundreds of thousands of innocent lives bush has murdered as war criminal. A good nazi bushite, is a dead nazi bushite, halted from advocating further war crimes constituting the murder of our innocent families. The dumdum bushite parasites have been PURPOSEFULLY blowing themselves up with mined cluster bombs as suicide bombers! Not dying for any noble cause, but to only further toll more American Patriot lives. We should ask all soldiers, who are they loyal to, the 9/11 perpetrating American cop killer bush, or the People's America, as so enshrined by the Bill of Rights, and true Justice to actually protect the freedom of US people by following a leader?

These OUTNUMBERED and OUTGUNNED nazi bushites are indiscriminately bombing residential communities with radio-active toxic waste for nothing but to please their evil false deity, Our Mr bush Jr.. No rational reason but for a hatred to Your Humanity, and God if you believe.

Example: that evil nazi terrorist buford blount confesses to murdering thousands of innocent Iraqi People for nothing, no reason he proudly professes as

wicked evil heinous traitor. Think of the lives You could save Patriot, by justly killing the unarrested buford blount, on hopes a person to take his place could at the very least consider being honorable in defending Your America? Demon buford blount is truly the enemy to American soldiers, for, if your family was murdered by buford blount irrationally commanding mindless bushite soldiers for nothing but to further rob the dying American tax payers, would you not too, spend your will hunting the evil nazi fuck down personally to spare further another innocent family suffering? To kill the unarrested unAmerican buforld blount is to stop him from ordering the practically dead already, nazi dumdum treasonous bushite brethren teens, from victimizing again US as the innocent undefended.

While CNN still insists it's better for them to misinform and ignore, than to expose the demon bush as the true target for any Patriot's rage. American soldiers are being sacrificed to die for no known good reason, but for bad leadership as evil bushite war profiteers.

The best evidence to kill bush quickly.

Demon bush "These terrorists target the innocent, and they kill by the thousands. And they would, if they gained the weapons they seek, kill by the millions and not be finished. The greatest threat of our age, is nuclear, chemical, or biological weapons in the hands of the terrorists, and the dictators that aid them. The evil is in plain sight, the danger only increases with denial."

Remember: Demon bush doesn't forget signing his soul to the invade Afghanistan plan by not following the 911 evidence, but would top secretly attribute to Laden for blame, authored by himself, rumsfeld, Condoleeza, and General Ahmad two days prior to the public event of murdering "thousands" in wealthy corporate America, a secret plan that has been confessed publicly to US as fully implemented by the White House right from the start to Jim at MSNBC, months after the fact when the demon antiChrist was caught with American blood in his breath.

Not to follow the criminal leads surrounding evil bush as mass murdering antiChrist, is what the White House confesses to Americans today as official policy under every circumstance. Karma. Demon bush tells corporate america that they'll persecute the innocent in any country by denying our fundamental human rights of Freedom and Justice, while now dropping 2000 pound bombs in God's World containing children, while corporate nazi bores, report in judgement of the great King who MAY have cuddled some cute boy! Jackson has given so much to America in stone, and in return, the corporate news nazi bushites sit condemning a great man whose open vulnerability gives him his wondrous strength and power as true American artistry. While these very same treasonous corporate bushite news anchors refuse to report on tommy franks running death squads against school girls, Guantanamo's Taliban's Girl School teacher Mozam Begg whose family served proudly for generations in the British Military, or tomorrow if YOU don't help US speak out publicly, continue refusing to report the general murder of civilian populations by the godless evil nazi bushite traitors. A good bushite, is a dead bushite halted for advancing their murder rampages against our innocent families irrationally. Demon buford blount, who runs like the nazi coward he truly is from my challenge to a death match, confesses to murdering thousands of US People for no military

objective, but to get killed those that serve as bushwhored slaves under him to take his cowardly place instead, a die hard bushite nazi traitor. No government in Iraq would give WorldCom and Halliburton a blank check because they care too much for The People, nor certainly would they not, steal helpful Humanitarian Aid from poor people to pay the fraudster commi double billers, Halliburton again, nor either or, dump radio-active toxic waste on themselves to help bush's re-election campaign get off on murdering Americans for financial pain as God betrayers to US all. KILL BUSH NOW! Remember: a bushite soldier hides behind an American uniform, while knowing the bushmob has likely robbed their very own family of their savings and vital protection. Weak and cowardly, stupid and murdering innocent People for the demon antiChirst as their false deity parasite they are dying for TODAY as. I HATE bush as much as any real man would. The bush demon sells his Satanism by offering NO skills required to be dishonorable and dishonest, no reading newspapers, or feeling the pulse of the plundering nation required while ransacking the faithful. While these corporate news experts and CNN and CBC censor pleads from Humanity paying the wages of evil bush's wars against freedom and God, Justice and America, denied our corporate news coverage to be my primary lonely concern mostly it seems sometimes, as too, how terribly it truly is for life whose love isn't appreciated by our will anymore as the living in america, oh yeah, I mean America.

As an American then, what life will you forsake where bush'll rob you over and over as the never living for something better? These american bushite nazi fuks, think your gonna wash their feet, and instead of defending yourself and family, just turn the other cheek right before the bushites drop a two thousand pound bomb or two on your innocent neighbor next door? Done for nothing but feeding the bushmob?, as unarrested buford blount contends in God's presence? Then to think, buford blount figures I as a real man will not seek him out one to one to the ends of this universe for payback.

What can God do to help, if your refuse to help yourself? The true danger to America increases with American doubts on bush's blatant, true naked evilness, or humoring God as Johnny, and betting on yourself for a change by supporting me as the time being? Look, what could you do for your freedom, when I demand the pursuit of Justice by following evidence to truly protect this World we share? Support my demand to raise the news media's ignorance on what you shout even louder?

Think this: demon bush makes no public mention of where
almost half of the monthly 4 billion dollar tax payer
bill is quietly disappearing while grandma loses her
cable television, or only grandson? Is that Leadership
I ask every American Soldier to be brave and forward
this letter on terrorism to your fellow comrads
secretly. Then, we'll see...

Jail for Bush: Holding the Greatest Traitor in American History

The money for reconstruction is being misplaced as stolen, while
corporate america demands bush not be held accountable.

American Soldiers, you'd think, wouldn't stand for it, right? It isn't
Art Bell, or Bill Hemmer who's paying with their lives, but a poor,
dumbass soldier along with the general tax payer, whos ignorance is
ignored, sacrificed, as not relevant to Art, or news worthy to Bill. I
will send this email like most others to Art, and maybe I'll phone up
Bill again to remind him that the FBI states bush's business partner,
General Ahmad funded Atta, the 911 mastermind. But you know what
they'll say as traitors to your America? Nothing but hang up on You,
while pretending we have no concern for the senseless murder of our
families, or the robbing of American principles.

The bushite soldiers don't steal the Humanitarian Aid for themselves,
or purposefully let the bushmob steal their parents pensions, no, they
do it blindly to please their false deity, the demon bush Jr., because
their weak and cowardly, stupid and truly dying... Not for America and
freedom they die, but for the antiChrist, Our Mr. bush Jr, the most
hated and despised war criminal of history.

Officers fault air strategy as ï¿½timidï¿½

at Central Command, responded by saying, "We don't
discuss plan specifics for reasons of operational
security. However, I can tell you the plan is
comprehensive, modern and flexible, and Gen. FRANKS

...The officers said the plan deviates in significant
ways from the 1991 38-day air campaign during Operation
Desert Storm, in which telephone communications, power
systems and bridges were targeted from the first day to

isolate Saddam Hussein and his military forces.

The reason for the change: The Bush administration wants to spare hardships to Iraqi civilians and to show that the real target of the bombing campaign is Saddam. \ \

GET BUSH

So, to IRRATIONALLY target the telephone exchanges, power grids, water dams, pipe lines, and residential communities with thousands of toxic, radio-active cluster bombs to blindly murder a person like You, (that would later, blow up nazi bushite soldiers by landmine), would be considered TRULY evil by demon bush standards too?

Why does Johnny call the huge war criminal traitors puny dumdum bushite soldiers? They die truly as cowards for the demon bush liar, being enemies of God and Humanity, because prior to the war, (as outlined on March 7th), we had completely unrestricted access to go wherever in Iraq, without delay. So, demon bush sabotaged America's ability to effectively disarm Iraq, and to bring peaceably, freedom in the region through JUST causes, all so he could STEAL further the lives of AMERICANS by continuing with his murder rampages against the innocent. We remember, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused to publicly condemn Universal health care and education, along with what has been described as Humanity's greatest food distribution network. Instead, bush sacrifices bushite soldiers to steal OUR Humanitarian Aid, to double pay commi Halliburton, an american company found repeatedly by Our ARMED Police agencies, defrauding all Americans in criminal contempt for the People payers. All the while condoning the torture and enslavement of those known innocent still, but beyond american borders as our Humanity. Morally equating the rest of Humanity outside of Universal Justice as US fairly represented? Mr. bush tells God his plan is to victimize Humanity in America's name, by hiding behind who's flag again?

Destroy the war criminating, unarrested American cop killer, our offensive Mr. bush Jr. instead my friend, and be thanked by God in person.

Look, Mr. bush, rumsfeld, and franks have STOLEN food and medicine from Iraqi children by confiscating

"Saddam's Money", and, it is now publicly understood that tommy franks, sabotaged the ORHA plan to create insecurity and chaos so to rob the central bank of billions. For tommy and his private banker friends to do this, he as a bushite had to sacrifice the lives of LEADERLESS American Soldiers as too weak and cowardly to say, "For God's sake, I'll wise up and destroy bush and rumsfeld myself instead to defend my loyal Brothers and Sisters I will, till the end, giving of everything for a life worth living", at least that is what a truly proud American Patriot who fights gloriously for a just battle as the good guys would. Instead as the dishonorable bushites, robbing blindly themselves and their own dying brethren, while bombing our homes with radio-active toxic waste, that contains among other things, deadly plutonium. Enemies of God as the bushite disciples.

Wow! Wouldn't it be cool if America stoop UP and destroyed the war criminals bush and rumsfeld by simple supernatural Human Will power?

Tough luck so far for corporate news america continue to slog that America is so ungodly stupid as the uninformed, and have never heard of this Johnny Wizard artist taking center stage as makeshift creator antiChrist demon slayer.

Of course we should not forget to mention again, in addition, like the same, Saddam offered the demon antiChrist, Our Mr. bush Jr. unfettered access to the Iraqi national media to preach his deceit against God and Humanity freely, but bush refused, so too just like CNN and CBC censors do today by refusing communicating community interaction on our top priority war issues. Instead, we must, they claim, continue sacrificing bushite soldiers to steal Humanitarian Aid, to then double pay commi Halliburton, or WorldCom; companies found repeatedly defrauding all Americans in criminal contempt for the dying American tax payers. All the while watching now in real horror, as bush OPENLY steals almost all of the National Iraqi assets for his private auctions, but for the exception of the already claimed, iraqi Halliburton oil reserves. Why?, Ho ho ho, because, he said so, in writing. 13303 states bush is the lawless demon from scriptural references, and why Christians don't stand in service for the cried mercy begged from God, the Son, and Humanity, I'll never understand, but Johnny'll tell You, he's gonna march home even if it means I'll do it all by my lonesome. My soul isn't for sale, nor are my righteous Universal principles stealable as a true Human defender to the

last bushite standing who foolishly would choose to be my mortal enemy.

To my friends in Iraq, don't let corporate american media divide yourselves from community as equal participators. An Iraqi, is foremost, a member of our Humanity, and just like the rest of US, hate the God betraying anti-American demon antiChrist bush, more than anything else in the Universe for persecuting the innocent while killing coppers to steal our assets undefended without a leader to speak out everywhere for our living rights included. HUNDREDS, if not thousands of American soldiers have already DIED in Iraq stupidly as evil nazi vermin, GAME OVER MAN, for nothing but their cowardly ignorance on our ability to communicate FREELY for Freedoms thought died for already. Dying for bush as too cowardly to protect themselves as their own friends, and sacrificing families they silently watch criminally plundered further by their leaderless inaction on truly protecting America. Again, bush isn't America, America is America.

Justice for all, and let's name this time our own with my writing as a make believe King of Kings who's done it all already, just for the fun of it, whatdoyasay? Imagine this on a CNN spot speaking for our Justice as an equal to all beings, and like, wouldn't that be super interesting for everybody as the unjustly suffering and dying as victims under the demon bush dictates of criminal enslavement and global tyranny?

Christ, take care of yourself by killing bush, please?

Your true friend,
Johnny Wizard

US Uses Cluster Bombs to Spread Death and Destruction in Iraq

http://www.thetruthseeker.co.uk/article.asp?ID=700

/ / Gruesome pictures and footage of the mutilated bodies of Iraqi children and other innocents--images that the Western media has largely refused to show--reveal the bloody face of the ``liberation'' that Washington and London have in mind for the Iraqi people. These methods of warfare are a warning of the reprisals

and repression that will follow any military victory. \ \

nazi tyrant, the unelected mass murdering fascist
dictator, has no interest following the ample criminal
leads, because they lead to him, rumsfeld, and cheney
likely too, right? And, when that evil monster told us
instead he would rely on secret evidence, but couldn't
tell us why, as too the FBI or CIA, it turned out to be
nothing but another wicked evil deception against the
great American people, Tony Blair, bin Laden, and law
enforcement officers everywhere, to even further give
him cause to close investigations into 9/11 as Reuters

told us, and rob directly from American soldier families, their lives, pensions, life savings, and blind faith, in bush, the false diety, super evil anti-Christ.

Johnny Wizard is my Hero.

Weak Pathetic Coward Nazi Bastards

American soldiers are weak pathetic coward nazi bastards.
(snpd priceless info)

One More Thing

So, that demon bush, the American cop killer and his cohorts, are continuing to work destroying Humanity's gains in civility, by evilly dividing Our humanity with their blatantly open criminal intent to murder untold millions as US innocent, and as of yet, have not been executed by American Patriots for mass murder of God's Family in New York City. Traitors to US all on 9/11 without contention, for Our truth speaks as Ourselves, and witnessing just CNN's silence on General Ahmad, speaks volumes on their contempt for US as worthy of Justice. Refusing to do what is good for Humanity by offering the central facts as publicly recognized by Our Police Agencies to be actually documented. According to the FBI: the vacationing General Ahmad financed the alleged 9/11 mastermind, Atta, and also developed the criminal war strategy against Afghanistan with the bush administration, to boost the heroin trade, and save Enron to commit further frauds against American soldier families, while murdering over a hundred thousand American flag wavers, and then leaving US for further ruin with plans to continue on against 59 more countries in the same deceitful illegal manner against all Churches, as an evil nothing short of eternally crowning Our Mr. bush Jr., the super evil anti-Christ, the most hated and despised parasitic murderer in the entire annals of Humanity's History. Cool eh? Kill bush now! Why?

The bushmob have done nothing short of confessing to the entire terror event, but for jokes on our strained credulity to publicly press for further stalls. With the rights of kissinger left to be a public investigation official? (Gee, thanks for highlighting your partner like that for US bush, you nazi dumdum.) Mr. bush Jr.'s america destroys themselves without Love

for wisdom, or respect for intelligence as a Peace plan initiative. We publicly witness the blind and tormented dying bushmob slave whore charade, of contempt for living free in Our names. The two evil doers, bush and sadistic nazi rotten rumsfeld, are known publicly as documented, to continue leveraging the ignorance of the CNN ready to be broadcasted repeatedly, tranced dimwit marines, the true dumdums of this world as weak and pathetic cowards to themselves as their own brothers they watch murdered for bush helplessly, communicated in CNN's un-American false image as the evil bush nation hiding in falsehoods as death squad recruiters against the practically defenseless as unarmed children, nazi vermin criminals, being unbiased as Blitzer about protecting your freedom Patriot, to lose your real life savings reader, truly too weak and stupid to stand up in protection for the flag as the living American Dream for anyone. Because witness again, CNN keeps not saying Justice is important as principle to hold our reflections.(CrossFire is getting better though.) Fortified behind locked doors in their bombed out bunkers, Blitzer and Hemmer sit rooted for the evil side to lose further to themselves by continuing to not respond to our communication know how. America, the People, rarely gain press time coverage as should be top priority always, while being paraded publicly as sold out as not deliberated, corporately represented as privately principled to stay ignorant of Justice to protect living personally, as actually worth something to the bottom line. Yours. Brought down Hell bound as cheated by corporate news america's valueless interest in the price of your living to continue on our behalves. What does CNN think of 2% Social Security? cheating a Soldier's Grandmother to pay tithes to the bush demon as criminal dictator?, american nazi death squads?, insider stock trades?, arming bush's heroin partners?, rotten rumsfeld and bush murdering devout corporate cultists like a would be, still silent Hemmer?, no opinion? Or the working for the People in our names OFFICIALLY, as the FBI and CIA officers actually involved in uncovering the evil bushmob deeds, like the warrant sabotage, Odigo, stolen passports of alive so called highjackers as once American trained as still Saudi pilots, or Anthrax made to look Muslimized, is not failure to connect the dots ever, or insufficient funding then is not less payment for our law enforcement now to nab the prime suspects. As Mueller, or mueller has not publicly commented of, but to say, he hasn't seen or heard anything of this police work, leaving the FBI unrepresented publicly as a threat by himself as a

terrorist supporter, an devout member of the bushmob cartel. Why?, we must investigate Mueller if we should have him arrested for publicly obstructing the FBI asking the important questions. IT IS THE FBI, not pissant mueller, WHO CONCURES THE BUSHMOB'S AHMAD FUNDED ATTA. Or how about the dumb ass Ashcroft assault against every American to save his embarrassment of being completely unqualified and never elected?, no concern to mention on this either? Who suffers for CNN's refusal to demand Enron give back the billions that were criminally stolen from all American Families still sitting in the Cayman Islands? My God.

Somebody call the cops.. again!

I have personally spoken to hundreds, and written thousands regarding bush's guilt, and we can't seem to find any fault with what I am saying... How about You? Check out usenet group, "us.military.army" on the internet to see for US all, what questions if any are asked. Know also, CBC and CNN management staff will not contribute their disagreement as none present, but for continuing disregard for Your interests during Our news cast of the facts. THINK. I tell gun clubs, police officers, Biker gangs, and the general public to kill bush today for 9/11 and his death squads, against the helpless and undefended while arming heroin dealers and selling terrorist handbooks, with all the evidence one would need or asks for, and CNN with CBC corporate management does not, to my knowledge, call Our Police agencies to complain about my free speech capabilities, or will allow US public discussions with Our History as documented. Why? Those nazi bastards, Walter Issacson, Robert Habinovitch, and the two Coast to Coast godless vermin parasites know personally, they propagandize our communities with deceit to keep us divided as the plundered and murdered for the private banker buildings who sell weapons in bush's name to kill the innocent as ourselves unheard from. I can barely survive watching US ignore them as King to this World, my sweetie baby sugar dumpling, but, I think it's time to let Arron Brown in on a little secret... Johnny wants a word with his living responsibility to Americans on Patriotism. Instead of what we currently witness, a reluctance to not relentlessly pursue the truth to provide US the facts, (Look, it's true, Johnny has an ass.) but a censorship of control to falsely prop up the unelected nazi war mongering criminal, Our Mr. bush Jr., a terrorist of tyranny through criminal impropriety in violation with the American Constitution as a death bringer heroin dealer, at a seating that truly holds no

vacancy, nor a Buddha, but a deception to plainly hide, the actual, got to be for real, super evil anti-Christ of all religion ever mentioned. Wow eh, even gentle jolly Buddha wants bush squashed! Seriously, please kill the bush demon to save US as victims friend. Justice must prevail as is truth eternal, that of what will be as God is.. just how many more as Humanity will be sacrificed in cowardice for the evil bush demon, before an American Patriot kills the mortal nazi dictator for treason as an American cop killer, and betrayer to all of our Humanities? Don't let tomorrow's news story be about Your murder as another, no longer heard from bush victim. For, my reason is as evidenced to actually be known, easily, while the CNN corporate cult product lies to themselves as Our public fact finders to leverage more ignorance than is found now.. as Our public voice to suffer by criminal dictates to destroy God as life giver. Fuk you america.

Heaven is on the Horizon.

We can teach ourselves as the uninformed by CNN standards to misinform and ignore. CNN's continuing silence on Ahmad, bush and rotten rumsfeld, only supports further our claim in their contempt for American Soldiers, and Our Families as not represented as worthy business investment. God, don't you just love me? Hemmer?

Mr. bush's publicized war strategy of no evidence requirement to hold American convictions for murdering Ourselves is evil all around everywhere, as understood without question to every honest Cop, the most serious of all criminal behaviors, of which, they carry guns for in just this sort of political development to halt reoccurrences. But bush, the anti-Christ, as america, says no for ALL Americans, they can no longer hold onto Justice as their own with him in their charging everyone as the enemy bush refraction. Just like, "bomb wherever" tommy franks would do with his own American family death squaded, like he did intentionally to our children, as his contempt for America will never stifle our voice with his silence regarding our aimed veracity to seek out and destroy the evil nazi bushmob fuks individually with God as Justice Supreme. The True American Way, for, the rare and few Marines, the one or two, are with US loyally to know so. See, there was a time when the Marines were taught diligently, so much so it was proudly ingrained as the moral fiber of their character, that an American Soldier's responsibility to America was to defend the Constitution as the Freedom to

be America, with their lives if need be to protect their soul brothers as family, for the greater good by God, (just like the Taliban Rule Man) while today, Ashcroft, albeit muted, murmurs as rotten rumsfeld chuckles, Americans must instead as slaves give their lives unthinkingly as cowardly evil war criminals to protect the unelected bush mobster from criminal arrest for mass murders in New York City, and stealing that 50 billion, seeing that that stupid Justice thing in the American Constitution and Bill of Rights idea has now got to go instead of evil bush as demon traitor war monger, terrorist recruiting false god anti-Christ, but that aside... There is a guide book for leadership in the American Marines entitled, "Guidebook for MARINES", and inside, it contains 14 principles to strive for as an American Soldier wanting to be a True Patriot as leader of Soldiers prepared to die for love of country, and our fellow man as friend or stranger, and here they are:

Integrity, Knowledge, Courage, decisiveness, Dependability, Initiative, Tact, Justice, Enthusiasm, Bearing, Endurance, Unselfishness, Loyalty, and Judgement.

For integrity it states:

"1. Integrity. The stakes of combat are too high to gamble leadership on a dishonest man. Would you accept a report from a patrol leader who had been known to lie? Of course you wouldn't. All your statements, official or unofficial, are concidered by your men to be plain, unadorned fact. Make sure they are. When you give your word, keep it. There are people depending on you to come through with the goods."

Now, I could go on further about what kind of lifeless degenerate a lawless cowardly mute soldier in bush's nazi death squads would have to be, to serve under bush as slave and traitor to home and family, as against God, the Flag, and all that we represent as equals through Justice, but I won't.

Mr. bush's america is uncontrollable by anyone. CNN figures if they never mention US, we'll never know who was invited as participators. (Example: CIA officers have had to PUBLICLY contact British News Services as the CIA, (Never done that I know of likewise before), regarding American interests in apprehending the TRUE 9/11 culprits ignored by american corporate dictates, and tenant also. One should remember, bush and rumsfeld would want to secretly murder any persons involved in 9/11 to clean up the huge crime scene, and tenant, is no

brave and True Christ like figure as a living person, so what can we expect in all reality? Tenant will pay dearly if the evidence further indicates, as his continuing silence does label him already a willing traitor to all America, as too, his personal meeting with 9/11's Ahmad just prior seems suspicious also as not mentioned by himself in defense, along with his refusal to disclose the insider stock trades while leaving the fine CIA officers personally involved in the dark, as abandoned American Patriots, armed and ready to defend America as they should immediately for themselves, by executing bush and rumsfeld as terrorist cop killer, drug running freedom haters.)

America's false deity, the super evil anti-Christ, Our Mr. Bush Jr., doesn't think for me to be sacrificed without opinion by John, for I am free to act for my own beliefs as understanding, as I live in defense for living as all things created I am of honestly, simply amazing God is. However, I, as any truly living person would, can't help hate Our Mr. bush Jr. to death for what he and rotten rumsfeld is criminally doing, and further proposing against Our living in my name as unheard from dying without cause as murdered, but for bush's criminal contempt for my Awesomeness to beg once again friends, someone out there please, for the Love of Yourself and God, help US destroy Our Mr. bush Jr. quickly before he kills more as Ourselves unrepresented by corporate values in our commitments to freedom for living through Justice for all persons. Our Mr. bush Jr. has indiscriminately murdered more than 100,000 innocent souls with only a contemptuous smirk to his credit, while fully committed to more robbing and heroin dealing by blaming Laden for whatever without any evidence. Leaving Our true willingness silenced by corporate demands to propagandize and censor our truths, allowing bush, the dumdum traitor, to continue demonizing America into a hell hole of ignorance through his hatred for life, Science and Nature. CNN's silence for America regarding the bushmob publicly stealing from their Own Family their freedom of Rights to be living, while committing Americans to a dictatorial crime ridden government, that bush and rumsfeld proclaim, is no longer applicable to the Law of any Land, is an abomination against Christ as living is Ourselves Being. America isn't America anymore, it's the bushmobbed universe of injustice and blind self hatred against all of Humanity, committed to leave none to survive but as slaves to be terrorized for the dummy bush demon as their false deity, a traitor in my midst, disguised to

no one but himself as personally expendable. Again, where are the American Patriots we all hear so much about in the big screen to take down the seriously anti-American demon bush monster cop killer heroin pusher for treason, as all understood widely now factually with evidence and everything? Kill the war criminal evil doers, bush and rumsfeld today and be loved by yourself to be of Human Nature, or hunker to hell as a coward and betrayer to yourself and your own family, while watching the bushmob openly rob and murder further from our World, and on all of which we stand strong united. Justice for You.

This living plan of mine empowers others to learn their Rights as eternally established to be Kings and Queens on equal footing to be as all in all of gods forever dreaming, while demon bush intends the destruction of individual freedoms while robbing and murdering Americans from the inside, like sharon with US Jews does, as underrepresented, a condemning onslaught on Your better Judgement as reasoned on anything factual they figure blindly to be spinable, without your word contested. Your God Given Living Rights my friend. Without a rule of Law principled in the fashion of Justice for all to be sought as measured, bush's nazi amerika will continue to suffer ourselves needlessly for their corporatized self contempt in Our living Humanity as censored, without a thought for Justice, or the American Bill of Rights as God acting out eternally for prophets to wonder endlessly. See, I came up with this wacky Idea one day to make all my equal as self created to be so normally, in this Universe as we exist for Happiness ultimately as eternal, so, You or i will work this challenge to speak out for ourselves as Creation about bush's america, and it's responsibility as publicly advertised, to gather the facts on who suffers for bush's criminal misdeeds, and overall ignorance on everything. Mr. bush's irresponsible tax scam for example, is to put America's public money into the hands of private bankers, as the extremely rich already, while taking money away from those who spend the highest percentage of their paycheck on basic necessities as a gambled to be advertised, "stimulation package". HOW? The HOW is never explained with understanding as clearly regressive like the bush rule is, because.. Who spends MORE in taxes as investment at the grocery store to pay the cashier for his babysitter: 20,000 volunteer Janitors all named Rich, who ride the bus for convenience, or a mechanical billionaire private bank machine operator, who doesn't earn any nation's moola by

working something for it?, and couldn't eat 20,000 cans of re-fried beans at one cruise lining to timbucks three without losing themselves, havening his tax manner over take in YOUR luxury. See, when America prints more money at the Treasury to give Greenspan to loan BACK to the Government illogically, the dollar value falls for everyone as investor, inflation, let alone the incurred bogus debt owed with real sweat as labor. Clearly, to every informed citizen not as democratic. Of course, National corporate news America, is genuinely not trying as capable by themselves to commit The living interest in Government as ourselves with oversight to manage US fiscally responsible, (like CNN regarding Justice and the Congress, or no Chomsky ever, E. Ann Clark as geneticist, or just research for experts as example), so, we do indeed, live in trying times due to ignorance as corporate america's disrespect for wisdom saught as yearning. It's like private bankers don't want the public to think about what we are doing as worthwhile knowing, eh? Or, I'm the only one on this planet who can almost read my own writing as the, one of a kind, good boy God freak. Anyway, the bushmobster scam leaves less finite wealth for all as taxable exchanges, while suggesting disposing of what dwindling national resource can be obtained, be given to create further debt by devolving into a military apparatus to make more enemies. Our Mr. bush Jr. is just plain stupid as destructive to everyone, but especially Americans to not stand up in defense of Ourselves. (Officially, rotten rumsfeld's criminal plan, "P2OG", is to encourage terrorist acts against Your Family, but you guessed it, not up to CNN's standard to report US as viable news material.) It's like saying fewer people educated, will keep us stupid enough as a Nation to blame the weak and poor as ourselves deprived till death as murdered, and, bush says makes sense secretly, as the all knowing for the blind and ignorant to faith in without thinking about what money is either. Our Governments should always be working to make the poor richer as a successful representation of our will as the public to improving our living condition, but the dumb and ignorant, talentless and monosyllabic, believe, someone else must be cheated and devalued, divided and murdered, in their universe for them to succeed without effort, or skill whatsoever.. Especially defense. Have you ever heard of the rock solid certainty of Universal "inverse variation" constants? (Canadian High School.) This is why in America, in a time where the nation was more literate as informed, Corporations were taxed at 85% and were happy about it for themselves as American citizens.

It's understanding also, most as almost all of the most wealthy multi-nationals competing from military dictatorships against American minimums, run in continuous private bank debt, (your savings and pension as leveraged weaker being the entire Nations) but gross billions in profits. 99.9% of every private bank building in the Western World is mortgaged, not however in Iraq, or the Muslim World where interest is not charged on good standing loans made in Our names. (Sideline: Now recollect bush's puppet forcing Afghanistan to borrow from the World Bank for terrorist handbooks and heroin junkets, but not food, shelter or clothing, while spending in addition, 4-5 billion a month in godless bushfuked american Patriot Dollars, American Celeb Dollars, American TAX PAYER Dollars, to run deaths squads with tommy franks against teachers and children.) It's a strange idea to the dying to be corporately driven without thinking because, you wouldn't automatically think it could be more profitable to stay in cheaper as serviceable debt being a brick building, but it is by private banker swindle with National inflation succeeding personal interest rates. We lose personal wealth to the pirate banker fees without even privately using their/OUR National currency services, because truly, we can't go somewheres else. As of course in america, an Enron can always be pulled, where it goes bankrupt as a toxic non-living entity, but leave richer as crooks than they did before calling an end to paybacks, with the People stuck to take the loss together for sure as the victims. While bush, says corporating America, his america, should learn for next time, maybe, while the CRIMINALLY STOLEN money is still siting in the Cayman Islands!!! See the Depression, a Canadian High Schooler, or watch bush act in direct opposition to his word almost consistently as American death harborer terrorist psychopath. Then ask yourself, why can none of our defenses be publicly discussed as important deliberations?

Love Justice by allowing others to read this paper, to judge the truth for themselves as worth something for all persons, and I will be truly grateful you cared to believe in a better future, for together, we could find a new hope for freedom, as happiness and prosperity for Yourself included. We only need believe in ourselves as unstoppablly stupid, and the Universe is ours as God is now testifier.

I am my word,
and make believe King to this world I call home,

Yours forever,

Johnny Wizard

So his presence in amateur radio dumbs it down for everyone.

Steveo is the ultimate CB freak who, if he had his way, all the Hams
would be outlawed. Steveo is too dumb to learn theory, so he wants
everyone else to not know theory (or comply with licensing standards).

Planning to install a base antenna as soon as things warm up and could use some help.....

So far I have an Imax 99 antenna.
I was thinking of attaching it to the garage side of my house which is about~20 feet high at the peak.
I would take a 5' piece of antenna mast and pound it several feet into the ground to secure the bottom and then attach 2 more 10' pieces on top of that.
The mast could be secured to the house with several of those wall mount brackets.
How does this sound so far?

Now I understand that it must be grounded. Would having the bottom section of mast pounded into the ground as I mentioned suffice? or will I need to attach it to a seperate 8' ground rod? If a seperate rod is needed, do I attach the ground wire to the antenna mounting plate or the mast or either? Near the top of the mast or near the bottom?

I also have read of the need for a 'static discharge unit' for my coax. Could anyone recommend one? Google searches are not helping me out much.

Have some more questions, but this seems enough for now.
Any help would be really appreciated. I've been trying to piece information together from the web, but still need some more help.
Thanks!

Amen, I second that. Steveo the assjuicer is the biggest ignoramus east
of the Mississippi River. Glory Alleluia some one else here has seen
the light!
